Q2/HY1 FY2021
Investor Presentation

Forward Looking Statements:

This presentation contains forward-looking statements, including, but not limited to, the statements and expectations contained in the "Outlook" section of this presentation. Statements herein, other than statements of historical fact, regarding future events or prospects, are forward-looking statements. The words "may", "will", "should", "expect", "anticipate", "believe", "estimate", "plan", "predict", "intend" or variations of these words, as well as other statements regarding matters that are not historical fact or regarding future events or prospects, constitute forward-looking statements.

NACL Industries Ltd has based these forward-looking statements on its current views with respect to future events and financial performance. These views involve a number of risks and uncertainties, which could cause actual results to differ materially from those predicted in the forward-looking statements and from the past performance of NACL Industries Ltd. Although NACL Industries Ltd believes that the estimates and projections reflected in the forward-looking statements are reasonable, they may prove materially incorrect, and actual results may materially differ, e.g. as the result of risks related to the Agriculture sector and Agriculture input industry in general or NACL Industries Ltd in particular.

As a result, you should not rely on these forward-looking statements. NACL Industries Ltd undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent required by law.

ABOUT NACL

NACL is an established agrochemical Company in India, founded in 1993. The Company started as an Active Ingredient manufacturer and has built a sizable business in Domestic Retail, B2B and Exports, with many of the customers being large MNCs with longstanding relationships. The Company has also emerged as a strong player in the formulations business with over 50 products covering all major crops. In formulations, the Company manufactures products in all major categories such as Insecticides, Herbicides, Fungicides and Plant Growth Regulators.

Standalone Financial Performance: FY20

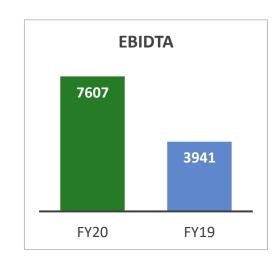

NAGARJUNA NACL

(In ₹ Lakhs)

+ 17% Year on Year

+ 93% Year on Year

Introduction of new products and increased sales from existing products resulted in YoY revenue increase.

Better absorption of manufacturing expenses due to higher volume of production and cost saving measures initiated in supply chain management helped in increasing the margins.

Key External Drivers of the Business

Indian Agriculture

Agriculture is the primary source of livelihood for about 58 per cent of India's population. Gross Value Added (GVA) by agriculture, forestry and fishing was estimated at Rs 19.48 lakh crore (US\$ 276.37 billion) in FY20(PE). Growth in GVA in agriculture and allied sectors stood at 4 per cent in FY20.

Food grain Production (FY20) 295.67 million tonnes (MT)

Horticulture Production (FY20) 320.48 million tonnes (MT)

Biotic stresses in Indian Agriculture

Globally, an average of 35% of potential crop yield is lost to pre-harvest pests. Because of the diversified agro-ecosystems, a large number of crops are grown in India often serve as the hosts to different kinds of insect pests and pathogens which cause severe yield losses in many of the commercial crops.

Food Security

According to an estimate, India would require more than 450 million tonnes of food grains to feed 1.65 billion people by 2050 which will be a very difficult task. According to UN-India, there are nearly 195 million undernourished people in India.

India is Emerging as a preferred global source for Active Ingredients

With respect to crop protection chemicals India is considered as a net exporter. With many agrochemical/crop protection manufacturers investing in technical manufacturing capacity, India is fast emerging as a preferred destination for sourcing technical. Another big opportunity the Indian industry has is to undertake manufacturing of Active Ingredients that are scheduled to lose patent protection in the next few years.

Key Strengths

Exporting Technical to over 30 Countries

Large MNC clients with long standing relations

5 Million +
Farmers across
India using
NACL's Branded
Products

Presence in the entire value chain of Agrochemicals i.e

Technical > Formulations > Research > Retail > Farmer Outreach

Brand Equity based on consistent quality, reliability and farmer handholding

50+ Products across insecticides, herbicides, fungicides, plant growth regulators and nematicides

11 member board with 8 of them having experience in Agrichem/Agri inputs / Chemicals business

Direct retail connect with over 12500 NACL dealers across India

A state-of-the-art R&D center near Hyderabad, where cost effective processes are developed for the manufacture of Active ingredients and intermediates for herbicides, insecticides and fungicides and new formulations of pesticides

Long standing business relations with MNC Crop Protection Chemicals Companies

Experienced Senior Management and good Human Potential Development initiatives

NACL's Business Model

A state-of-the-art R&D center.

Technical
manufacturing plant
with a production
capacity of 10000
metric tons per annum
for sales and captive
consumption.

Formulation unit with packaging facility for handling large capacities of liquids, powders and granules

Value Creation Process

50+ Branded Products, 47 NACL stock points and 12500 retail outlets across India under the Company's direct to retail approach

Knowledge Delivery
Based Farmer
Outreach Programmes
across India for
empowering farmers

Aggressive capacity enhancement strategy in Agrochemical, Specialty Chemicals & Advanced Intermediaries

Invest in soft assets – Product Registrations, Process know – how, Brand building

Expand to new geographies in India and Abroad.

Farmer Centric product development and sales approach.

Leverage on digital marketing to enhance customer connect

Strengthening and enhancing global collaborations

Human Development Initiatives to develop leadership skills, and for enabling each employee to focus on KRIs ad KPIs

Leverage on R&D and manufacturing capabilities for sustainable & profitable growth

- Well-defined Quality Management Systems
- Well equipped and compliant Quality control laboratories at manufacturing sites and R&D.
- Analytical instruments in the Quality control labs are complying with the latest requirements.
- Laboratories manned by qualified and trained manpower.
- NABL accredited (ISO/IEC 17025) Quality control laboratory at Technical Plant, Srikakulam and R & D at Shadnagar

Environment, Health & Safety

 In Srikakulam plant more than 70% of the land is under green cover.

• State-of-the-art Zero Liquid Discharge (ZLD) plants at Srikakulam and Ethakota.

• State of the art electrical fittings for reduced energy consumption.

 Manufacturing plants with first aid items / medicines,
 Ambulance under the supervision of qualified Medical Practitioners and Nurses.

 Periodical medical check-up and occupational health check-up are carried out for Associates to identify and prevent health risks.
