- ❖ There were no film releases in Q1FY24, therefore no significant revenue could be booked during the quarter. This quarter's results reflect the impact of fixed costs.
- ❖ The film industry is a creative industry which is highly reliant on manpower. Therefore, the production and release of films are both dependent on multiple factors including competition from other movies, availability of cast and crew, shooting locations, release windows, seasonal trends, public holidays and festivals, avoiding clashes with major events, and analyzing trends in box office performance. Therefore, short-term comparisons are fundamentally incorrect.
- ❖ Additionally, comparing the performance of different quarters may not be appropriate, as it might involve comparing a blockbuster release from the previous year with a smaller-budget film release in the current quarter. An analytically robust method of comparison would be to do it on an annual basis as that would take into account the vagaries of production as well as releases.
- ❖ The limited number of releases which we are doing currently leads to such volatility in quarterly earnings, although there is no change in the earnings outlook for the year.
- ❖ As we scale up to releasing 4 to 5 movies per annum over the next 2 years and subsequently to 10 to 12 movies per annum in the subsequent 2 - 3 years, this volatility will reduce.
- ❖ Our team is geared up for 5 to 6 productions per year and we are also building our project pipeline to achieve this target.
- ❖ The state of the film industry remains very healthy and the outlook on content demand is positive. Therefore, we are confident of scaling up profitably.

# Films Don't Fail... Budgets Do!

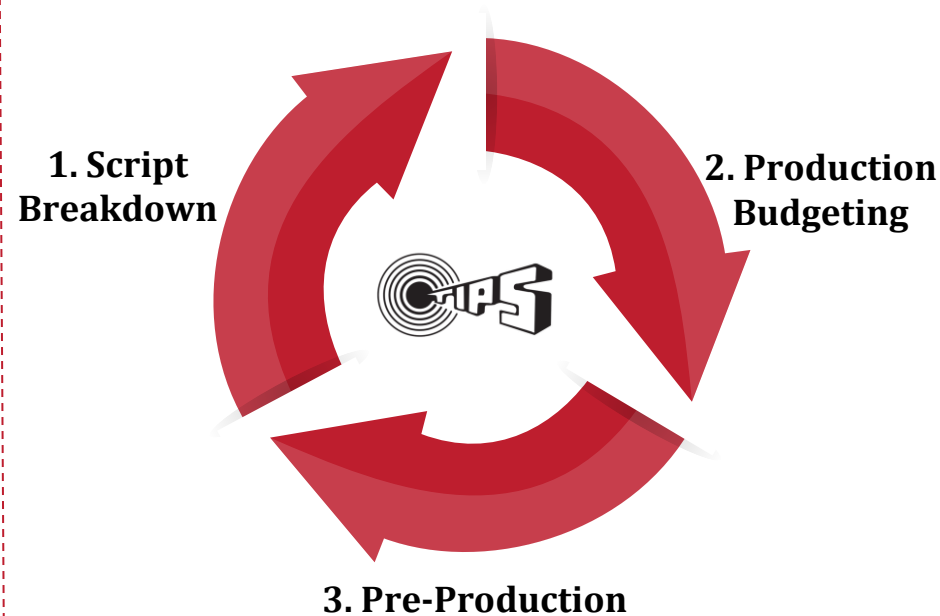

Understanding the monetization potential of a story and pairing it with the right cast and execution team is the essence of successful film making.

Budgeting is effective when a film's revenue potential determines the choice of cast and execution team.

TFL limits risk of loss by producing small and mid budget films.

For large budget films, TFL has developed a partnership model where it partners with actors and other producers on revenue sharing basis and thereby limits risk.

## Budgeting Process

## Tips Films Ltd. Accounting Policy

**Tips Films Ltd will write off 100% of the cost of the movie within 12 months of release.**

**Earlier 60% was written off in the first year, and the remaining over 9 years.**

TFL's success ratio is over 85%. This is because we continue to monetize films long after their Box-Office releases.

We own IPR of around 50 films in perpetuity and expect this library to generate substantial Free Cash Flow in the medium term.
