JAGUAR LAND ROVER AUTOMOTIVE PLC INVESTOR DAY - JUNE 2023

DISCLAIMER

Consolidated results of Jaguar Land Rover Automotive plc and its subsidiaries ("JLR") contained in the presentation are unaudited and presented under IFRS as adopted for use in the UK.

- Q1 represents the 3 month period from 1 April to 30 June
- Q2 represents the 3 month period from 1 July to 30 September
- Q3 represents the 3 month period from 1 October to 31 December
- Q4 represents the 3 month period from 1 January to 31 March
- FY represents the 12 month period from 1 April to 31 March of the following year
- YTD represents the year to date

Retail volume data includes sales from JLR's unconsolidated Chinese joint venture ("CJLR"), these are excluded from wholesale volume data.

Certain financial data included in this presentation consist of "non-IFRS financial measures". These non-IFRS financial measures, as defined by JLR, may not be comparable to similarly-titled measures as presented by other companies, nor should they be considered as an alternative to the historical financial results or other indicators of the performance based on IFRS.

EBITDA is defined as profit before: income tax expense; exceptional items; finance expense (net of capitalised interest) and finance income; gains/losses on debt and unrealised derivatives, realised derivatives entered into for the purpose of hedging debt, and equity or debt investments held at fair value; foreign exchange gains/losses on other assets and liabilities, including short-term deposits and cash and cash equivalents; share of profit/loss from equity accounted investments; depreciation and amortisation. EBIT is defined as EBITDA but including share of profit/loss from equity accounted investments, depreciation and amortisation. Free cash flow is defined as net cash generated from operating activities less net cash used in automotive investing activities, excluding investments in consolidated entities and movements in financial investments, and after finance expenses and fees paid. 'Average revenue per unit' is calculated by dividing revenue by wholesales. China market share data is based on externally sourced market information.

Certain analysis undertaken and represented in this document may constitute an estimate by JLR and may differ from the actual underlying results. The information contained in this presentation and is subject to change without notice. The information contained in this document may be updated, completed, revised and amended and such information may change materially in the future. JLR is under no obligation to update or keep current the information contained in this document.

Statements in this presentation describing JLR's objectives, projections, estimates and expectations may be "forward-looking statements" within the meaning of applicable securities laws and regulations. No statement in the presentation, including in respect of targets, is intended to be, or intended to be construed as, a forecast of JLR's earnings or cash flow and no statement in the presentation should be interpreted to mean that JLR's earnings or cash flow will necessarily match historical results or future targets. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to JLR's operations include, among others, economic conditions affecting demand / supply and price conditions in the domestic and overseas markets in which JLR operates, the effects of the COVID-19 pandemic, changes in government regulations, tax laws and other statutes and incidental factors. All forward-looking statements apply only as of the date hereof and we undertake no obligation to update this information except as required by law and do not assume any responsibility for the ultimate fairness, accuracy, correctness or completeness of any such information presented.

HOUSE OF BRANDS STATEMENT

Pivotal to our journey of transformation is the formation of the House of Brands which is a progressive evolution of JLR.

The purpose of the House of Brands is to elevate the distinct nature and status of these much-loved British marques.

This will only be achieved by the creation of intensely curated brand worlds that will inform everything from products to every single touch point and experience.

Each brand will have its own unique interpretation of modern luxury defined within the individual Brand Worlds.

Our well-established Modernist Design Philosophy will continue to be evolved and become the unifier across the House of Brands but differentiated by the brands specific DNA.

Ultimately, our desire is to create truly emotionally engaging experiences and build long-term relationships with our clients, which in turn will create increased equity and value for our brands and JLR.

WHAT IS A BRAND WORLD

A set of intangibles and tangibles that helps shape people's perception of a brand and it's products.

A luxury brand world maximises desirability and value.

WHY IS IT IMPORTANT

It allows people to build a relationship with your brand and turn them into loyal customers and advocates.

Within luxury it creates a brand people aspire to for status and fall in love with.

Brands sell dreams, not just products

COMPLIANCE OUTLOOK

Targets for CO₂ emissions expected to continue to reduce in key markets. Required mix of ZEV expected to increase significantly through to 2030.

REGION	REGULATORY ASSUMPTION
EU	Derogated target for fleet average CO ₂ reduces by 15% in 2025 from 159gCO ₂ /km
UK	Expect introduction of minimum ZEV percentage of total sales
USA: Section 177	Fleet average CO ₂ expected to continue to reduce while ZEV percentage rises
China	CAFC target expected to continue to reduce

COMPLIANCE OUTLOOK

With JLR's Re-Imagine strategy the reliance of buying credits in major markets is forecast to subside as we become a leader in sustainable mobility.

By 2028 we will no longer have to purchase credits or enter pooling agreements

FY2022/23 absolute scope 1 & 2 emissions. FY2019/20 baseline 201ktCO₂e

24.6% reduction vs. FY2019/20 baseline

Due mainly to significant reduction in expected production volumes due to semiconductor shortage, and in part to a reduction in energy consumption through planned projects

64tCO₂e/vehicle

FY2022/23 scope 3 combined purchased goods & services and use of sold products per vehicle emissions. FY2019/20 baseline 64.31tCO₂e/vehicle

0.5% reduction vs. FY2019/20 baseline

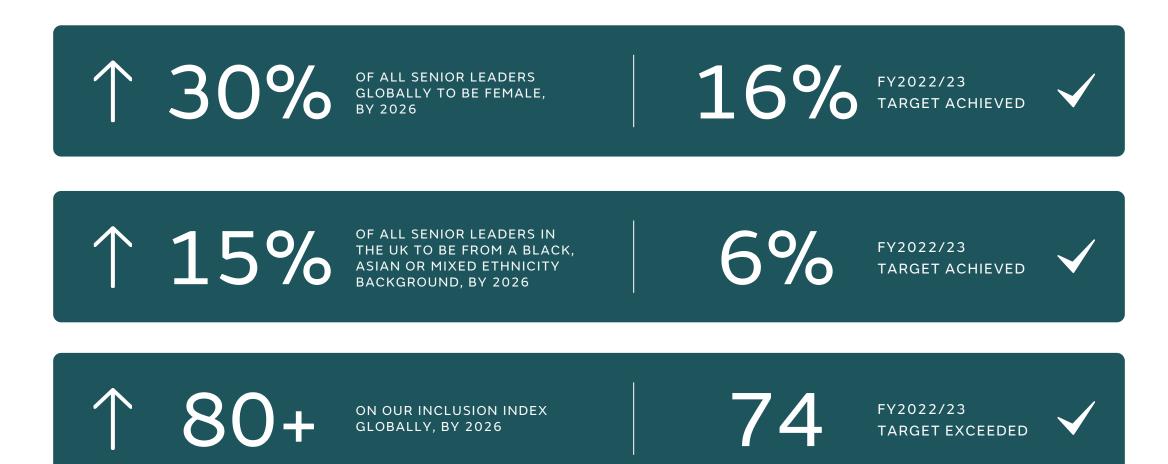

Reduction positively influenced by launch of new Range Rover and Range Rover Sport due to efficiency reductions in their use phase emissions

FY2022/23 SUSTAINABILITY ACHIEVEMENTS

- ✓ Rated as LOW RISK by Morningstar Sustainalytics
- ✓ Joined the Ellen MacArthur Foundation as a Network Partner
- ✓ Joined the World Economic Forum Circular Cars Initiative
- ✓ Continued investment in early careers and upskilling our engineers on electrification
- ✓ Advancing digitalisation for a more sustainable supply chain
- ✓ Global supply network to commit to Science-based targets

DIVERSITY AND INCLUSION: 5 YEAR STRATEGY WITH 3 KEY TARGETS

We are committed to fostering a more diverse, inclusive and unified culture that is representative of our employees, clients, and the society in which we live

DIVERSITY AND INCLUSION: ACHIEVEMENTS

In July 2022, we announced the appointment of two diversity and inclusion Board co-sponsors, Barbara Bergmeier and François Dossa, ensuring diversity and inclusion is represented at the highest levels of our business

PAY GAP REPORT - GENDER AND ETHNICITY

First ethnicity pay gap report, demonstrating our commitment to being more transparent, and to ensuring we use data to drive our actions and decision-making

TRAINING AND DEVELOPMENT

Three e-learning modules developed for our UK business with plans to create for all regions, to ensure that all colleagues have a good understanding of diversity and inclusion. These modules have reached a minimum completion rate of 92%

DISABILITY AND NEURODIVERSITY

In 2022, we joined in partnership with the Business Disability Forum and in FY2023/24, we will have a specific focus on disability and neurodiversity
