### Annual Report 2020-21

### Dear Shareholder,

I begin with a moment of remembrance for the lives lost to the pandemic and the overwhelmingly difficult times seen by large sections of our society including our colleagues, associates and their loved ones.

When I think of the year gone by, it was a mix of highs and lows, emotionally draining as many of our team members were directly or indirectly impacted by the pandemic. Yet the team spirit- strong as ever, a sense of togetherness during these unprecedented times and the determination to keep our commitments, kept us going with our hopes afloat throughout the year. I wish to reiterate that this year's performance has indeed been a revelation as far as our project management capabilities are concerned and has been powered by unwavering dedication and commitment of our team. It was a new benchmark with all processes and people across the organisation combining seamlessly with complete synergy to deliver our best ever performance, that too in the face of daunting odds posed by the pandemic. We are grateful to our customers, supply chain partners and all associates who stood by us through these testing times.

Our Revenues rose by 14% at ₹279 Crores compared to ₹245 Crores in FY20 and PAT of ₹54 Crores as compared to ₹43 Crores in FY20, up by 25%. We had Reversal of taxation of ₹ 6.9 Crores on account of adoption of Sec-115-BAA (₹ 4.4 Crores) and reversal of previous year provision of Tax (₹ 2.5 Crores) based on assessment order. EBITDA remained at the same level at ₹69 Crores.

The order book at ₹ 256 Crores is strong and the enquiry flows continue to be steady, with great potential in terms of our desired product mix and across industry segments. We made several breakthroughs of strategic importance for the company. Going forward, we will intensify our market initiatives in a major way in FY 2022.

Our priority will be to maintain a high state of readiness to face the challenges sure to be thrown up by the pandemic. We will do the necessary to facilitate vaccination of our team members and maintain the pandemic protocol without letting our guard down. We also have our task cut out to expedite the ongoing capex at Odhav for completion in H1 and begin the work at Kheda with a sense of urgency. As a team, we are motivated and committed to make all efforts to achieve our short term and long term objectives.

We express a deep sense of gratitude to the health care workers, doctors & medical experts across the length & breadth of this country who made it possible for people and businesses to keep moving forward with optimism.

### Best regards,

Rishi Roop Kapoor Chief Executive Officer

## Notice

Notice is hereby given that the **4th (Fourth)** Annual General Meeting ("AGM") of the Members of **The Anup Engineering Limited** will be held on Tuesday, 17th August 2021 at 11:00 a.m. through Video Conferencing ("VC") / Other Audio Visual Means ("OAVM") to transact the following businesses:

### NOTES

- In view of the continuing COVID-19 pandemic, The Ministry of Corporate The Ministry of Corporate Affairs ("MCA") has vide its circular dated 13th January 2021 read with circulars dated 8th April 2020, 13th April 2020 and 5th May 2020 ("MCA Circulars") and Securities and Exchange Board of India vide its circular dated 15th January 2021 read with 12th May, 2020 ("SEBI Circular"), permitted the holding of the Annual General Meeting ("AGM") through VC / OAVM, without the physical presence of the Members at a common venue. In compliance with the provisions of the Companies Act, 2013 ("Act"), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and MCA Circulars, the AGM of the Company will be held through VC / OAVM. Hence, Members can attend and participate in the 4th AGM through VC/OAVM only. The deemed venue for the 4th AGM of the Company shall be the Registered Office of the Company. The detailed procedure for participating in the meeting through VC/OAVM is explained at Note No.19 below.
- 2. Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA and SEBI Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for

the AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice.

- 3. The Register of Members and Share Transfer Books of the Company will remain closed from the Wednesday, the 11th August 2021 to Tuesday, the 17th August 2021 (both days inclusive).
- 4. **DIVIDEND:** The dividend on equity shares for the year ended 31st March 2021, as recommended by the Board of Directors, if approved at the AGM, would be paid / dispatched subject to deduction of tax at source on due date (i) to all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL"), as of the close of business hours on Tuesday, the 10th August 2021 and (ii) To all Members in respect of shares held in physical form after giving effect to valid transfer, transmission or transposition requests lodged with the Company as of the close of business hours on Tuesday, the 10th August 2021.
- 5. TDS ON DIVIDEND: Pursuant to the changes introduced by the Finance Act 2020, w.e.f. 1st April 2020, the Company would be required to deduct tax at source (TDS) at the prescribed rates on the dividend paid to its shareholders. The TDS rate would vary depending on the residential status of the shareholder and the documents submitted by them and accepted by the Company. Accordingly, the above referred Final Dividend will be paid after deducting the TDS. The Company will be sending out individual communication to the shareholders who have registered their email IDs with us. For the detailed process, the information is a vailable on the Company's website at https://www.anupengg.com/dividend/.
- Members are requested to note that, dividends if not encashed 6. for a consecutive period of 7 years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund ("IEPF"). The shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF Authority. In view of this, Members are requested to approach the Company or its RTA to claim their dividends, within the stipulated timeline. The Company did not declare any dividend on equity shares for the financial year 2017-18. Unclaimed and unpaid dividends for the financial year 2018-19 and 2019-20 will be transferred to this fund on due date. Kindly note that once unclaimed and unpaid dividends and shares are transferred to the Investor Education and Protection Fund, members will have to approach to IEPF Authority for such dividends and shares.
- 7. SEBI vide its Circular No. SEBI/HO/MIRSD/DOP1/ CIR/P/2018/73 dated 20th April 2018 has mandated that for making dividend payments, companies whose securities are listed on the stock exchanges shall use electronic clearing services, direct credit, real time gross settlement, national electronic funds transfer etc. The Company and its Registrar and Share Transfer Agent viz. Link Intime India Private Limited ("RTA") are required to seek relevant bank details of shareholders from depositories/ investors for making payment of dividends in electronic mode. Accordingly, Members are requested to provide or update (as the case may

be) their bank details with the respective depository participant for the shares held in dematerialized form and with the RTA in respect of shares held in physical form.

- 8. In compliance with the aforesaid MCA Circulars and SEBI Circular, Notice of the AGM inter-alia, indicating the process and manner of voting through electronic means along with the Annual Report 2020-21 is being sent only through electronic mode to those Members whose e-mail addresses are registered with the Company / Depositories. Members may note that the Notice and Annual Report 2020-21 will also be available on the Company's website i.e. <u>https://www.anupengg.com/financial-reports/</u>, websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at <u>https://www.bseindia.com</u> and <u>https://www.nseindia.com</u> respectively, and on the website of NSDL i.e. <u>https:// www.evoting.nsdl.com</u>.
- 9. In case of Joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM.
- 10. Members attending the AGM through VC / OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
- 11. Members may note that the VC/OAVM Facility, provided by NSDL, allows participation of atleast 1,000 Members on a first-comefirst-served basis. The large shareholders (i.e. shareholders holding 2% or more shareholding), promoters, institutional investors, directors, key managerial personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, auditors, etc. can attend the AGM without any restriction on account of first-come first-served principle.
- 12. The relevant Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 setting out material facts concerning the business under Item No. 4 and 5 of the Notice, is annexed hereto. The relevant details, as required under Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard – 2 on General Meetings issued by the Institute of Company Secretaries of India, of the person seeking appointment/ re-appointment as a Director under Item No. 3 of the Notice is also annexed to the notice.
- 13. The Register of Directors and Key Managerial Personnel and their shareholding maintained under Section 170 of the Act, the Register of Contracts or Arrangements in which the directors are interested, maintained under Section 189 of the Act, and the relevant documents referred to in the Notice will be available electronically for inspection by the members during the AGM. All documents referred to in the Notice will also be available electronically for inspection without any fee by the members from the date of circulation of this Notice up to the date of AGM. Members seeking to inspect such documents can send an email to investorconnect@anupengg.com.
- 14. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN to

their Depository Participants (DPs) with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to RTA / Company.

- 15. As per Regulation 40 of SEBI Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from 1st April 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Members can contact the Company or RTA for assistance in this regard.
- 16. A person who is not a Member as on the cut-off date should treat this Notice for information purposes only.
- 17. Since the AGM will be held through VC / OAVM, the Route Map is not annexed with Notice.

### 18. INSTRUCTIONS FOR VOTING THROUGH ELECTRONIC MEANS (E-VOTING) AND OTHER INSTRUCTIONS RELATING THERETO ARE AS UNDER:

- I. In compliance with the provisions of Section 108 of the Companies Act, 2013 read with the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the Listing Regulations, the Company is pleased to provide to its Members facility to exercise their right to vote on resolutions proposed to be passed in the Meeting by electronic means.
- II. The Company has engaged the services of NSDL as the Agency to provide remote e-Voting facility and e-Voting during the AGM.
- III. Ms. Ankita Patel, Company Secretary, Ahmedabad has been appointed as the Scrutinizer to scrutinize the e-Voting during the AGM and remote e-Voting in a fair and transparent manner.
- IV. The Results of voting will be declared within two working days from the conclusion of the AGM. The declared Results, along with the Scrutinizer's Report will be submitted with the Stock Exchanges where the Company's equity shares are listed (BSE Limited & National Stock Exchange of India Limited) and shall also be displayed on the Company's website https://www.anupengg.com/ and NSDL's website https:// www.evoting.nsdl.com.
- V. Voting rights of the Members for voting through remote e-Voting and voting during the AGM shall be in proportion to shares of the paid-up equity share capital of the Company as on the cut-off date i.e. Tuesday, 10th August 2021 A person, whose name is recorded in the Register of Members or in the Register of Beneficial owners (as at the end of the business hours) maintained by the depositories as on the cut-off date shall only be entitled to avail the facility of remote e-Voting and voting during the AGM.
- VI. The remote e-Voting facility will be available during the following period:

- a. Commencement of remote e-Voting: 9.00 A.M. (IST) on Friday, 13th August 2021
- b. End of remote e-Voting: 5.00 P.M. (IST) on Monday, 16th August 2021
- c. The remote e-Voting will not be allowed beyond the aforesaid date and time and the remote e-Voting module shall be disabled by NSDL upon expiry of aforesaid period.
- VII. Those Members, who will be present in the AGM through VC/OAVM facility and have not cast their vote on the Resolutions through remote e-Voting and are otherwise not barred from doing so, shall be eligible to vote through e-Voting system during the AGM.
- VIII. The Members who have cast their vote by remote e-Voting prior to the AGM may also attend/ participate in the AGM through VC / OAVM but shall not be entitled to cast their vote again.
- IX. Any person, who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and holds shares as of the cut-off date, may obtain the login ID and password by sending a request at evoting@nsdl.co.in mentioning their demat account number/folio number, PAN, name and registered address. However, if he/she is already registered with NSDL for remote e-Voting then he/she can use his/her existing User ID and password for casting the vote.
- X. Process and manner for Remote e-Voting:

### How do I vote electronically using NSDL e-Voting system?

The way to vote electronically on NSDL e-Voting system consists of "Two Steps" which are mentioned below:

Step 1: Access to NSDL e-Voting system

Step 2: Cast your vote electronically on NSDL e-Voting system.

### Step 1: Access to NSDL e-Voting system

### (A) Login method for e-Voting and joining virtual meeting for Individual shareholders holding securities in demat mode

In terms of SEBI circular dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Login method for Individual shareholders holding securities in demat mode is given below:

Type of shareholders	Login Method		
Individual Shareholders	<ol> <li>If you are already registered for NSDL</li></ol>		
holding securities in	IDeAS facility, please visit the e-		
demat mode with	Services website of NSDL. Open web

(B) Login Method for shareholders other than Individual shareholders holding securities in demat mode and shareholders holding securities in physical mode.

### How to Log in to NSDL e-Voting website?

- Visit the e-Voting website of NSDL Open web browser by typing the following URL: <u>https://www.evoting.nsdl.com/</u> either on a Personal Computer or on a mobile.
- 2. Once the home page of e-Voting system is launched, click on the icon "Login" which is available under Shareholders' section.
- 3. A new screen will open. You will have to enter your User ID, your Password and a Verification Code as shown on the screen.

Alternatively, if you are registered for NSDL e - services i.e. IDEAS, you can log-in at <u>https://eservices.nsdl.com/</u> with your existing IDEAS login. Once you log-in to NSDL e - services after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e. cast your vote electronically.

4. Your User ID details are given below:

Manner of holding shares i.e. Demat (NSDL or CDSL) or Physical	Your User ID is:
a) For Members who hold shares in demat account with NSDL	8 Character DP ID followed by 8 Digit Client ID. For example if your DP ID is IN300*** and Client ID is 12***** then youruser IDis IN300***12*****.
b) For Members who hold shares in demat account with CDSL	16 Digit Beneficiary ID. For example if your Beneficiary ID is 12************************************
c) For Members holding shares in Physical Form.	EVEN Number followed by Folio Number registered with the company. For example if folio number is 001*** and EVEN is 101456 then user ID is 101456001***

- 5. Password details for shareholders other than Individual shareholders are given below:
  - a) If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.
  - b) If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.
  - c) How to retrieve your 'initial password'?
  - (i) If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in

physical form. The pdf file contains your 'User ID' and your 'initial password'.

- (ii) If your email ID is not registered, please follow steps mentioned below in process for those shareholders whose email ids are not registered
- 6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:
  - a) Click on <u>"Forgot User Details/Password?"</u> (If you are holding shares in your demat account with NSDL or CDSL) option available on <u>www.evoting.nsdl.com</u>.
  - b) <u>"Physical User Reset Password?"</u> (If you are holding shares in physical mode) option available on <u>www.evoting.nsdl.com</u>.
  - c) If you are still unable to get the password by aforesaid two options, you can send a request at <u>evoting@nsdl.co.in</u> mentioning your demat account number/folio number, your PAN, your name and your registered address.
  - d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.
- 7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.
- 8. Now, you will have to click on "Login" button.
- 9. After you click on the "Login" button, Home page of e-Voting will open.

## Step 2: Cast your vote electronically and join General Meeting on NSDL e-Voting system.

## How to cast your vote electronically on NSDL e-Voting system?

- After successful login at Step 1, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle and General Meeting is in active status.
- Select "EVEN" of company which is The Anup Engineering Limited for which you wish to cast your vote during the remote e-Voting period and casting your vote during the General Meeting. For joining virtual meeting, you need to click on "VC/OAVM" link placed under "Join General Meeting".
- 3. Now you are ready for e-Voting as the Voting page opens.
- 4. Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Confirm" when prompted.
- 5. Upon confirmation, the message "Vote cast successfully" will be displayed.
- 6. You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
- 7. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

### **General Guidelines for shareholders:**

- Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority Letter etc. with attested specimen signature of the duly authorized signatory(ies) who are authorized to vote, to the Scrutinizer by e-mail to <u>csankitapatel@gmail.com</u> with a copy marked to <u>evoting@nsdl.co.in</u>.
- 2. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-Voting website will be disabled upon five unsuccessful attempts to key in the correct password. In such an event, you will need to go through the <u>"Forgot User Details/Password?"</u> or <u>"Physical User Reset Password?"</u> option available on <u>www.evoting.nsdl.com</u> to reset the password.
- 3. ## Explanatory Statement pursuant to Section 102(2) of the Companies Act, 2013

### ltem No. 4

The Board of Directors on the recommendation of the Audit Committee, re-appointed M/s. Maulin Shah & Associates, Cost Accountants, Ahmedabad as the Cost Auditors to carry out the audit of cost records of the Company for the financial year 2021-22 and fixed the remuneration of ₹25,000/- (Twenty Five Thousand Only) plus applicable taxes and out of pocket expenses.

Inaccordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies [Audit and Auditors] Rules, 2014, the remuneration fixed by the Board of Directors has to be ratified by the shareholders of the Company. Accordingly, consent of the members is being sought for passing an Ordinary Resolution for ratification of remuneration payable to the Cost Auditors to carry out the audit of cost records of the Company for the financial year 2021-22.

None of the Directors and Key Managerial Personnel of the Company and their relatives, are in any way concerned or interested in the said Resolution.

 $The {\it Board} recommends this {\it Ordinary} {\it Resolution} for your approval.$ 

### ltem No. 5

Currently, the Non-Executive Directors (other than the Managing Director, Wholetime Directors) are paid commission not exceeding 1% per annum of the net profits of the Company in terms of the resolution passed by the Members at the 2nd Annual General Meeting held on 7th August 2019 and as decided by the Board of Directors of the Company. However, in the event, if the Company has no profits or its profits are inadequate in any financial year, the Non-Executive Directors are paid only the sitting fees towards attending the meetings of Board or Committees, as the case may be, and no remuneration is paid which is unfair with regards to the efforts, expertise and the responsibility expected from them in accordance with the Corporate Governance Policies. The Board, therefore, in the view of contributions made by them so far, recognizes the need to suitably remunerate the director(s) of the Company who are neither in the wholetime employment nor managing director(s) irrespective of the profit of the Company.

The Ministry of Corporate Affairs has recently amended Section 197(3) of the Companies Act, 2013 and Schedule V thereto, which permits the payment of following remuneration to a Director who is neither a Wholetime Director, nor a Managing Director of a Company, in the event, if the Company has no profits or its profits are inadequate in any financial year by passing Special or Ordinary Resolution, as the case may be:

Sr. No.	Where the effective capital (in rupees) is	Limit of yearly remuneration payable shall not exceed (in rupees) in case of other director
1	Negative or less than 5 crores.	12Lakhs
2	5 crores and above but lessthan100crores.	17Lakhs
3	100 crores and above but less than 250 crores.	24Lakhs
4	250 crores and above.	24 Lakhs plus 0.01% of the effective capitalinexcessof₹250crores

The above limits can be exceeded if the resolution passed by the shareholders is a special resolution.

The Board and/ or Committee of the Board may from time to time determine, every year the amount of commission within the limit of 1% of the net profit and in the event of the Company having no profits or inadequate profits in any financial year during the above mentioned period, as per the limits specified in Part II of Section II (A) of Schedule V to the Act as applicable to the Company but not exceeding ₹ 50,00,000/- (Rupees Fifty Lakhs only) and the same be apportioned amongst the Non-Executive Directors [other than the Managing Director and Wholetime Director(s)] in such manner and up to such amount as the Board and/or Committee of the Board may, from time to time, determine.

Notwithstanding anything to the contrary herein contained, where in any financial year during the above period(s), the Company has no profits or its profits are inadequate, the Company will pay remuneration for a period not exceeding three years as as mentioned in Section II of Part II of Schedule V of the Companies Act, 2013.

The payment of remuneration by way of commission to Non-Executive Directors will be in addition to the sitting fees payable to them for attending each meeting of the Board/ Committee.

\* There is negligible impact on Company's financials as its Subsidiary has not yet started its operation during the year under review.

### 2 PERFORMANCE REVIEW AND THE STATE OF COMPANY'S AFFAIRS

### **On Standalone Basis**

The total income of the Company was ₹28,285.74 Lakhs during the year as against ₹ 24,952.80 Lakhs in the previous year. The Company has reported net profit of ₹ 5,376.43 Lakhs during the year under review as against profit of ₹ 4,296.84 Lakhs in the previous year.

### On Consolidated Basis

The consolidated total income of the Company was ₹ 28,268.39 Lakhs during the year as against ₹ 24,952.80 Lakhs in the previous year. The Company has reported consolidated net profit of ₹5,352.32 Lakhs during the year under review as against profit of ₹4,296.83 Lakhs in the previous year.

### Order Book

Anup's order book continues to remain very strong and opened the new financial year with confirmed orders of ₹ 256 Crores.

Your Company has posted highest ever profits during the year under review. This is during a year in which humankind has faced challenges which are not within living memory. The impact of Covid-19 was felt across the economy and businesses. The good performance has been possible due to sustained excellence in project management, higher operational efficiencies and an extremely committed team.

### 3 EFFECT OF COVID-19 PANDEMIC

The economic contraction in the first half of FY 2020-21 was very challenging due to COVID – 19 lockdown; however, business activities returned to normalcy gradually but surely. Your Company continued to witness quite a steady demand across all segments despite a sustained and prolonged pandemic onslaught.

Your Company has considered the possible effects that may result from COVID-19 in preparation of these financial results including recoverability of its assets comprising Property, Plant and Equipment, Intangible Assets, Trade Receivables, inventory and other assets. In developing the assumptions relating to future uncertainties in the economic conditions due to COVID-19, the Company has considered internal and external information up to the date of approval of these standalone financial results including economic forecasts and expects that the carrying amount of these assets are recoverable. The impact of the global health pandemic may be different from that estimated as at the date of approval of these standalone financial results.

### 4 DIVIDEND

The Board of Directors have recommended a final dividend of  $\mathbf{\overline{\tau}}$  7.00 (70%) per equity share of  $\mathbf{\overline{\tau}}$  10/- each for the year ended on 31st March 2021. The proposal is subject to the approval of shareholders at the ensuing Annual General Meeting. The final dividend on equity shares, if approved by the members, would involve a cash outflow of  $\mathbf{\overline{\tau}}$  6.90 Crores.

### 5 TRANSFER TO RESERVES

During the year under review, no amount is appropriated from Profit and Loss Account and transferred to any Reserve Account.

### 6 MATERIAL CHANGES AND COMMITMENT AFFECTING THE FINANCIAL POSITION OF THE COMPANY

There are no material changes and/or commitments which may affect the financial position of the Company between the end of the financial period and the date of this report.

### 7 SHARE CAPITAL

During the financial year under the review, there has been no change in the Authorised Capital of the Company. The Authorised share capital of the company as on 31st March 2021 stood at ₹65,25,00,000/- divided into 6,52,50,000 equity shares of ₹10/- each.

### Allotment of Shares

During the year company has allotted 19482 Equity Shares to the eligible employees on exercise of the options granted under The Anup Engineering Limited – Employee Stock Option Scheme (DEMERGER) – 2018.

During the year under review, the Company has neither issued shares with differential voting rights and sweat equity shares.

### **Buyback of shares**

The Board of Directors, at its meeting held on 10th February 2021, approved Buyback of the Company's fully paid-up equity shares of face value of ₹ 10/- each from the eligible equity shareholders of the Company other than Promoters, members of Promoter Group and persons in control of the Company, at a price not exceeding ₹800/- per equity share (Maximum Buyback price), for an aggregate amount not exceeding ₹ 25.00 Crores (Maximum Buyback size), payable in cash from the open market route through the stock exchange mechanism under the Companies Act, 2013 and SEBI Buyback Regulations. The Buyback commenced on 24th February 2021 and closed on 15th March 2021. The Company has bought back 3,87,850 equity shares at an average price of ₹ 642.50 per equity share for an aggregate consideration of ₹ 24.92 Crores excluding Transaction Costs. All the Equity Shares bought back under the Buy-back are extinguished in accordance with the provisions of the Buy-back Regulations.

Consequently, post allotment and buyback the paid-up share capital of company as on 31st March 2021 stood at ₹9,83,11,500/divided into 98,31,150 equity shares of ₹10/- each.

### 8 EMPLOYEE STOCK OPTION SCHEMES (ESOS)

The Company has instituted three schemes viz, The Anup Engineering Limited - Employee Stock Option Scheme - 2018 ("TAEL ESOS - 2018"), The Anup Engineering Limited - Employee Stock Option Scheme (Demerger) - 2018 ("TAEL ESOS (DEMERGER) - 2018") and ANUP - Employee Stock Option Scheme - 2019 ("ANUP - ESOS 2019").

The Company has issued 87,500 options under TAEL ESOS - 2018, 58,371 options under TAEL ESOS (DEMERGER) - 2018 and 37500 options under Anup - ESOS 2019 up to 31st March 2021. All these options are convertible into equal number of Equity Shares of face value of ₹ 10 each.

The disclosures with respect to TAEL ESOS - 2018, TAEL ESOS (Demerger) - 2018 and ANUP ESOS - 2019 as required by Section 62 of the Companies Act, 2013, Rule 12 of Companies (Share Capital and Debentures) Rules, 2014 and the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 are set out in **Annexure-A** to the Board's Report.

## DISCLOSURE UNDER SECTION 67(3)(C) OF THE COMPANIES ACT, 2013

No disclosure is required under section 67(3)(c) of the Companies Act, 2013 read with Rule 16(4) of Companies (Share Capital and Debentures) Rules, 2014 in respect of voting rights not exercised directly by the employees of the Company as the provisions of the said section are not applicable.

### 10 DEPOSITS

Q

The Company has not accepted or renewed any deposits in terms of Chapter V of the Companies Act, 2013 read with the Companies (Acceptance of Deposit) Rules, 2014 and hence furnishing the details of deposit in terms of Chapter V of the Companies Act, 2013 is not applicable to the Company. Further there are no outstanding deposits as at 31st March 2021.

## 11 PARTICULARS OF LOANS, GUARANTEES AND INVESTMENTS

Details of Loans, Guarantees and Investments covered under the provisions of Section 186 of the Companies Act, 2013 are given in the notes to the Financial Statements.

### 12 CORPORATE SOCIAL RESPONSIBILITY

The Anup Engineering Limited Policy on Corporate Social Responsibility (TAELCSR), has been put in place to emphasize the underlying value system of the company and a firm belief that only in a healthy society healthy businesses flourish. It facilitates and formalizes the CSR processes, sets up a guiding structure and defines broader thematic areas for projects and programs. The Company defines an annual budget and CSR initiatives and works with like-minded organizations. Our CSR Policy is in sync with the broader areas of Schedule VII of the Companies Act, 2013 and will always be aligned to the changes that get incorporated in the schedule.

During the year under review, the company undertook a project of "Farmers' Skill Training" under the broad theme Rural Development. The brief details of Corporate Social Responsibility Policy, initiatives undertaken and the amount spent during the financial year 2020-21 is enclosed as **Annexure-B**.

### 13 HUMAN RESOURCES

Any organization, is only as effective and successful as the people comprising its workforce. At Anup, we believe that our human

capital is our biggest asset and shapes business outcomes. Engaging, empowering and enabling employees is critical for sustained growth and organizational results and at Anup, we are committed to that effort.

A better employee experience is critical to long term organizational results of the company and we are invested in this effort through continuous dialogue, feedback and review on an ongoing basis. While focus has been on scaling this effort, concerted steps have been taken to ensure transformation of the HR function through the route of technology, in a stronger performance management, instituting performance conversations and reviews and creating opportunities for succession and pipeline building in the company.

HR areas relating to talent acquisition, enhanced life cycle experience, creation of rewards and recognition programs, robust performance management framework and creating lateral opportunities for people across diverse functions helps in creating a cohesive, empowered and an involved workforce. The Company believes in providing opportunities to its employees for their all-round growth and organizes various functional, technical, behavioral training and seminars during the year and many engagement activities.

### 14 RISK MANAGEMENT

The Company has developed and implemented a Risk Management Policy. The policy identifies the threat of such events as "Risks", which if occurred will adversely affect value to shareholders, ability of Company to achieve objectives, ability to implement business strategies, the manner in which the Company operates and reputation. Such risks are categorized into Strategic Risks, Operating Risks and Regulatory Risks.

The framework defines the process for identification of risks, its assessment, mitigation measures, monitoring and reporting. While the Company, through its employees and Executive Management, continuously assess the identified Risks, the Audit Committee reviews the identified Risks and its mitigation measures annually.

### 15 INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an Internal Control System, commensurate with the size, scale and complexity of its operations. The Company has an Internal Audit department with adequate experience and expertise in internal controls, operating system and procedures.

The system is supported by documented policies, guidelines and procedures to monitor business and operational performance which are aimed at ensuring business integrity and promoting operational efficiency.

The Internal Audit Department reviews the adequacy of internal control system in the Company, its compliance with operating systems and laid down policies and procedures. Based on the report of internal audit function, process owners undertake corrective actions in their respective areas and thereby strengthen the controls. Significant audit observations and corrective actions thereon are presented to the Audit Committee of the Board of Directors from time to time.

### 16 VIGIL MECHANISM / WHISTLE BLOWER POLICY

The Company has a vigil mechanism named Whistle Blower Policy

to deal with instances of fraud and mismanagement, if any. The details of the Whistle Blower Policy are explained in the Corporate Governance Report and also posted on the website of the Company at www.anupengg.com > Investors > Policies.

As per the provisions of Section 203 of the Companies Act, 2013, Mr. Rishi Roop Kapoor, Chief Executive Officer, Mr. Bhavesh Shah, Chief Financial Officer and Mr. Chintankumar Patel, Company Secretary are the key managerial personnel of the Company.

### 19 BOARD EVALUATION

Pursuant to the provisions of the Companies Act, 2013 and Regulation 17(10) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board has carried out an annual evaluation of its own performance as well as that of its Committees and individual directors. The manner in which the evaluation has been carried out has been explained in the Corporate Governance Report.

### 20 REMUNERATION POLICY

The Board has, on the recommendation of the Nomination and Remuneration Committee, framed a policy for selection and appointment of Directors, Key Managerial Personnel and Senior Management and their remuneration. The Remuneration Policy is available on the website of the Company at <u>www.anupengg.com > Investors > Policies.</u>

### 21 FAMILIARIZATION PROGRAM FOR THE INDEPENDENT DIRECTORS

The Independent Directors have been updated with their roles, rights and responsibilities in the Company by specifying it in their appointment letter along with necessary documents, reports and internal policies to enable them to familiarize with the Company's procedures and practices. The Company has through presentations, at regular intervals, familiarized and updated the Independent Directors with the strategy, operations and functions of the Company and Engineering Industry as a whole. The details of such familiarization programs for Independent Directors are explained in the Corporate Governance Report and posted on the website of the Company at <u>www.anupengg.com > Investors > Policies.</u>

### 22 DECLARATION OF INDEPENDENCE

The Company has received declarations from all the Independent Directors of the Company confirming that they meet the criteria of independence as prescribed under Section 149(6) of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and they have complied with the Code for Independent Directors as prescribed in Schedule IV to the Companies Act, 2013.

### 23 NUMBER OF MEETINGS OF THE BOARD OF DIRECTORS

Five (5) Meetings of the Board of Directors were held during the financial year ended 31st March 2021. The intervening gap between two consecutive meetings was within the period prescribed under the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The details of the Board and the Committee meetings are provided in the Corporate Governance Report forming part of this Report.

### 24 DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Section 134(5) of the Companies Act, 2013, the Board of Directors, to the best of their knowledge and ability, confirm that:

- a. in preparation of the annual accounts for the financial year ended 31st March 2021, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;
- they have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit and loss of the Company for that period;
- c. they have taken proper and sufficient care for the maintenance of adequate accounting records in accordance

with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

- d. they have prepared the annual accounts on a going concern basis;
- e. they have laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and were operating effectively;
- f. they have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

### 25 RELATED PARTY TRANSACTIONS

All the related party transactions are entered on arm's length basis, in the ordinary course of business and are in compliance with the applicable provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. There are no materially significant related party transactions made by the Company with Promoters, Directors, Key Managerial Personnel, etc. which may have potential conflict with the interest of the Company at large or which warrants the approval of the shareholders. Accordingly, no transactions are being reported in Form AOC-2 in terms of Section 134 of the Act read with Rule 8 of the Companies (Accounts) Rules, 2014. However, the details of transactions with Related Parties are provided in the Company's financial statements in accordance with the Accounting Standards.

All Related Party Transactions are presented to the Audit Committee and the Board. Omnibus approval is obtained for the transactions which are foreseen and repetitive in nature. A statement of all related party transactions is presented before the Audit Committee on a quarterly basis, specifying the nature, value and terms and conditions of the transactions.

The policy on Related Party Transactions as approved by the Board is available on website of the company at <a href="http://www.anupengg.com/lnvestors/policies">www.anupengg.com/lnvestors/policies</a>.

### 26 SIGNIFICANT AND MATERIAL ORDERS PASSED BY THE REGULATORS OR COURTS OR TRIBUNALS

No significant or material orders impacting going concern basis were passed by the regulators or courts or tribunals which impact the going concern status and Company's operations in future.

## Annexure - B to the Directors' Report

### Annual Report on Corporate Social Responsibility (CSR) Activities

### Annexure I

### Brief outline on CSR policy of the Company

The Corporate Social Responsibility (CSR) Policy of The Anup Engineering Limited defines its philosophy and guides its actions for undertaking and supporting socially relevant project and programs. Company's underlying value system has a firm belief that only in a healthy society healthy businesses flourish. **The Anup Engineering Limited Policy on Corporate Social Responsibility** (TAELCSR) has been put in place to facilitate and formalize the CSR processes, set up a guiding structure and define broader thematic areas for projects and programs. For doing so, the Company define an annual budget, CSR initiatives and work with like-minded organizations.

Our CSR Policy is in sync with the broader areas of Schedule VII of the Companies Act, 2013 and will always be aligned to the changes that gets incorporated in the schedule.

The key points of the policy are presented below and the policy can be reached at our website through the given link: <u>https://www.anupengg.com/wp-content/uploads/2019/02/Corporate-Social-Responsibility-Policy.pdf</u>

### **Overview of CSR Initiatives**

The Anup Engineering Limited through its CSR policy aims to work for social advancement. The Company broadly defined its CSR thematic focus area as Rural Advancement and Educational Advancement. (Schedule VII - Point X Rural Development & point II Promoting Education).

The Anup Engineering Limited has defined undertaking the "Corporate Social Responsibility" (CSR) initiatives through Narottam Lalbhai Rural Development Fund (NLRDF) and Strategic Help Alliance for Relief to Distressed Area (SHARDA) Trust. NLRDF and SHARDA have been active since over four and two decades respectively in improving the quality of life of the rural poor and the urban poor.

The Ministry of Corporate Affairs has given a new format for reporting from the year 2020-21. The Annexure I has the Initiative brief and Annexure II has the financial details in the prescribed format.

### Initiative brief:

The initiative supported during the year is a project titled **"Farmers'** Skill Training" under the broad theme Rural Development.

### Impact of Pandemic

The world has witnessed the pandemic that hugely distressed everyone during 2020-21. While the report is being written in first quarter of 2021-22, the Pandemic is still causing loss of lives and livelihood. This pandemic has hugely affected one and all and our CSR initiatives are no exception. However, our project being in rural areas ensured that our activities didn't suffer much. Around 25 of our Farmers associated with the project did get infected to COVID. However, all of them recovered and we supported them with the insurance claims.

In the following paragraphs, we report what we could accomplished during the year 2020-21.

The programme is being carried out in states of Gujarat, Maharastra and Telangana. There are little over 30,000 farmers and around 90,000 acres of land. The project caters to farmers having an average of around 3.0 acres of land.

The project areas are known for its cotton production since decades as the support infrastructure is available in this region. However, the capacity building of Farmer's is needed. Genetically modified cotton varieties are used by cotton growers. It was used for improving the cotton yield by managing the menace of Pink Boll worm. However, the poor awareness about the production technology and the crop management has led to higher expenses, poor production and pollution resulting into farmers' distress and suicides.

The program was conceptualised to assist the farmers to address these problem with the cotton growers in these districts. The objective of the project is to help farmers learn better agricultural practices, reduce cost and increase their produces. The programme operated on the following concept to achieve the productivity, quality, profitability and reduction in environmental pollution. The program focuses on the seven principals to raise farmers' income.

- 1. Minimize the harmful impact of crop protection practices
- 2. Promote water stewardship
- 3. Care for the health of soil
- 4. Enhance biodiversity and land responsibly
- 5. Care for and preserve fibre quality
- 6. Promote decent work
- 7. Operate an effective management system

### Annexure II

### 1. Brief Outline of the Company's CSR Policy

The Corporate Social Responsibility (CSR) Policy of Anup Engineering Limited defines its philosophy and guides its actions for undertaking and supporting socially relevant project and programs. Company's underlying value system has a firm belief that only in a healthy society healthy businesses flourish. **The Anup Engineering Limited Policy on Corporate Social Responsibility** (TAELCSR) has been put in place to facilitate and formalize the CSR processes, set up a guiding structure and define broader thematic areas for projects and programs. For doing so, the Company would always define an annual budget, select CSR initiatives and would work with like-minded individuals and organizations.

Our CSR Policy is in sync with the broader areas of Schedule VII of the Companies Act, 2013 and will always be aligned to the changes that gets incorporate in the schedule.

## Annexure – C to the Directors' Report

### SECRETARIAL AUDIT REPORT

### FOR THE FINANCIAL YEAR ENDED ON 31ST MARCH 2021

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of The Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To, The Members,

### The Anup Engineering Limited

CIN: L29306GJ2017PLC099085 Behind 66 KV, Elec. Sub-Station, Odhav Road, Ahmedabad – 382415

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **The Anup Engineering Limited** (CIN: L29306GJ2017PLC099085) (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2021 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2021 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

- (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
- (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
- (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;

However, it has been found that there were no instances requiring compliance with the provisions of the laws indicated at point (e) to (g) of para (v) mentioned hereinabove during the period under review.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended).

I further report that, having regarded to the compliance management system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof, on test-check basis, the Company has compliance management system for the sector specific laws applicable specifically to the Company.

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards mentioned hereinabove. I have relied on the representations made by the Company and its officers for systems and mechanisms formed by the Company for compliances under other sector specific laws applicable to the Company.

I further report that, the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision at the board meeting as represented by the management were carried through unanimously whereas as informed,

there is system of capturing the views of dissenting members' and recording the same as part of the minutes, wherever required.

I further report that, based on review of compliance mechanism established by the company and on the basis of the compliance certificates / reports taken on record by the Board of Directors of the Company, I am of the opinion that the management has adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable rules, regulations and guidelines as referred hereinabove.

**I further report that,** during the audit period, except for the following events, there was no other specific event / action in pursuance of the above referred laws, rules, regulations, guidelines, etc. having a major bearing on the Company's affairs :

- Allotment of 19482 Equity Shares to the eligible employees pursuant to the exercise of the options granted to them under The Anup Engineering Limited- Employee Stock Option Scheme (DEMERGER) - 2018 on various dates and
- b. The Company had bought back 3,87,850 fully paid up Equity Shares of the Company of Face Value of ₹ 10/- (Rupees Ten Only) each at an average price of ₹ 642.54/- per equity share for an aggregate consideration of ₹ 24.92 crores excluding Transaction Costs, from the open market route through the stock exchange mechanism under the Companies Act, 2013 and SEBI Buyback Regulations. The Buyback commenced on 24th February 2021 and closed on 15th March 2021. All the shares bought back have been extinguished as per the records of the depositories. Hence Post allotment and buyback paid up share capital of the company stood at 98,31,150 equity shares of ₹ 10/- each amounting to ₹ 9,83,11,500/- as on 31.03.2021.
- c. Hence Post allotment and buyback paid up share capital of the company stood at 98,31,150 equity shares of ₹ 10/- each amounting to ₹ 9,83,11,500/- as on 31.03.2021.

## Management Discussion and Analysis

### (a) Industry structure and developments:

The Company caters to wide range of process industries including Oil & Gas, Petrochemicals, LNG, Fertilizers, Chemicals, Pharmaceuticals, Power, Water, Paper & Pulp and Aerospace with its extensive product range of Heat Exchangers, Reactors, Pressure Vessels, Columns & Towers, Industrial Centrifuges & Formed Components. In the recent years, the heat exchangers market has witnessed significant advancements in technology owing to increasing demand for recovering valuable energy, reducing costs and limiting environmental emissions. These developments include deployment of new and efficient heat exchangers, innovative heat transfer equipment as well as the introduction of systems of heat exchangers in various industrial processes.

### (b) Opportunities and Threats:

COVID-19 2nd wave has impacted progress in Financial Year 2022 due to labour shortages and challenges of overall supply chain management but we expect conditions to gradually stabilize. On the market front though, with the recent upgradation of infrastructure there are interesting opportunities available to the company to enhance the product mix, enter new markets and industry sectors both in the domestic as well as export markets.

### (c) Segment-wise or product-wise performance:

Our customer focus helps us in our endeavour in innovation and also strengthen our capabilities for providing customer satisfaction through differentiated offering. We are in a good position to expand our product mix which is currently Shell & Tube Heat Exchangers centric to also include other types of process equipment like columns and reactors in the near future.

### (d) Outlook:

The current situation is creating a high level of uncertainty. The COVID-19 situation is dynamic, but the underlying fundamentals of our business remain extremely strong. Moreover, India seemingly is better placed as no major capex cut has been announced by the PSUs. On our capex front as we have successfully completed the extension of our heavy bay at Odhav and this has further strengthened the manufacturing capabilities. This will also help the company to execute larger and more complex equipment orders. Further the company will expedite the ongoing capex at Odhav and begin the work at kheda with a sense of urgency at the same time balancing the cash flows with a cautious approach precipitated by the pandemic.

### (e) Risks and concerns:

Our risk management strategy is based on a clear understanding of various risks i.e. operational risk, marketing risk involved, systematic risk assessment and taking steps to overcome risks. We are closely monitoring the usual risks involved in our business which include unforeseen fluctuations in Raw Material prices, sudden cancellation/ deferral in customer orders, unavailability/disruption of labor accentuated especially in the currently prevailing pandemic situation. Beyond these usual risk items, the management does not foresee any other risk that can severely impair our business outcomes.

### (f) Internal control systems and their adequacy:

The Company has an Internal Control System, commensurate with the size, scale and complexity of its operations. The Company has an Internal Audit department with adequate experience and expertise in internal controls, operating system and procedures.

The system is supported by documented policies, guidelines and procedures to monitor business and operational performance which are aimed at ensuring business integrity and promoting operational efficiency.

The Internal Audit Department reviews the adequacy of internal control system in the Company, its compliance with operating systems and laid down policies and procedures. Based on the report of internal audit function, process owners undertake corrective actions in their respective areas and thereby strengthen the controls. Significant audit observations and corrective actions thereon are presented to the Audit Committee of the Board of Directors from time to time.

## (g) Discussion on financial performance with respect to operational performance:

This discussion covers the financial results and other developments during April 2020 to March 2021 in respect of the Company. Published result is as prepared on Indian Accounting Standards (IND AS). Highlights below given only for comparison.

			(₹i	n Crores)
	FY21	FY20	Q4 FY21	Q4 FY20
Revenue from Operation	279.1	245.5	132.8	70.1
EBITDA	68.8	68.6	35.6	15.9
MARGIN	25%	28%	27%	23%
PBT	61.7	63.0	33.5	14.7
PAT*	53.8	43.0	27.8	8.4

## Financial Highlights for operating performance Q4 and FY2021:

\*Reversal of taxation of ₹ 6.9 Crores on account of adoption of Sec-115-BAA (₹ 4.4 Crores) and reversal of previous year provision of Tax (₹2.5 Crores) based on assessment order.

Yes, the Business Responsibility Report is a part of Annual Report, available on the website of the Company https://www.anupengg.com/financial-reports/.

### Section E: Principle-wise Performance

### Principle 1 Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

Our Corporate Governance practices apply across the company and Group and extend to our value-chain partners like suppliers and service providers, distributors, sales representatives, contractors, channel partners, consultants, intermediaries and agents; joint-venture partners or other business associates; financial stakeholders; governments of the countries in which we operate.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

Anup's stakeholder includes Investors, clients, employees, vendors/ partners, government and local communities. For details on Investor complaints and resolutions, refer to the 'Investor Grievance' in General Shareholder Information Section of Annual Report.

For details on employee grievances and resolutions, the Company has a robust system of Complaints Handling. The complaints are received through a third-party service agency. Such complaints are routed to the Whistle Blower Committee appointed by the Audit Committee. Its members include Independent Director and Head of Internal Audit. The complaints are investigated and the investigation results are reported to the Audit Committee, along with action taken. The Company has not received any complaints from employees and business partners during the year.

### Principle 2 Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

## 1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

- (a) Heat Exchangers
- (b) Pressure Vessels
- (c) Towers & reactors

The Company has all quality and inspection systems in place to ensure all goods and services provided by the Company are safe and sustainable throughout their life cycle.

## 2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

The Company is conscious about use of water, energy and resources in course of production and manufacturing activities. Additional details relating to energy and others are given in the annexure D to the Board Report contained in this Annual Report.

### 3. Does the company have procedures in place for sustainable sourcing (including transportation)?

The Company maintains a healthy relationship with its suppliers, vendors and other service providers and the business practice of the Company include them in its growth. The process of vendor registration lays emphasis on safe working conditions, prevention of child labour, business ethics and general housekeeping by the vendor.

## 4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

The Company, wherever possible, procures goods and services from vendors in surrounding locality of manufacturing facilities including transportation and labours/ Staff. Whenever possible, the company prefers to support and encourage employment among communities surrounding its place of works.

## 5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

Waste generated in course of manufacturing activities is not material. The Company disposes the waste through registered /appropriate agencies involved in proper disposal/recycling.

### Principle 3 Businesses should promote the wellbeing of all employees

1. Please indicate the Total number of employees.

Total number of employees as on 31st March 2021 were 164.

### 2. Please indicate the Total number of employees hired on temporary/contractual/casual basis.

Total Contractual Workmen: 644

Total contractual workers include Man days based and production based workers.

### 3. Please indicate the Number of permanent women employees.

The number of permanent women employees as on 31st March 2021 was 3.

4. Please indicate the Number of permanent employees with disabilities.

Number of permanent employees with disabilities as on 31st March 2021 were o.

### 5. Do you have an employee association that is recognized by management?

No employees association exist. However, employees have access to management to raise their concerns without any fear and it's always endeavor of the management to resolve the issues satisfactorily. Wherever the workers unions exist at some manufacturing facilities, the Company cooperates with such union keeping in view larger interest of society, workers and stakeholders.

### 6. What percentage of your permanent employees is members of this recognized employee association?

Not Applicable

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

No.	Category	No of complaints filed	No of complaints pending as			
		during the financial year	on end of the financial year			
1	Child labour/forced labour/involuntary labour	Nil	Nil			
2	Sexual harassment	Nil	Nil			
3	Discriminatory employment	Nil	Nil			

8. What percentage of your under mentioned employees were given safety & skill up-gradation training in the last year?

The Company impart training relating to safety and skill upgradation to its employees including casual, temporary and contractual and it's always endeavor of the management to cover maximum in the training programmes. The Company organizes various training sessions inhouse.

## Principle 4 Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized.

### 1. Has the company mapped its internal and external stakeholders? Yes/No

The Company has mapped its internal and external stakeholders, the major or key categories include government / regulatory authorities. However, the process of mapping of stakeholders is an ongoing effort of updation.

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?

No.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.

No.

### Principle 5 Businesses should respect and promote human rights

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

Yes, Company including employees and contractors are covered by CoC standards. Not only our intentions, but also our actions are compliant with all statutory laws and regulations.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

There were no complaints reported on violation of any Human rights during the financial year.

### Principle 6 Business should respect, protect, and make efforts to restore the environment

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

Yes, the Company's Environment policy is made available to all our employees. Also, posters and instructions are physically displayed across our premises. We are certified to ISO 9001:2015, ISO 14001:2015 at our manufacturing location.

Additionally, we encourage our suppliers and contractors to adopt similar policies and practices.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Yes/No; if yes specify the broad areas ( drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

The Company extends its support to various business associations and support / advocate on various issues, whenever necessary, keeping in view the interest of various stakeholders.

Principle 8 Businesses should support inclusive growth and equitable development

1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

Relevant details of CSR initiatives are included in the Annual Report on CSR forming part of this Annual Report.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

The Company generally undertakes CSR projects through various agencies. Requisite details of entities through which CSR initiatives were undertaken included in the Annual Report on CSR forming part of this Annual Report.

3. Have you done any impact assessment of your initiative?

The CSR team of the Company periodically does impact assessment of various initiatives undertaken by the Company.

4. What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken?

Refer details of CSR contributions in the Annual report on CSR forming part of this Annual Report.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Our CSR implementation team ensure that resources provided by us are well utilized.

Principle 9 Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

We resolve all the customer queries and complaints in timely and efficient manner. There are no long-standing complaints that are pending resolution.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks (additional information)

Not applicable

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

Not applicable.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

Customer response and customer satisfaction are one of the most important factors of any business. The company engages with its customers at various platforms to understand their expectation. Not done during recently concluded financial year.

# Corporate Governance Report

The Board of Directors present the Company's report on Corporate Governance for year ended on 31st March 2021.

# 1 COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Corporate governance at The Anup Engineering Limited ("The Company") is a value-based framework to manage our Company affairs in a fair and transparent manner. As a responsible corporate citizen, we use this framework to maintain accountability in all our affairs and employ democratic and open processes. We are adopting applicable guidelines and best practices to ensure timely and accurate disclosure of information regarding our financials, performance and governance of the Company.

# Our corporate governance philosophy is based on the following principles:

- Satisfy the spirit of the law and not just the letter of the law. Corporate Governance standards should go beyond the law.
- Be transparent and maintain a high degree of disclosure levels.
- Make a clear distinction between personal conveniences and corporate resources.
- Communicate externally, in a truthful manner, about how is the Company running internally.
- Have a simple and transparent corporate structure driven solely by business needs.
- The Management is the trustee of the shareholders' capital and not the owner.

The Board of Directors ('the Board') is at the core of our corporate governance practice and oversees how the Management serves and protects the long-term interests of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of Corporate Governance. The Company has optimum combination of executive and non-executive director's including Independent Directors with at least one woman director.

### 2 BOARD OF DIRECTORS

#### 2.1 Composition of the Board:

#### 2.5 Agenda of the Board and committee Meetings:

The annual calendar of Board and Committee Meetings is agreed upon at the beginning of each year. Meetings are governed by a structured Agenda and a Board member may bring up any matter for consideration of the meeting in consultation with the Chairman. Agenda papers are generally circulated to the Board members at least 7 working days in advance. In addition, for any business exigencies the resolutions are passed by circulation and are placed at the subsequent Board or Committee Meeting for ratification/approval. Detailed presentations are made at the meetings on all major issues to enable the Board to take informed decisions.

#### **Invitees & Proceedings:**

Apart from the Board members, Chief Executive Officer (CEO), Chief Financial Officer (CFO) and Company Secretary also attend the Board Meetings. Other senior management executives are called as and when necessary, to provide additional inputs for the items being discussed by the Board. Both CEO and CFO make presentation on the financial and operational performance of the Company quarterly and annually. They also present annual financial and operational budget.

Head of Internal Audit department, representatives of the Statutory Auditors are the permanent invitees of the Audit Committee meetings to discuss the areas of internal audit as well as highlights of the financial performance of the Company.

#### Support and Role of Company Secretary:

The Company Secretary is responsible for convening the Board and Committee meetings, preparation and distribution of Agenda and other documents and recording of the Minutes of the meetings. He acts as interface between the Board and the Management and provides required assistance to the Board and the Management.

#### 2.6 Attendance of each Director at the meeting of the Board of Directors and the Last Annual General Meeting:

During the financial year 2020-21, 5 (Five) Board Meetings were held on 24th June 2020, 1st August 2020, 31st October 2020, 30th January 2021 and 10th February 2021. The gap between two Board Meetings was within the maximum time gap prescribed in the Act and the SEBI Listing Regulations. The attendance of each Director at these Board Meetings and last Annual General Meeting was as under:-

Sr. No	Name of Director		Attendance in the Board meetings		
		Held Present		September 2020

2	Mr. Punit S. Lalbhai	5	5	Yes	
3	Mr. Samvegbhai Lalbhai	5	2	Yes	
4	Mr. Arpit Patel	5	5	Yes	
5	Mr. Ganpatraj Chowdhary	5	3	Yes	
6	Ms. Reena Bhagwati	5	5	Yes	

#### 2.7 Separate Meeting of Independent Directors:

Independent Directors play an important role in the governance processes of the Board. They bring their expertise and experience on the deliberations of the Board. This enriches the decision-making process at the Board with different points of view and experiences and prevents conflict of interest in the decision-making process.

None of the Independent Directors serves as "Independent Directors" in more than seven listed companies. No person has been appointed or continuing as an Alternate Director for an Independent Director of the Company.

Based on the disclosures received from all the Independent Directors and also in the opinion of the Board, the Independent Directors fulfills the conditions specified in the Act and Listing Regulation and are independent of the management.

Schedule IV to the Act, inter alia, prescribes that the Independent Directors of the Company shall hold at least one meeting in a year, without the attendance of non-independent directors and members of management.

During the year, one meeting of independent directors was held on 30th January 2021 to review

- The performance of the Non-Independent Directors.
- The performance of the Board of the Company as a whole.
- The performance of Chairman of the Company taking in to account the views of the Non-Executive Directors on the same.
- To assess the quality, quantity and timeliness of flow of information between the Company Management and the Board.

### 2.8 Disclosure of relationships between the Directors inter-se:

Except Mr. Sanjay S. Lalbhai, Chairman and Non-Executive Director and his son Mr. Punit S. Lalbhai, Non-Executive Director there is no relationship between the Directors inter-se.

#### 2.9 Number of shares and convertible instruments held by Non-Executive Directors:

Name of Director	No. of Equity Shares held	Name of Director	No. of Equity Shares held
Mr. Sanjay S. Lalbhai	1456	Mr. Arpit Patel	-
Mr. Punit S. Lalbhai	137	Mr. Ganpatraj Chowdhary	-
Mr. Samvegbhai Lalbhai	1344	Ms. Reena Bhagwati	26004

During the year under review, none of the Non-Executive Directors hold any convertible instruments of the Company.

#### 2.10 Familiarisation programmes imparted to Independent Directors:

The Independent Directors have been updated with their roles, rights and responsibilities in the Company by specifying them in their appointment letter along with necessary documents, reports and internal policies to enable them to familiarize with the Company's procedures and practices. The Company has through presentations at regular intervals, familiarized and updated the Independent Directors with the strategy, operations and functions of the Company and Engineering Industry as a whole. The details of such familiarization programmes for Independent Directors are posted on the website of the Company at <u>www.anupengg.com> Investor >Policies</u>.

#### 2.11 Code of Conduct for Directors and Senior Management Personnel:

In terms of Regulation 17 of the Listing Regulations and Section 149 of the Companies Act, 2013, the Board of Directors of the Company has laid down a Code of Conduct for all Board Members and Senior Management Personnel of the Company. The said Code of Conduct has been posted on the website of the Company. The Board Members and Senior Management Personnel of the Company have affirmed compliance with the Code. The Chief Executive Officer of the Company has given a declaration to the Company that all the Board Members and Senior Management Personnel of the Company that all the Board Members and Senior Management Personnel of the Company have affirmed compliance with the Code.

#### 2.12 Code of Conduct for Prohibition of Insider Trading:

In terms of SEBI (Prohibition of Insider Trading) Regulations, 2015 as amended from time to time, the Company has formulated and adopted a Code of Conduct for Prohibition of Insider Trading, Code of Practices and Procedures for Fair Disclosure of Unpublished Price Sensitive Information and Policy on procedures to be followed while conducting an inquiry in the event of leak or suspected leak of Unpublished Price Sensitive Information.

Chief Financial Officer is responsible for implementation of the Code.

All Directors, designated employees/persons and connected persons have affirmed compliance with the code.

#### 2.13 Committees of the Board:

With a view to have a more focused attention on business and for better governance and accountability, the Board has constituted the following 5 (Five) Committees viz:

- Audit Committee
- Nomination and Remuneration Committee
- Stakeholders' Relationship Committee
- Corporate Social Responsibility Committee
- Management Committee

The terms and reference to these Committees are determined by the Board and their relevance reviewed from time to time. Each of these Committees has been mandated to operate within a given framework. Minutes of the meetings of each of these Committees are tabled regularly at the Board Meetings for their perusal and noting.

# 3 AUDIT COMMITTEE

#### 4.3 Evaluation of the Board's Performance:

During the year, the Board adopted a formal mechanism for evaluating its performance as well as that of its Committees and individual Directors. The exercise was carried out through a structured evaluation process covering various aspects of the Boards functioning such as composition of the Board and committees, experience and competencies, performance of specific duties and obligations, governance issues etc. Separate exercise was carried out to evaluate the performance of individual Directors including the Board Chairman who were evaluated on parameters such as attendance, contribution at the meetings and otherwise, independent judgement, safeguarding of minority shareholders interest etc.

The evaluation of the Independent Directors was carried out by the entire Board and that of the Chairman and the Non-Independent

Directors were carried out by the Independent Directors.

The Directors were satisfied with the evaluation results, which reflected the overall engagement of the Board and its Committees with the Company.

### 4.4 Remuneration of Directors:

Remuneration of Executive Directors is recommended by the Nomination and Remuneration Committee and approved by the Board of Directors and the Shareholders of the Company.

At present entire board of company comprised of all Non-Executive directors and the remuneration of Non-Executive Directors is determined by the Board and is also approved by the Shareholders. The remuneration paid to the Non-Executive Directors by way of Sitting Fees of ₹10,000/- for every meeting of Board of Directors or Committee attended by them. In addition to the afore-mentioned remuneration being paid by way of sitting fees, Commission was also paid to the Non-Executive Directors for the financial year 2019-20 during the financial year 2020-21.

# Auditors' Certificate regarding compliance of conditions of Corporate Governance

### To the Members of

### The Anup Engineering Limited

#### Ahmedabad

We, Sorab S. Engineer and Co., Chartered Accountants, the Statutory Auditors of **The Anup Engineering Limited** ("the Company"), have examined the compliance of conditions of Corporate Governance by the Company, for the year ended on March 31, 2021, as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations).

#### Managements' Responsibility

The compliance of conditions of Corporate Governance is the responsibility of the Management. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in Listing Regulations.

#### Auditor's Responsibility

Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring compliance with the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We have examined the books of account and other relevant records and documents maintained by the Company for the purposes of providing reasonable assurance on the compliance with Corporate Governance requirements by the Company.

We have carried out an examination of the relevant records of the Company in accordance with the Guidance Note on Certification of Corporate Governance issued by the Institute of the Chartered Accountants of India (the ICAI), the Standards on Auditing specified under Section 143(10) of the Companies Act 2013, in so far as applicable for the purpose of this certificate and as per the Guidance Note on Reports or Certificates for Special Purposes issued by the ICAI which requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

#### Opinion

Based on our examination of the relevant records and according to the information and explanations provided to us and the representations provided by the management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of the Listing Regulations during the year ended March 31, 2021.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Place: Ahmedabad Date:14th May 2021

# Independent Auditor's Report

# TO THE MEMBERS OF THE ANUP ENGINEERING LIMITED

# **Report on the Audit of the Standalone Financial Statements**

# Opinion

We have audited the accompanying standalone financial statements of **The Anup Engineering Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

# **Basis for Opinion**

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

# **Emphasis of Matter**

We draw attention to note no. 39 of the financial statements, which describes that based on current indicators of future economic conditions, the Company expects to recover the carrying amount of all its assets and revenue recognised. The impact of the COVID-19 pandemic may be different from that estimated as at the date of approval of these fiancial statements and the Company will continue to closely monitor any material changes to future economic conditions. Our opinion is not modified in respect of this matter.

# **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
		- Considered the terms of contracts for determination of Principal versus agent consideration, recognition of contract assets and refund liability including
		historical trend of returns. - Sample of revenues
		disaggregated by type and service offerings was tested with the p e r f o r m a n c e obligations specified in t h e underlying contracts.
		<ul> <li>Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings.</li> </ul>
		- We reviewed the collation of information to prepare the disclosure relating to the periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.

# Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

- 1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure A"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements;
  - ii. The Company did not have any long-term contract including derivative contracts for which there were any material foreseeable losses
  - iii. There have been no amounts required to be transferred to the Investor Education and Protection Fund by the Company.
- As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

For Sorab S. Engineer & Co. Chartered Accountants Firm's Registration No. 110417W **CA. Chokshi Shreyas B.**

# Annexure "A" To The Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of The Anup Engineering Limited of even date)

# Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of THE ANUP ENGINEERING LIMITED ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

# Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# Annexure B To The Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of The Anup Engineering Limited of even date)

- i. In respect of the Company's fixed assets:
  - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
  - (b) The Company has a program of verification to cover all the items of fixed assets in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
  - (c) According to the information and explanations given to us, the records examined by us and based on the examination of the conveyance deeds / registered sale deed provided to us, we report that, the title deeds, comprising all the immovable properties of buildings which are freehold, are held in the name of the Company as at the balance sheet date.
- ii. As explained to us, physical verification of inventory has been conducted at reasonable intervals by the management and the discrepancies noticed on verification between the physical stocks and the book records were not material having regard to the size of the Company, and the same have been properly dealt with in the books of account.
- iii. According the information and explanations given to us, the Company has not granted secured / unsecured loans to Companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Consequently, requirements of clause (iii) of paragraph 3 of the order are not applicable.
- iv. In our opinion and according to the information and explanations given to us, the Company has not advanced any loan or given any guarantee or provided any security or made any investment covered under section 185 of the Act. However, the Company has made investments covered under section 186 of the Act. We are of the opinion that provisions of section 186 of the Act have been complied with.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Sections 73 to 76 or any other relevant provisions of the Act and rules framed thereunder. No order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal.
- vi. The maintenance of cost records has been specified by the Central Government under section 148 (1) of the Act. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rule, 2014, as amended prescribed by the Central Government under section 148 (1) of the Act, and we are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. According to the information and explanations given to us, in respect of statutory dues:

- (a) The Company is generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Wealth Tax, Custom Duty, Goods and Service Tax, Cess and other material statutory dues applicable to it.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of outstanding statutory dues were in arrears as at March 31, 2021 for a period of more than six months from the date they became payable.
- (c) According to the information and explanations given to us, no disputed amounts are payable as at March 31, 2021.
- viii. In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to financial institutions and banks.
- ix. To the best of our knowledge and belief and according to the information and explanations given to us, the Company has not raised moneys by way of initial public offer or further public offer or by way of term loan.
- x. To the best of our knowledge and belief and according to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.
- xi. In our opinion and according to the information and explanations given to us, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- xii. The Company is not a Nidhi Company. Consequently, requirements of clause (xii) of paragraph 3 of the order are not applicable.
- xiii. To the best of our knowledge and belief and according to the information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and the details have been disclosed in the standalone financial statements etc. as required by the applicable accounting standards.
- xiv. To the best of our knowledge and belief and according to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares during the year under review. Consequently, requirements of clause (xiv) of paragraph 3 of the order are not applicable.
- xv. To the best of our knowledge and belief and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with him.
- xvi. According to the nature of the business, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Annual Report 2020-21

# Notes to the Standalone Financial Statements for the year ended March 31, 2021

### 1. Corporate Information

The Anup Engineering Limited ("the Company") is engaged in manufacturing and fabrication of process equipment required for Chemicals, Petrochemicals, Pharmaceuticals, Fertilizers, Drugs and other allied industries,

The Company is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 2013 ("the Act" erstwhile Companies Act, 1956) applicable in India. Its equity shares are listed on the National Stock Exchange of India Limited ("NSE") and the BSE Limited ("BSE") The registered office of the Company is located at Odhav, Ahmedabad.

The standalone financial statements have been considered and approved by the Board of Directors at their meeting held on May 14, 2021.

#### 2. Statement of Compliance and Basis of Preparation

The standalone financial statements have been prepared on a historical cost convention on the accrual basis except for the certain financial assets and liabilities measured at fair value, the provisions of the Companies Act, 2013 to the extent notified ("the Act") and guidelines issued by the Securities and Exchange Board of India (SEBI).

Accounting policies were consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standards requires a change in the accounting policy hitherto in use.

These standalone financial statements comprising of Balance Sheet, Statement of Profit and Loss including other comprehensive income, Statement of Changes in Equity and Statement of Cash Flows as at March 31, 2021 have been prepared in accordance with Ind AS as prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

### **Rounding of amounts**

The standalone financial statements are presented in Indian Rupee ("INR") and all values are rounded to the nearest Lakhs as per the requirement of Schedule III, except when otherwise indicated.

#### 3. Summary of Significant Accounting Policies

### 3.1. Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

#### **Operating cycle**

Operating cycle of the Company is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. As the Company's normal operating cycle is not clearly identifiable, it is assumed to be twelve months.

# 3.2. Use of estimates and judgements

The estimates and judgements used in the preparation of the standalone financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Difference between actual results and estimates are recognised in the period in which the results are known / materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

# 3.3. Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Company entered into to

replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.

- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent to its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cashgenerating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

# **Business Combination under Common Control**

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts of the parent entity's consolidated financial statements with the exception of certain income tax and deferred tax assets. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies. The components of equity of the acquired companies are added to the same components within the Company's equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to other equity and is presented separately from other capital reserves. The Company's shares issued in consideration for the acquired companies are recognized from the moment the acquired companies are included in these financial statements and the financial statements of the commonly controlled entities would be combined, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented.

### 3.4. Foreign currencies

The Company's functional and presentation currency is Indian Rupee. Transactions in foreign currencies are initially recorded by the Company's functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement of such transaction and on translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

### 3.5. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

 Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the standalone financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and for non-recurring measurement, such as asset held for sale.

External valuers are involved for valuation of significant assets, such as properties. Involvement of external valuers is decided upon annually by the management after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on yearly basis.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Significant accounting judgements, estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Property, plant and equipment & Intangible assets measured at fair value on the date of transition
- Investment properties
- Financial instruments (including those carried at amortised cost)

#### 3.6. Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of Property, plant and equipment are required to be replaced at intervals, the company recognises such parts as individual assets

with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Borrowing cost relating to acquisition / construction of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Capital work-in-progress comprises cost of fixed assets that are not yet installed and ready for their intended use at the balance sheet date.

#### **De-recognition**

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognised.

#### Depreciation

Depreciation on property, plant and equipment is provided so as to write off the cost of assets less residual values over their useful lives of the assets, using the straight-line method as prescribed under Part C of Schedule II to the Companies Act 2013 except for Buildings and Plant and Machinery.

When parts of an item of property, plant and equipment have different useful life, they are accounted for as separate items (Major Components) and are depreciated over their useful life or over the remaining useful life of the principal assets whichever is less.

Depreciation on certain Buildings and Plant and Machinery are provided on straight line method over the useful lives of the assets based upon the technical evaluation by external agency which are as follows:

Particulars	Useful life
Building	45 Years
Plant and Machinery	30 Years

The management believes that the useful life as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act 2013.

Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

#### 3.7. Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

# 3.8. Borrowing cost

Borrowing cost includes interest expense as per Effective Interest Rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to

### the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the company during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

All other borrowing costs are expensed in the period in which they occur.

#### 3.9. Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- for assets acquired in a business combination at fair value on the date of acquisition;
- for separately acquired assets, at cost comprising the purchase price and directly attributable costs to prepare the asset for its intended use.

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are charged to the Statement of Profit and Loss unless a product's technological and commercial feasibility has been established, in which case such expenditure is capitalised.

Following initial recognition, Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the Statement of Profit and Loss in the period in which expenditure is incurred.

The useful lives of intangible assets are assessed as finite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

### Amortisation

Software is amortized over management estimate of its useful life of 3 years or License Period whichever is lower and Patent/Knowhow is amortized over its useful life of 5 years. Licences are amortized over 10 years.

### 3.10. Inventories

Inventories of Raw material, Work-in-progress, Finished goods and Stock-in-trade are valued at the lower of cost and net realisable value. However, Raw material and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials and accessories: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on weighted average basis.

Inventories of stores and consumables are valued at cost. The stock of waste is valued at net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

# 3.11. Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets of the Company. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecasts which are prepared separately for each of

the Company's CGU to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses, including impairment on inventories, are recognised in the Statement of Profit and Loss in those expense categories consistent with the function of the impaired asset, except for a property previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

### 3.12. Revenue Recognition

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognised as the related services are performed.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Group performs; or
- The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- 3. The Company's performance does not create an asset with an alternative use to the Company and an entity has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions

are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time as and when the customer receives the benefit of the company's performance and the Company has an enforceable right to payment for services transferred.

### **Export Incentive**

Export incentives under various schemes notified by government are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

### Interest Income

Interest income from debt instruments are recorded using the effective interest rate (EIR) and accrued on timely basis. The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

### **Dividend Income**

Dividend income from investments is recognised when the Company's right to receive is established which generally occurs when the shareholders approve the dividend.

### Profit or loss on sale of Investments

Profit or Loss on sale of investments are recorded on transfer of title from the Company, and is determined as the difference between the sale price and carrying value of investment and other incidental expenses.

### **Rental income**

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms except in the case where incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

### **Insurance claims**

Insurance claims are accounted for to the extent the Company is reasonably certain of their ultimate collection.

# 3.13. Financial instruments – initial recognition and subsequent measurement

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the

instruments. For recognition and measurement of financial assets and financial liabilities, refer policy as mentioned below:

### Initial recognition of financial assets and financial liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

### Subsequent measurement of financial assets

For purposes of subsequent measurement, financial assets are classified in four categories:

- (a) Financial assets at amortised cost
- (b) Financial assets at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets at fair value through profit or loss (FVTPL)
- (d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

### (a) Financial assets at amortised cost

A financial asset is measured at amortised cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss.

# (b) Financial assets at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets included within the FVTOCI category are measured at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI financial asset is reported as interest income using the EIR method.

### (c) Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable of financial assets at fair value through profit or loss are immediately recognised profit or loss.

The Company may elect to designate a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

### (d) Equity instruments

All equity investments in scope of Ind-AS 109 other than Investment in subsidiaries, Joint Ventures and Associates are measured at fair value. Equity instruments which are held for trading, are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Equity Investment in subsidiaries, Joint Ventures and Associates are measured at cost as per Ind AS 27 - Separate Financial Statements.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

### Impairment of financial assets

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses (ECL) are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to the 12 months ECL, unless there has been significant increase in credit risk from initial recognition in which case these are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in Statement of Profit and Loss.

### **Derecognition of financial assets**

Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership.

Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

### Reclassification

When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

### Financial liabilities and equity instruments

### **Classification as debt or equity**

Debt and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### **Financial liabilities**

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to Statement of Profit or Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

### Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

### **Derecognition of financial liabilities**

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

### **Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

### 3.14. Cash and cash equivalent

Cash and cash equivalent in the balance sheet includes cash on hand, at banks and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the cash flows statement, cash and cash equivalents includes cash, short-term deposits, as defined above, other short-term and highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value adjusted for outstanding bank overdrafts as they are considered an integral part of the Company's cash management. Bank Overdrafts are shown within Borrowings in current liabilities in the balance sheet.

### 3.15. Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised in Statement of Profit or Loss on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset by equal annual instalments.

### 3.16. Taxes

Tax expense comprises of current income tax and deferred tax.

### Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable

that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Company recognizes tax credits in the nature of MAT credit as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which tax credit is allowed to be carried forward. In the year in which the Company recognizes tax credits as an asset, the said asset is created by way of tax credit to the Statement of profit and loss. The Company reviews such tax credit asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period. Deferred tax includes MAT tax credit.

### 3.17. Employee Benefits

### (a) Short Term Employee Benefits

All employee benefits payable within twelve months of rendering the service are classified as short term benefits. Such benefits include salaries, wages, bonus, short term compensated absences, awards, ex-gratia, performance pay etc. and the same are recognised in the period in which the employee renders the related service.

### (b) Post-Employment Benefits

### (i) Defined contribution plan

The Company's approved provident fund scheme, superannuation fund scheme, employees' state insurance fund scheme and Employees' pension scheme are defined contribution plans. The Company has no obligation, other than the contribution paid/payable under such schemes. The contribution paid/payable under the schemes is recognised during the period in which the employee renders the related service.

### (ii) Defined benefit plan

The employee's gratuity fund scheme, Compensatory Pension Scheme and post-retirement medical benefit schemes are Company's defined benefit plans. The present value of the obligation under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on the net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

### (c) Other long term employment benefits

The employee's long term compensated absences are Company's defined benefit plans. The present value of the obligation is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation, to recognise the obligation on the net basis.

### (d) Termination Benefits

Termination benefits such as compensation under voluntary retirement scheme are recognised in the year in which termination benefits become payable.

### 3.18. Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

### Equity-settled transactions:

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Nonvesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

### **Cash-settled transactions:**

In case of cash-settled transactions, a liability is recognised for the fair value of cash-settled transactions. The fair value is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The fair value is determined with the assistance of an external valuer.

### 3.19. Earnings per share (EPS)

Basic EPS is computed by dividing the net profit / loss for the year

attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is computed by dividing the net profit / loss attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year adjusted for the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the standalone financial statements by the Board of Directors.

### 3.20. Dividend

The Company recognises a liability (including tax thereon) to make cash or non-cash distributions to equity shareholders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the Statement of Profit and Loss.

### 3.21. Provisions and Contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When the Company expects some or all of a provision to be reimbursed from third parties, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised but disclosed in the standalone financial statements when an inflow of economic benefits is probable.

# 3.22. Non-current assets held for sale/ distribution to owners and discontinued operations

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

The criteria for held for sale classification is regarded met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

An impairment loss is recognised for any initial or subsequent write-down of the assets to fair value less cost to sell. A gain is recognised for any subsequent increases in the fair value less cost to sell of an assets but not in excess of the cumulative impairment loss previously recognised, A gain or loss previously not recognised by the date of sale of the non-current assets is recognised on the date of de-recognition.

Property, plant and equipment and intangible assets once

classified as held for sale/ distribution to owners are not depreciated or amortised.

A discontinued operation qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- Is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

### 3.23. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

### 4. Critical accounting estimates and assumptions

The preparation of the Company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

### 4.1. Estimates and assumption

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

# (a) Useful life of Property, plant and equipment and Intangible Assets

As described in Note 3.6 and 3.9 of the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

### (b) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cashinflows and the growth rate used for extrapolation purposes.

### (c) Provisions and contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS. A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the effect of time value of money is material, provisions are determined by discounting the expected future cash flows.

The Company has significant capital commitments in relation to various capital projects which are not recognized on the balance sheet. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities in the standalone financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

### (d) Defined benefit plans

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the standalone financial statements.

Further details about defined benefit obligations are provided in Note 29.

### (e) Revenue recognition

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

Contract modifications are accounted for when additions,

deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Changes in Equity Share Capital during the year	(3,68,368)	(36.83)	5,556	0.55
Outstanding at the end of the year	98,31,150	983.12	1,01,99,518	1,019.95

The Board of Directors, at its meeting held on February 10, 2021, approved buy-back of the Company's fully paid-up equity shares of face value of  $\mathbf{\xi}$  10/- each from the eligible equity shareholders of the Company other than Promoters, members of Promoter Group and persons in control of the Company, at a price not exceeding  $\mathbf{\xi}$  800/- per equity share (Maximum buy-back price), for an aggregate amount not exceeding  $\mathbf{\xi}$  2500 Lakhs (Maximum buy-back size), payable in cash from the open market route through the stock exchange mechanism under the Companies Act, 2013 and SEBI Buyback Regulations. The buy-back commenced on February 24, 2021 and closed on March 15, 2021.

The Company has bought back 3,87,850 equity shares at an average price of ₹ 642.50 per equity share for an aggregate consideration of ₹ 2492.11 Lakhs excluding Transaction Costs. All the shares bought back have been extinguished as per the records of the depositories. Capital redemption reserve was created to the extent of share capital extinguished (₹ 38.78 Lakhs). The excess cost of buy-back of ₹ 2496.92 Lakhs (including 43.59 Lakhs towards transaction cost of buy-back) over par value of shares and corresponding tax on buy-back of ₹ 576.76 Lakhs were offset from securities premium account.

### (ii) Rights, Preferences and Restrictions attached to equity shares:

The Company has one class of shares having par value of  $\overline{\mathbf{C}}$  10 per share. Each shareholder is eligible for one vote per share held. The final dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

### Note 24 : Income tax

The major component of income tax expense for the years ended March 31, 2021 and March 31, 2020 are as follows:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Statement of Profit and Loss		
Current income tax	1,515.00	1,752.00
(Excess)/Short Provision for earlier year (Refer Note below)	(691.60)	-
Deferred tax expense/(credit)	(29.22)	251.40
Income tax expense in the Statement of Profit and Loss	794.18	2,003.40
Statement of Other comprehensive income (OCI)		
Deferred tax expense/(credit)	(0.67)	(3.81)
Income tax expense/(credit) recognised in OCI	(0.67)	(3.81)

Note : The Company has decided to exercise the option permitted under section 115BAA of the Income-tax Act, 1961 for the year 2019-2020 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 which was subsequently converted into an Act, at the time of filing return of income. Accordingly, the Company has recognised provision for income taxes based on the rate prescribed in the aforesaid section. Further, management reviewed current tax and the components of deferred tax assets/ liabilities leading to a reassessment of its estimates compared to earlier periods. Such re-measurement and change in rate of tax resulted in one-time tax credit of ₹443.03 Lakhs which is shown under (Excess)/Short Provision for earlier year.

Reconciliation of tax expense and the accounting profit multiplied by domestic tax rate for the year ended March 31, 2021 and March 31, 2020.

### A. Current tax

Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Accounting profit before tax	6,170.61	6,300.24
Tax Rate	25.17%	29.12%
Current tax expenses on Profit before tax expenses at the enacted income tax rate in India	1,553.14	1,834.63
Adjustment		
On account of revaluation of tax base of non-depreciable assets (due to indexation benefit)	(31.41)	(23.56)

Total income tax expense	794.18	2,003.40
Effective tax rate	12.87%	31.80%

(₹ in Lakhs)

### **B. Deferred tax**

The Company has accrued significant amounts of deferred tax. The majority of the deferred tax liability represents accelerated tax relief for the depreciation of property, plant and equipment. Significant components of Deferred tax (assets) & liabilities recognized in the financial statements of the Company as follows:

Particulars	Balano	ce Sheet as at		ment of Profit and OCI for the year e	
	March 31, 2021	March 31, 2020	March 31, 2021	Excess Deferred Tax reversed	March 31, 2020
Accelerated depreciation for tax purposes	(980.52)	(1,151.27)	64.65	235.40	254.60
Impact of fair valuation of Land	(357.75)	(389.16)	(31.41)	-	(23.56)
Expenditure allowable on payment basis	17.81	25.61	4.32	(3.48)	6.40
Expenditure allowable over the period (Section 35D)	6.16	6.61	(0.45)	(0.90)	2.20
Others	66.94	(0.07)	(67.00)	0.01	7.95
Deferred tax expense/(income)			(29.89)	231.03	247.59
Net deferred tax liabilities	(1,247.36)	(1,508.28)			
Reflected in the balance sheet as follows					
Deferred tax liabilities	(1,338.27)	(1,540.50)			
Deferred tax assets	90.91	32.22			
Deferred tax liabilities (net)	(1,247.36)	(1,508.28)			

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

### Note 25 : Contingent liabilities

Particulars	As at	Asat
	March 31, 2021	March 31, 2020

(b) Other commitments -	-	-	(b) Other commitments

### Note 27 : Foreign Exchange Derivatives and Exposures not hedged

The Company holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counter party for these contracts is generally a bank.

All derivative financial instruments are recognized as assets or liabilities on the balance sheet and measured at fair value. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation.

The fair values of all derivatives are separately recorded in the balance sheet within current and non-current assets and liabilities depending upon the maturity of the derivatives.

The use of derivative instruments is subject to limits, authorities and regular monitoring by appropriate levels of management. The limits, authorities and monitoring systems are periodically reviewed by management and the Board. The market risk on derivatives is mitigated by changes in the valuation of the underlying assets, liabilities or transactions, as derivatives are used only for risk management purposes.

However, the Company does not have any of derivative contracts outstanding as at reporting date.

### **Exposure Not Hedged**

Nature of exposure		As at Marcl	n 31, 2021	As at March 3	I, 2020
	Currency	FC	₹ in Lakhs	FC	₹ in Lakhs

	EURO	-	-	9,701	8.03

### Note 28 : Segment Reporting

### **Identification of Segments**

The chief operational decision maker monitors the operating results of its Business segment separately for the purpose of making decision about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. Operating segment have been identified on the basis of nature of products and other quantitative criteriaspecified in the Ind AS 108. Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM") of the company.

### **Operating Segments**

The Company's business activity falls within a single operating business segment of Engineering products.

### **Geographical segment**

Geographical segment is considered based on sales within India and rest of the world.

# Notes to the Standalone Financial Statements

### Note 29 : Disclosure pursuant to Employee benefits

### A. Defined contribution plans:

Amount of ₹ 60.31 Lakhs (March 31, 2020: ₹ 55.75 Lakhs) is recognised as expenses and included in Note No. 20 "Employee benefit expense".

		(₹ in Lakhs)
Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Contribution to Provident Fund and Pension [Note (a)]	60.31	55.75
Total	60.31	55.75

- **Note**(a) Employees of the Company receive benefits from a provident fund, which is a defined contribution plan. The eligible employees and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the employees' salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The remaining portion is contributed to the government-administered pension fund. Employees of the Company receive benefits from a government administered provident fund, which is a defined contribution plan. The Company has no further obligation to the plan beyond its monthly contributions. Such contributions are accounted for as defined contribution plans and are recognised as employee benefits expenses when they are due in the Statement of profit and loss.
  - (b) The Company's Superannuation Fund is administered by Life Insurance Company. The Company has no further obligations to the plan beyond its contribution.

### B. Defined benefit plans:

The Company has following post employment benefit plans which are in the nature of defined benefit plans:

### Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Gratuity plan is a Funded plan administered by a Trust and the Company makes contributions to recognised Trust in India.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the The Anup Engineering Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme as permitted by Indian law.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through remeasurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligations recognized in other comprehensive income.

Net Benefit liability/(asset)

	As at March	As at March
	31, 2021	31,2020
	(%) of total plan assets (%) of total plan assets	(%) of total plan assets
	100.00%	100.00%
(%) of total plan assets	100.00%	100.00%

(₹in Lakhs)

The principal assumptions used in determining above defined benefit obligations for the Company's plans are shown below:

Particulars	As at March 31, 2021	As at March 31, 2020
Discount rate	<b>6.80</b> %	6.87%
Future salary increase	8.00%	8.00%
Expected rate of return on plan assets	<b>6.80</b> %	6.87%
Attrition rate	5.00%	5.00%
Mortality rate during employment	Indian Assured lives	Mortality (2006-08)
Mortality rate after employment	NA	NA

A quantitative sensitivity analysis for significant assumption is as shown below for the defined benefit plan:

### (₹ in Lakhs)

Particulars		(increase) / decrease in defined bene	fit obligation (Impact)
	Sensitivity level	Year ended	Year ended
		March 31, 2021	March 31, 2020
Gratuity			
Discount rate	1% increase	(12.15)	(9.87)
	1% decrease	14.27	11.61
Salary increase	1% increase	13.22	10.63
	1% decrease	(11.47)	(9.17)
Attrition rate	1% increase	(1.50)	(1.10)
	1% decrease	1.67	1.23

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

The followings are the expected future benefit payments for the defined benefit plan :

Particulars	As at	Asat
	March 31, 2021	March 31, 2020
Gratuity		
Within the next 12 months	9.83	5.75
Between 2 to 5 years	26.31	21.06
Beyond 5 years	266.39	219.11
Total expected payments	302.53	245.92

### (₹ in Lakhs)

Weighted average duration of defined plan obligation (based on discounted cash flows)

Particulars	As at March 31, 2021 In Years	As at March 31, 2020 In Years
Gratuity	12	12

Prescribed contribution for next year ₹45.08 Lakhs (Previous year ₹39.67)

### C. Other Long term employee benefit plans:

### Leave encashment

The Company has a policy on leave encashment which are both accumulating and non-accumulating in nature. The expected cost of accumulating leave encashment is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur. The liability of leave encashment is funded through Life Insurance Corporation.

The Company has recognised ₹ 17.41 Lakhs (March 31, 2020: ₹ 26.81 Lakhs) as expenses and included in Note No. 20 "Employee benefit expense".

### E. Significant Assumptions of Valuation on New Grant

No new options granted during the year.

### F. Expense arising from share- based payment transactions

Total expenses arising from share-based payment transactions recognised in profit or loss as part of employee benefit expense were as follows :

		(₹in Lakhs)
Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Share Based Payment to Employees	44.55	29.39

### Note 33 : Leases

A. For transition as on April 1, 2020, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

On transition, the Company does not have any leases except for low value assets lease.

B. The Company incurred ₹ 14.09 Lakhs (Previous year ₹ 7.90 Lakhs) towards expenses relating to leases of low-value assets.

### Note 34: Disclosure in respect of Corporate Social Responsibility (CSR) Activities

Other Financial Liabilities	249.40	249.40	229.44	229.44
Total Financial liabilities	2,944.06	2,944.06	2,548.71	2,548.71

For Financial instruments risk management objectives and policies, refer Note 37.

### Note 36 : Fair value disclosures for financial assets and financial liabilities

(a) The management assessed that the fair values of cash and cash equivalents, other bank balances, loans, trade receivables, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values.

The fair value of borrowings is calculated by discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities.

For financial assets and financial liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

### (b) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

### Quantitative disclosures fair value measurement hierarchy for financial assets as at March 31, 2021 and March 31, 2020

				(₹ in Lakhs)	
Particulars	Fair value measurement using				
	Total	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
As at March 31, 2021					
Assets measured at fair value	-	-	-	-	
As at March 31, 2020					
Assets measured at fair value					
Investment in Mutual Funds	4,422.31	4,422.31	-	-	

### **Fair value hierarchy**

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfer between level 1,2 and 3 during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

### Note 37: Financial instruments risk management objectives and policies

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company's risk management is carried out by a Treasury department under policies approved by the Board of directors. The Company's treasury identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The board provides written principles for overall risk.

### (a) Marketrisk

Market risk refers to the possibility that changes in the market rates may have impact on the Company's profits or the value of its holding of financial instruments. The Company is exposed to market risks on account of foreign exchange rates, interest rates, underlying equity prices, liquidity and other market changes.

 $\label{eq:Future} Future specific market movements cannot be normally predicted with reasonable accuracy.$ 

### (a1) Interest rate risk

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate.

The Company is exposed to interest rate risk of short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Company's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Company are principally denominated in Indian Rupees with mix of fixed and floating rates of interest. These exposures are reviewed by appropriate levels of management at regular interval.

As on March 31, 2021, the Company does not have any borrowings.

### (a2) Foreign currency risk

The Company's foreign currency risk arises from its foreign operations and foreign currency transactions. The fluctuation in foreign currency exchange rates may have potential impact on the income statement and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company. The major foreign currency exposures for the Company are denominated in USD and EURO.

Since a part of the Company's revenue is in foreign currency and major part of the costs are in Indian Rupees, any movement in currency rates would have impact on the Company's performance. Exposures on foreign currency sales are managed through the Company's hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Company strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged. Consequently, the overall objective of the foreign currency risk management is to minimize the short term currency impact on its revenue and cash-flow in order to improve the predictability of the financial performance. The Company may use forward contracts, foreign exchange options or currency swaps towards hedging risk resulting from changes and fluctuations in foreign currency exchange rate. These foreign exchange contracts, carried at fair value, may have varying maturities varying depending upon the primary host contract requirements and risk management strategy of the company. Hedge effectiveness is assessed on a regular basis.

### **Foreign currency sensitivity**

The foreign exchange rate sensitivity is calculated by the aggregation of the net foreign exchange rate exposure in USD and EURO with a simultaneous parallel foreign exchange rates shift in the currencies by 2% against the functional currency of the respective entities. The company's exposure to foreign currency changes for all other currencies is not material.

			(₹ in Lakhs)
Particulars	Change in Currency rate	Effect on profit before tax in USD rate	Effect on profit before tax in EURO rate
March 31, 2021	+2%	42.18	-
	-2%	(42.18)	-
March 31, 2020	+2%	15.17	(0.16)
	-2%	(15.17)	0.16

The movement in the pre-tax effect is a result of a change in the fair value of financial instruments not designated in a hedge relationship. Although the financial instruments have not been designated in a hedge relationship, they act as an economic hedge and will offset the underlying transactions when they occur.

### (b) Creditrisk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Financial instruments that are subject to concentrations of credit risk materially consists of trade receivables, investments and derivative financial instruments.

The Company is exposed to credit risk from its operating activities (primarily trade receivables and also from its investing activities including deposits with banks, forex transactions and other financial instruments) for receivables, cash and cash equivalents, financial guarantees and derivative financial instruments.

All trade receivables are subject to credit risk exposure. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country, in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through established policies, controls relating to credit approvals and procedures for continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The history of trade receivables shows a negligible provision for bad and doubtful debts. Therefore, the Company does not expect any material risk on account of non-performance by any of the Company's counterparties. The Company does not have significant concentration of credit risk related to trade receivables. However, 2 third party customers contribute to more than 10% of outstanding accounts receivable as of March 31, 2021 and March 31, 2020.

Trade receivables are non-interest bearing and are generally on 30 days to 180 days credit term.

With respect to derivatives, the Company's forex management policy lays down guidelines with respect to exposure per counter party i.e. with banks with high credit rating, processes in terms of control and continuous monitoring. The fair value of the derivatives are credit adjusted at the period end.

### (c) Liquidityrisk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company generates cash flows from operations to meet its financial obligations, maintains adequate liquid assets in the form of cash & cash equivalents and has undrawn short term line of credits from banks to ensure necessary liquidity. The Company closely monitors its liquidity position and deploys a robust cash management system.

The Company requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Particulars	< 1 year	>1 year but < 5 years	more than 5 years	Tota
March 31, 2021				
Trade payables	2,694.66	-	-	2,694.66
Other financial liabilities	249.40	-	-	249.40
	2,944.06	-	-	2,944.06
March 31, 2020				
Trade payables	2,319.27	-	-	2,319.27
Other financial liabilities	229.44	-	-	229.44
	2,548.71	-	-	2,548.71

### Note 38 : Capital management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value.

(₹ in I akhs)

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements to optimise return to our shareholders through continuing growth. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The funding requirements are met through a mixture of equity, internal fund generation and other non-current borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance). The Company is not subject to any externally imposed capital requirements.

### (₹ in Lakhs)

Particulars	As at	Asat
	March 31, 2021	March 31, 2020
(a) Interest bearing loans and borrowings	-	-
(b) Less: cash and bank balance (including other bank balance)	2,360.57	202.69
(c) Net debt (a) - (b)	(2,360.57)	(202.69)
(d) Equity share capital (Note 11)	983.12	1,019.95
(e) Other equity (Note 12)	32,755.91	31,271.51
(f) Total capital (d) + (e)	33,739.03	32,291.46
(g) Total capital and net debt (c) + (f)	31,378.46	32,088.77
(h) Gearing ratio (c)/(g)	(7.52%)	(0.63%)

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any long term borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the current period.

### Note 39 : Impact of Covid-19

The spread of COVID-19 has severely impacted businesses around the globe. It has caused severe effects on the economy, world over including India due to lockdowns, disruptions in transportation, supply chain, travel plans, quarantines, social distancing and other emergency measures.

The Company is engaged in the business of manufacturing of engineering goods. The business of the Company is also affected by this disruption. The effects such as lower than normal business, other disruptions are expected to have continuing effect at least for the next two quarters based on current assessment.

However, the Company has made detailed assessment of the liquidity position for the next one year and of the recoverability and carrying value of its assets comprising Property, Plant and Equipment, Intangible Assets, Trade Receivables, inventory as at balance sheet date and has made appropriate adjustment along with adjustment to revenue recognition and actuarial assumptions. In assessing the recoverability of its assets including receivables and inventories, the Company has considered internal and external information up to the date of approval of these financial statements including economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The Company will continue to closely monitor any material changes to future economic conditions.

### Note 40 : Business Combination

Expenses of ₹ 191.93 Lakhs in conneciton with the Composite Scheme of Arrangement (the Scheme) sanctioned by National Company Law Tribunal vide its order dated October 26, 2018 between Arvind Limited ("AL"), Arvind Fashions Limited ("AFL"), Anveshan Heavy Engineering Limited ("the Company") and The Anup Engineering Limited ("Anup"), has been adjusted against Securities Premium as mentioned in the Scheme.

### Note 41 : Code on Social Security, 2020

The Parliament of India has approved the Code on Social Security, 2020 (the Code) which may impact the contributions by the Company towards provident fund, gratuity and ESIC. The Code has been published in the Gazette of India. However, the effective date has not yet been notified. The Company will assess the impact of the Code when it comes into effect and will record related impact, if any, in the period the Code becomes effective.

### Note 42 : Standards issued but not yet effective

There are no standards or interpretations which are notified but not yet effective and that would be expected to have a material impact on the Company in the current or future reporting periods.

### Note 43 : Regrouped, Recast, Reclassified

Previous period's figures in the financial statements, including the notes thereto, have been reclassified wherever required to conform to the current period's presentation/ classification

### Note 44 : Events occurring after the reporting period

The Board of Directors recommended dividend of  $\mathfrak{T}$  7/- per equity share (March 31, 2020 :  $\mathfrak{T}$  7/-) of face value of  $\mathfrak{T}$  10 each, which is subject to approval by shareholders of the Company.

# Independent Auditor's Report

## TO THE MEMBERS OF THE ANUP ENGINEERING LIMITED Report on the Audit of the Consolidated Financial Statements Opinion

We have audited the accompanying consolidated financial statements of **The Anup Engineering Limited** ("the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and the notes to the consolidated financial statements including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2021, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

## **Basis for Opinion**

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

## **Emphasis of Matter**

We draw attention to note no. 39 of the fiancial statements, which describes that based on current indicators of future economic conditions, the Company expects to recover the carrying amount of all its assets and revenue recognised. The impact of the COVID-19 pandemic may be different from that estimated as at the date of approval of these fiancial statements and the Company will continue to closely monitor any material changes to future economic conditions. Our opinion is not modified in respect of this matter.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

<ul> <li>measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115</li> <li>"Revenue from Contracts with Customers" (new revenue accounting standard)</li> <li>The application of the revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognised over a period, est im at e of variable consideration, reduction of contract assets and refund liability. # Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation

of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

# Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary company which are company incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Report on Other Legal and Regulatory Requirements**

- 1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2021 taken on record by the Board of Directors of the Holding Company and its subsidiary and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditor's reports of the Holding Company and its subsidiary company incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of those companies, for reasons stated therein.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 of the Act
- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
  - ii. The Company did not have any long-term contract including derivative contracts for which there were any material foreseeable losses.
  - iii. There has been no amounts required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary company incorporated in India.

# Annexure "A" To The Independent Auditor's Report

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of The Anup Engineering Limited of even date)

## Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of The Anup Engineering Limited ("the Holding Company") and its subsidiary company incorporated in India, for the year ended March 31, 2021 in conjunction with our audit of the Consolidated Ind AS financial statements of the Holding Company.

## Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company, its subsidiary company, which are company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (" the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and , both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

## Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Holding Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Holding Company are being made only in accordance with authorisations of management and directors of the Holding Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Holding Company's assets that could have a material effect on the Ind AS financial statements.

## Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion the Holding Company and its subsidiary company, which are company incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on "the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Annual Report 2020-21

# Notes to the Consolidated Financial Statements for the year ended March 31, 2021

## 1. Corporate Information

The Anup Engineering Limited ("the Company") is engaged in manufacturing and fabrication of process equipment required for Chemicals, Petrochemicals, Pharmaceuticals, Fertilizers, Drugs and other allied industries.

The Company is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 2013 ("the Act" erstwhile Companies Act, 1956) applicable in India. Its equity shares are listed on the National Stock Exchange of India Limited ("NSE") and the BSE Limited("BSE"). The registered office of the Company is located at Odhav, Ahmedabad.

The consolidated financial statements have been considered and approved by the Board of Directors at their meeting held on May 14, 2021.

## 2. Statement of Compliance and Basis of Preparation

The consolidated financial statements have been prepared on a historical cost convention on the accrual basis except for the certain financial assets and liabilities measured at fair value, the provisions of the Companies Act, 2013 to the extent notified ("the Act") and guidelines issued by the Securities and Exchange Board of India (SEBI).

Accounting policies were consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standards requires a change in the accounting policy hitherto in use.

These consolidated financial statements comprising of Balance Sheet, Statement of Profit and Loss including other comprehensive income, Statement of Changes in Equity and Statement of Cash Flows as at March 31, 2021 have been prepared in accordance with Ind AS as prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

## **Rounding of amounts**

The consolidated financial statements are presented in Indian Rupee ("INR") and all values are rounded to the nearest Lakhs as per the requirement of Schedule III, except when otherwise indicated.

## **Principles of Consolidation of Subsidiaries**

The Group consolidates entities which it owns or controls. The Consolidated Financial Statement comprise the financial statements of the Group and its subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights

result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Financial Statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses including unrealized gain /loss and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

## 3. Summary of Significant Accounting Policies

## 3.1. Current versus non-current classification

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the

- reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

#### **Operating cycle**

Operating cycle of the Group is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. As the Group's normal operating cycle is not clearly identifiable, it is assumed to be twelve months.

## 3.2. Use of estimates and judgements

The estimates and judgements used in the preparation of the consolidated financial statements are continuously evaluated by the Group and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Group believes to be reasonable under the existing circumstances. Difference between actual results and estimates are recognised in the period in which the results are known / materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

## 3.3. Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

• Deferred tax assets or liabilities, and the assets or liabilities

related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent to its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment

testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

#### **Business Combination under Common Control**

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts of the parent entity's consolidated financial statements with the exception of certain income tax and deferred tax assets. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies. The components of equity of the acquired companies are added to the same components within the Group's equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to other equity and is presented separately from other capital reserves. The Group's shares issued in consideration for the acquired companies are recognized from

the moment the acquired companies are included in these financial statements and the financial statements of the commonly controlled entities would be combined, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented.

## 3.4. Foreign currencies

The Group's functional and presentation currency is Indian Rupee. Transactions in foreign currencies are initially recorded by the Group's functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement of such transaction and on translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

## 3.5. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised

within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and for non-recurring measurement, such as asset held for sale.

External valuers are involved for valuation of significant assets, such as properties. Involvement of external valuers is decided upon annually by the management after discussion with and approval by the Group's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Management decides, after discussions with the Group's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Management, in conjunction with the Group's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on yearly basis.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Significant accounting judgements, estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Property, plant and equipment & Intangible assets measured at fair value on the date of transition
- Investment properties
- Financial instruments (including those carried at amortised cost)

## 3.6. Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of Property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Borrowing cost relating to acquisition / construction of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Capital work-in-progress comprises cost of fixed assets that are not yet installed and ready for their intended use at the balance sheet date.

## **De-recognition**

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognised.

## Depreciation

Depreciation on property, plant and equipment is provided so as to write off the cost of assets less residual values over their useful lives of the assets, using the straight-line method as prescribed under Part C of Schedule II to the Companies Act 2013 except for Buildings and Plant and Machinery.

When parts of an item of property, plant and equipment have different useful life, they are accounted for as separate items (Major Components) and are depreciated over their useful life or over the remaining useful life of the principal assets whichever is less.

Depreciation on certain Buildings and Plant and Machinery are provided on straight line method over the useful lives of the assets based upon the technical evaluation by external agency which are as follows:

Particulars	Useful life
Building	45 Years
Plant and Machinery	30 Years

The management believes that the useful life as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act 2013.

Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

## 3.7. Leases

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (1) the contract involves the use of an identified asset (2) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 3.8. Borrowing cost

Borrowing cost includes interest expense as per Effective Interest Rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the Group during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

All other borrowing costs are expensed in the period in which they occur.

## 3.9. Intangible Assets

Intangible Assets that the Group controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- for assets acquired in a business combination at fair value on the date of acquisition;
- for separately acquired assets, at cost comprising the purchase price and directly attributable costs to prepare the asset for its intended use.

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are charged to the Statement of Profit and Loss unless a product's technological and commercial feasibility has been established, in which case such expenditure is capitalised.

Following initial recognition, Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the Statement of Profit and Loss in the period in which expenditure is incurred.

The useful lives of intangible assets are assessed as finite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on

intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

## Amortisation

Software is amortized over management estimate of its useful life of 3 years or License Period whichever is lower and Patent/Knowhow is amortized over its useful life of 5 years. Licences are amortized over 10 years.

## 3.10. Inventories

Inventories of Raw material, Work-in-progress, Finished goods and Stock-in-trade are valued at the lower of cost and net realisable value. However, Raw material and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials and accessories: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on weighted average basis.

Inventories of stores and consumables are valued at cost. The stock of waste is valued at net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

## 3.11. Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets of the Group. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecasts which are prepared separately for each of the Group's CGU to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses, including impairment on inventories, are recognised in the Statement of Profit and Loss in those expense categories consistent with the function of the impaired asset, except for a property previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

## 3.12. Revenue Recognition

The Group derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognised as the related services are performed.

Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

The Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs; or
- 2. The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- 3. The Group's performance does not create an asset with an alternative use to the Group and an entity has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time as and when the customer receives the benefit of the Group's performance and the Group has an enforceable right to payment for services transferred.

#### **Export Incentive**

Export incentives under various schemes notified by government are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

#### Interest Income

Interest income from debt instruments are recorded using the effective interest rate (EIR) and accrued on timely basis. The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

## **Dividend Income**

Dividend income from investments is recognised when the Group's right to receive is established which generally occurs when the shareholders approve the dividend.

## Profit or loss on sale of Investments

Profit or Loss on sale of investments are recorded on transfer of title from the Group, and is determined as the difference between the sale price and carrying value of investment and other incidental expenses.

## **Rental income**

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms except in the case where incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

## Insurance claims

Insurance claims are accounted for to the extent the Group is reasonably certain of their ultimate collection.

# 3.13. Financial instruments – initial recognition and subsequent measurement

Financial assets and financial liabilities are recognised when a Group becomes a party to the contractual provisions of the instruments. For recognition and measurement of financial assets and financial liabilities, refer policy as mentioned below:

# Initial recognition of financial assets and financial liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

## Subsequent measurement of financial assets

For purposes of subsequent measurement, financial assets are classified in four categories:

- (a) Financial assets at amortised cost
- (b) Financial assets at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets at fair value through profit or loss (FVTPL)
- (d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

## (a) Financial assets at amortised cost

A financial asset is measured at amortised cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss.

# (b) Financial assets at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets included within the FVTOCI category are

measured at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI financial asset is reported as interest income using the EIR method.

## (c) Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable of financial assets at fair value through profit or loss are immediately recognised profit or loss.

The Group may elect to designate a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

## (d) Equity instruments

All equity investments in scope of Ind-AS 109 other than Investment in subsidiaries, Joint Ventures and Associates are measured at fair value. Equity instruments which are held for trading, are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Equity Investment in subsidiaries, Joint Ventures and Associates are measured at cost as per Ind AS 27 - Separate Financial Statements.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

## Impairment of financial assets

The Group assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses (ECL) are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all

other financial assets, ECL are measured at an amount equal to the 12 months ECL, unless there has been significant increase in credit risk from initial recognition in which case these are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in Statement of Profit and Loss.

## **Derecognition of financial assets**

Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Group has transferred substantially all of the risks and rewards of ownership.

Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

## Reclassification

When and only when the business model is changed, the Group shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

## Financial liabilities and equity instruments

## **Classification as debt or equity**

Debt and equity instruments issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

## **Financial liabilities**

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

## Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable

to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to Statement of Profit or Loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

## **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group are recognised at the proceeds received, net of direct issue costs.

## Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Group are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

## **Derecognition of financial liabilities**

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## **Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

## 3.14. Cash and cash equivalent

Cash and cash equivalent in the balance sheet includes cash on hand, at banks and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the cash flows statement, cash and cash

equivalents includes cash, short-term deposits, as defined above, other short-term and highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value adjusted for outstanding bank overdrafts as they are considered an integral part of the Group's cash management. Bank Overdrafts are shown within Borrowings in current liabilities in the balance sheet.

## 3.15. Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised in Statement of Profit or Loss on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset by equal annual instalments.

## 3.16. Taxes

Tax expense comprises of current income tax and deferred tax.

## Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

## **Deferred tax**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Group recognizes tax credits in the nature of MAT credit as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which tax credit is allowed to be carried forward. In

the year in which the Group recognizes tax credits as an asset, the said asset is created by way of tax credit to the Statement of profit and loss. The Group reviews such tax credit asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period. Deferred tax includes MAT tax credit.

## 3.17. Employee Benefits

## (a) Short Term Employee Benefits

All employee benefits payable within twelve months of rendering the service are classified as short term benefits. Such benefits include salaries, wages, bonus, short term compensated absences, awards, ex-gratia, performance pay etc. and the same are recognised in the period in which the employee renders the related service.

## (b) Post-Employment Benefits

## (i) Defined contribution plan

The Group's approved provident fund scheme, superannuation fund scheme, employees' state insurance fund scheme and Employees' pension scheme are defined contribution plans. The Group has no obligation, other than the contribution paid/payable under such schemes. The contribution paid/payable under the schemes is recognised during the period in which the employee renders the related service.

## (ii) Defined benefit plan

The employee's gratuity fund scheme, Compensatory Pension Scheme and post-retirement medical benefit schemes are Group's defined benefit plans. The present value of the obligation under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on the net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

## (c) Other long term employment benefits

The employee's long term compensated absences are Group's defined benefit plans. The present value of the obligation is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation, to recognise the obligation on the net basis.

## (d) Termination Benefits

Termination benefits such as compensation under voluntary retirement scheme are recognised in the year in which termination benefits become payable.

## 3.18. Share-based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

## **Equity-settled transactions**

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

## **Cash-settled transactions:**

In case of cash-settled transactions, a liability is recognised for the fair value of cash-settled transactions. The fair value is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The fair value is determined with the assistance of an external valuer.

## 3.19. Earnings per share (EPS)

Basic EPS is computed by dividing the net profit / loss for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is computed by dividing the net profit / loss attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the year adjusted for the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the consolidated financial statements by the Board of Directors.

## 3.20. Dividend

The Group recognises a liability (including tax thereon) to make cash or non-cash distributions to equity shareholders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the Statement of Profit and Loss.

## 3.21. Provisions and Contingencies

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When the Group expects some or all of a provision to be reimbursed from third parties, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised but disclosed in the consolidated financial statements when an inflow of economic benefits is probable.

# 3.22. Non-current assets held for sale/ distribution to owners and discontinued operations

The Group classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

The criteria for held for sale classification is regarded met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and

liabilities classified as held for sale are presented separately in the balance sheet.

An impairment loss is recognised for any initial or subsequent write-down of the assets to fair value less cost to sell. A gain is recognised for any subsequent increases in the fair value less cost to sell of an assets but not in excess of the cumulative impairment loss previously recognised, A gain or loss previously not recognised by the date of sale of the non-current assets is recognised on the date of de-recognition.

Property, plant and equipment and intangible assets once classified as held for sale/ distribution to owners are not depreciated or amortised.

A discontinued operation qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- Is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

## 3.23. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

## 4. Critical accounting estimates and assumptions

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

## 4.1. Estimates and assumption

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

# (a) Useful life of Property, plant and equipment and Intangible Assets

As described in Note 3.6 and 3.9 of the significant accounting policies, the Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

## (b) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

#### (c) Provisions and contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS. A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the effect of time value of money is material, provisions are determined by discounting the expected future cash flows.

The Group has significant capital commitments in relation to various capital projects which are not recognized on the balance sheet. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities in the consolidated financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Group involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

## (d) Defined benefit plans

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the consolidated financial statements.

Further details about defined benefit obligations are provided in Note 29.

## (e) Revenue recognition

Contracts are subject to modification to account for changes in contract specification and requirements. The Group reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the consolidated selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the consolidated selling price, or as a termination of the existing contract and creation of a new contract if not priced at the consolidated selling price

The Group's contracts with customers could include promises to transfer multiple products and services to a customer. The Group assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts. service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Group exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Group considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

# Notes:

Deduction of leasehold land represents amortisation.

During the year, the Company has changed the useful life of certain Property, Plant & Equipment based upon the technical evaluation by External agency. Accordingly, change in useful life of the Property, Plant & Equipment is being applied prospectively in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Had the Company continued with the previously assessed useful life of Property, Plant & Equipment, charge for depreciation for the year ended March 31, 2021 would have been higher by  $\overline{3}$  6.14 Lakhs. Ч.

## (i) Reconciliation of equity shares outstanding at the beginning and at the end of the year

Particulars	As at March 31, 2021		As at March 31	, 2020
	No. of shares	₹ in Lakh	No. of shares	₹ in Lakh
Outstanding at the beginning of the year	1,01,99,518	1,019.95	1,01,93,962	1,019.40
Add: Issued during the year under ESOP	19,482	1.95	5,556	0.55
Less: Shares extinguished on buy-back	3,87,850	38.78	-	-
Changes in Equity Share Capital during the year	(3,68,368)	(36.83)	5,556	0.55
Outstanding at the end of the year	98,31,150	983.12	1,01,99,518	1,019.95

The Board of Directors, at its meeting held on February 10, 2021, approved buy-back of the Company's fully paid-up equity shares of face value of ₹ 10/- each from the eligible equity shareholders of the Company other than Promoters, members of Promoter Group and persons in control of the Company, at a price not exceeding ₹ 800/- per equity share (Maximum buy-back price), for an aggregate amount not exceeding ₹ 2500 Lakhs (Maximum buy-back size), payable in cash from the open market route through the stock exchange mechanism under the Companies Act, 2013 and SEBI Buyback Regulations. The buy-back commenced on February 24, 2021 and closed on March 15, 2021.

The Company has bought back 3,87,850 equity shares at an average price of ₹ 642.50 per equity share for an aggregate consideration of ₹ 2492.11 Lakhs excluding Transaction Costs. All the shares bought back have been extinguished as per the records of the depositories. Capital redemption reserve was created to the extent of share capital extinguished (₹ 38.78 Lakhs). The excess cost of buy-back of ₹ 2496.92 Lakhs (including 43.59 Lakhs towards transaction cost of buy-back) over par value of shares and corresponding tax on buy-back of ₹ 576.76 Lakhs were offset from securities premium account.

## (ii) Rights, Preferences and Restrictions attached to equity shares:

The Company has one class of shares having par value of ₹ 10 per share. Each shareholder is eligible for one vote per share held. The final dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

## (iii) Details of shareholder holding more than 5% Shares in the Company:

Name of the Shareholder	As at March 31, 2021

#### Note 24 : Income tax

The major component of income tax expense for the years ended March 31, 2021 and March 31, 2020 are as follows:

Particulars	Year ended	Year ended
	March 31, 2021	March 31, 2020
Statement of Profit and Loss		
Current income tax	1,515.00	1,752.00
(Excess)/Short Provision for earlier year (Refer Note below)	(691.60)	-
Deferred tax expense/(credit)	(29.22)	251.40
Income tax expense in the Statement of Profit and Loss	794.18	2,003.40
Statement of Other comprehensive income (OCI)		
Deferred tax expense/(credit)	(0.67)	(3.81)
Income tax expense/(credit) recognised in OCI	(0.67)	(3.81)

Note : The Holding Company has decided to exercise the option permitted under section 115BAA of the Income-tax Act, 1961 for the year 2019-2020 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 which was subsequently converted into an Act, at the time of filing return of income. Accordingly, the Company has recognised provision for income taxes based on the rate prescribed in the aforesaid section. Further, management reviewed current tax and the components of deferred tax assets/ liabilities leading to a reassessment of its estimates compared to earlier periods. Such re-measurement and change in rate of tax resulted in one-time tax credit of ₹ 443.03 Lakhs which is shown under (Excess)/Short Provision for earlier year.

Reconciliation of tax expense and the accounting profit multiplied by domestic tax rate for the year ended March 31, 2021 and March 31, 2020.

## A. Current tax

Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Accounting profit before tax	6,146.50	6,300.23
Tax Rate	25.17%	29.12%
Current tax expenses on Profit before tax expenses at the enacted income tax rate in India	1,547.07	1,834.63
Adjustment		
On account of revaluation of tax base of non-depreciable assets (due to indexation benefit)	(31.41)	(23.56)
Expenditure not deductible for tax/not liable to tax	29.50	5.44
(Excess)/Short Provision for earlier year	(691.60)	-
Other Adjustment	(59.38)	186.89
Total income tax expense	794.18	2,003.40
Effective tax rate	12.92%	31.80%

## **B. Deferred tax**

The Group has accrued significant amounts of deferred tax. The majority of the deferred tax liability represents accelerated tax relief for the depreciation of property, plant and equipment. Significant components of Deferred tax (assets) & liabilities recognized in the financial statements of the Company as follows:

Particulars	Balance Sheet as at			nent of Profit and CI for the year en	
	March 31, 2021	March 31, 2020	March 31, 2021	Excess Deferred Tax reversed	March 31, 2020
Accelerated depreciation for tax purposes	(980.52)	(1,151.27)	64.65	235.40	254.60
Impact of fair valuation of Land	(357.75)	(389.16)	(31.41)	-	(23.56)
Expenditure allowable on payment basis	17.81	25.61	4.32	(3.48)	6.40
Expenditure allowable over the period (Section 35D)	6.16	6.61	(0.45)	(0.90)	2.20
Others	66.94	(0.07)	(67.00)	0.01	7.95
Deferred tax expense/(income)			(29.89)	231.03	247.59
Net deferred tax liabilities	(1,247.36)	(1,508.28)			
Reflected in the balance sheet as follows	<u></u>	i			
Deferred tax liabilities	(1,338.27)	(1,540.50)			
Deferred tax assets	90.91	32.22			
Deferred tax liabilities (net)	(1,247.36)	(1,508.28)			

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

## Note 25 : Contingent liabilities

Particulars	As at	Asat
	March 31, 2021	March 31, 2020
Contingent liabilities not provided for		
(i) Guarantees given by banks on behalf of the Company	15,906.70	13,461.56

Income tax (Refer notes below)	62.10	62.10

## Notes :

(a) It is not practicable for the Company to estimate the timing of cash outflows, if any, in respect of the above pending resolution of the respective proceedings.

(b) The Company does not expect any reimbursements in respect of the above contingent liabilities.

(c) The Company believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

## Note 26 : Capital commitment and other commitments

Particulars	As at	As at
	March 31, 2021	March 31, 2020
(a) Capital commitments	398.84	630.46
(b) Other commitments	-	-

## Note 27: Foreign Exchange Derivatives and Exposures not hedged

The Group holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counter party for these contracts is generally a bank.

All derivative financial instruments are recognized as assets or liabilities on the balance sheet and measured at fair value. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation.

The fair values of all derivatives are separately recorded in the balance sheet within current and non-current assets and liabilities depending upon the maturity of the derivatives.

The use of derivative instruments is subject to limits, authorities and regular monitoring by appropriate levels of management. The limits, authorities and monitoring systems are periodically reviewed by management and the Board. The market risk on derivatives is mitigated by changes in the valuation of the underlying assets, liabilities or transactions, as derivatives are used only for risk management purposes.

However, the Group does not have any of derivative contracts outstanding as at reporting date.

## **Exposure Not Hedged**

Nature of exposure		As at March 31, 2021		As at March 3	1, 2020
	Currency	FC	₹ in Lakhs	FC	₹ in Lakhs
Receivables	USD	29,58,275	2,162.79	10,38,354	785.67
Payable to creditors	USD	73,500	53.74	36,107	27.32
	EURO	-	-	9,701	8.03

## Note 28 : Segment Reporting

## **Identification of Segments**

The chief operational decision maker monitors the operating results of its Business segment separately for the purpose of making decision about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. Operating segment have been identified on the basis of nature of products and other quantitative criteriaspecified in the Ind AS 108. Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM") of the Group.

## **Operating Segments**

The Group's business activity falls within a single operating business segment of Engineering products.

## Geographicalsegment

Geographical segment is considered based on sales within India and rest of the world.

Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Segment Revenue*		
(a) In India	19,292.42	21,632.60

## \* Based on location of Customers

@ Other than financial assets.

## (C) Information about major customers:

Considering the nature of business of Group in which it operates, the Group deals with various customers including multiple geographics. 2 customers have accounted for more than 10% of the Group's revenue for the year ended March 31, 2021. (4 customers for the year ended March 31, 2020)

(₹ in Lakhs)

## Note 29 : Disclosure pursuant to Employee benefits

### A. Defined contribution plans:

Amount of ₹ 60.31 Lakhs (March 31, 2020: ₹ 55.75 lakhs) is recognised as expenses and included in Note No. 20 "Employee benefit expense".

		(₹ in Lakhs)
Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Contribution to Provident Fund and Pension [Note (a)]	60.31	55.75
Total	60.31	55.75

- **Note**(a) Employees of the Group receive benefits from a provident fund, which is a defined contribution plan. The eligible employees and the Group make monthly contributions to the provident fund plan equal to a specified percentage of the employees' salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The remaining portion is contributed to the government-administered pension fund. Employees of the Group receive benefits from a government administered provident fund, which is a defined contribution plan. The Group has no further obligation to the plan beyond its monthly contributions. Such contributions are accounted for as defined contribution plans and are recognised as employee benefits expenses when they are due in the Statement of profit and loss.
  - (b) The Group's Superannuation Fund is administered by Life Insurance Group. The Group has no further obligations to the plan beyond its contribution.

### B. Defined benefit plans:

The Company has following post employment benefit plans which are in the nature of defined benefit plans:

#### Gratuity

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Gratuity plan is a Funded plan administered by a Trust and the Group makes contributions to recognised Trust in India.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. The Group fully contributes all ascertained liabilities to the The Anup Engineering Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme as permitted by Indian law.

The Group recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through remeasurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligations recognized in other comprehensive income.

5.25

Net Benefit liability/(asset)

The principal assumptions used in determining above defined benefit obligations for the Company's plans are shown below:

Particulars	Year Ended March 31, 2021	Year Ended March 31, 2020
Discount rate	6.80%	6.87%
Future salary increase	8.00%	8.00%
Expected rate of return on plan assets	<b>6.80</b> %	6.87%
Attrition rate	5.00%	5.00%
Mortality rate during employment	Indian Assured lives	Mortality (2006-08)
Mortality rate after employment	NA	NA

A quantitative sensitivity analysis for significant assumption is as shown below for the defined benefit plan:

#### (₹ in Lakhs)

Particulars		(increase) / decrease in defined benefit obligation (Impact)				
	Sensitivity level	Sensitivity level Year ended		Year ended		
		Ma	arch 31, 2021	March 31, 2020		
Gratuity						
Discount rate	1% increase		(12.15)	(9.87)		
	1% decrease		14.27	11.61		
Salary increase	1% increase		13.22	10.63		
	1% decrease		(11.47)	(9.17)		
Attrition rate	1% increase		(1.50)	(1.10)		
	1% decrease		1.67	1.23		

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

The followings are the expected future benefit payments for the defined benefit plan :

Particulars	As at	Asat
	March 31, 2021	March 31, 2020
Gratuity		
Within the next 12 months	9.83	5.75
Between 2 to 5 years	26.31	21.06
Beyond 5 years	266.39	219.11
Total expected payments	302.53	245.92

Weighted average duration of defined plan obligation (based on discounted cash flows)

Particulars	As at March 31, 2021 In Years	As at March 31, 2020 In Years
Gratuity	12	12

Prescribed contribution for next year ₹45.08 Lakhs (Previous year ₹39.67)

(₹ in Lakhs)

## Notes to the Consolidated Financial Statements

### C. Other Long term employee benefit plans:

#### Leave encashment

The Group has a policy on leave encashment which are both accumulating and non-accumulating in nature. The expected cost of accumulating leave encashment is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur. The liability of leave encashment is funded through Life Insurance Corporation.

The Group has recognised ₹ 17.41 Lakhs (March 31, 2020: ₹ 26.81 Lakhs) as expenses and included in Note No. 20 "Employee benefit expense".

## E. Significant Assumptions of Valuation on New Grant

No new options granted during the year.

## F. Expense arising from share- based payment transactions

Total expenses arising from share-based payment transactions recognised in profit or loss as part of employee benefit expense were as follows :

		(₹in Lakhs)
Particulars	Year Ended	Year Ended
	March 31, 2021	March 31, 2020
Share Based Payment to Employees	44.55	29.39

### Note 33 : Leases

A. For transition as on April 1, 2020, the Group has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Group has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

On transition, the Group does not have any leases except for low value assets lease.

B. The Group incurred ₹14.09 Lakhs (Previous year ₹ 7.90 Lakhs) towards expenses relating to leases of low-value assets.

#### Note 34: Disclosure in respect of Corporate Social Responsibility (CSR) Activities

Total Financial liabilities	2,944.06	2,944.06	2,548.71	2,548.71	

For Financial instruments risk management objectives and policies, refer Note 37.

## Note 36 : Fair value disclosures for financial assets and financial liabilities

(a) The management assessed that the fair values of cash and cash equivalents, other bank balances, loans, trade receivables, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values.

The fair value of borrowings is calculated by discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities.

/₹ in Lakha)

For financial assets and financial liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

### (b) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

#### Quantitative disclosures fair value measurement hierarchy for financial assets as at March 31, 2021 and March 31, 2020

				(< In Lakins)		
Particulars	Fair value measurement using					
	Total	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)		
As at March 31, 2021						
Assets measured at fair value	-	-	-	-		
As at March 31, 2020						
Assets measured at fair value						
Investment in Mutual Funds	4,422.31	4,422.31	-	-		

## Fair value hierarchy

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfer between level 1, 2 and 3 during the year.

 $The {\it Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.$ 

#### Note 37: Financial instruments risk management objectives and policies

The Group's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Group's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group's risk management is carried out by a Treasury department under policies approved by the Board of directors. The Group's treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The board provides written principles for overall risk.

## (a) Marketrisk

Market risk refers to the possibility that changes in the market rates may have impact on the Group's profits or the value of its holding of financial instruments. The Group is exposed to market risks on account of foreign exchange rates, interest rates, underlying equity prices, liquidity and other market changes.

 $\label{eq:Future} Future specific market movements cannot be normally predicted with reasonable accuracy.$ 

## (a1) Interest rate risk

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate.

The Group is exposed to interest rate risk of short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Group's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Group are principally denominated in Indian Rupees with mix of fixed and floating rate levels of management at regular interval.

As on March 31, 2021, the Group does not have any borrowings.

## (a2) Foreign currency risk

The Group's foreign currency risk arises from its foreign operations and foreign currency transactions. The fluctuation in foreign currency exchange rates may have potential impact on the income statement and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Group. The major foreign currency exposures for the Group are denominated in USD and EURO.

Since a part of the Group's revenue is in foreign currency and major part of the costs are in Indian Rupees, any movement in currency rates would have impact on the Group's performance. Exposures on foreign currency sales are managed through the Group's hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Group strives to achieve asset liability offset offoreign currency exposures and only the net position is hedged. Consequently, the overall objective of the foreign currency risk management is to minimize the short term currency impact on its revenue and cash-flow in order to improve the predictability of the financial performance. The Group may use forward contracts, foreign exchange options or currency swaps towards hedging risk resulting from changes and fluctuations in foreign currency exchange rate. These foreign exchange contracts, carried at fair value, may have varying maturities varying depending upon the primary host contract requirements and risk management strategy of the Group. Hedge effectiveness is assessed on a regular basis.

## Foreign currency sensitivity

The foreign exchange rate sensitivity is calculated by the aggregation of the net foreign exchange rate exposure in USD and EURO with a simultaneous parallel foreign exchange rates shift in the currencies by 2% against the functional currency of the respective entities. The Group's exposure to foreign currency changes for all other currencies is not material.

			(₹ in Lakhs)
Particulars	Change in Currency rate	Effect on profit before tax in USD rate	Effect on profit before tax in EURO rate
March 31, 2021	+2%	42.18	-
	-2%	(42.18)	-
March 31, 2020	+2%	15.17	(0.16)
	-2%	(15.17)	0.16

The movement in the pre-tax effect is a result of a change in the fair value of financial instruments not designated in a hedge relationship. Although the financial instruments have not been designated in a hedge relationship, they act as an economic hedge and will offset the underlying transactions when they occur.

## (b) Creditrisk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Financial instruments that are subject to concentrations of credit risk materially consists of trade receivables, investments and derivative financial instruments.

The Group is exposed to credit risk from its operating activities (primarily trade receivables and also from its investing activities including deposits with banks, forex transactions and other financial instruments) for receivables, cash and cash equivalents, financial guarantees and derivative financial instruments.

All trade receivables are subject to credit risk exposure. The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country, in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through established policies, controls relating to credit approvals and procedures for continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The history of trade receivables shows a negligible provision for bad and doubtful debts. Therefore, the Group does not expect any material risk on account of non-performance by any of the Group's counterparties. The Group does not have significant concentration of credit risk related to trade receivables. However, 2 third party customers contribute to more than 10% of outstanding accounts receivable as of March 31, 2021 and March 31, 2020.

Trade receivables are non-interest bearing and are generally on 30 days to 180 days credit term.

With respect to derivatives, the Group's forex management policy lays down guidelines with respect to exposure per counter party i.e. with banks with high credit rating, processes in terms of control and continuous monitoring. The fair value of the derivatives are credit adjusted at the period end.

## (c) Liquidityrisk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time, or at a reasonable price. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group generates cash flows from operations to meet its financial obligations, maintains adequate liquid assets in the form of cash & cash equivalents and has undrawn short term line of credits from banks to ensure necessary liquidity. The Group closely monitors its liquidity position and deploys a robust cash management system.

 $The {\it Group requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects and the project of the project$ 

(₹ in Lakhs)

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

				((
Particulars	< 1 year	>1 year but < 5 years	more than 5 years	Tota
March 31, 2021

#### Note 38 : Capital management

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value.

## Annual Report 2020-21

## Notes to the Consolidated Financial Statements

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements to optimise return to our shareholders through continuing growth. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The funding requirements are met through a mixture of equity, internal fund generation and other non-current borrowings. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance). The Group is not subject to any externally imposed capital requirements.

#### (₹ in Lakhs)

Particulars	As at	Asat
	March 31, 2021	March 31, 2020
(a) Interest bearing loans and borrowings	-	-
(b) Less: cash and bank balance (including other bank balance)	2,360.65	203.69
(c) Net debt (a) - (b)	(2,360.65)	(203.69)
(d) Equity share capital (Note 11)	983.12	1,019.95
(e) Other equity (Note 12)	32,731.79	31,271.51
(f) Total capital (d) + (e)	33,714.91	32,291.46
(g) Total capital and net debt (c) + (f)	31,354.26	32,087.76
(h) Gearing ratio (c)/(g)	(7.53%)	(0.63%)

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any long term borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the current period.

#### Note 39 : Impact of Covid-19

The spread of COVID-19 has severely impacted businesses around the globe. It has caused severe effects on the economy, world over including India due to lockdowns, disruptions in transportation, supply chain, travel plans, quarantines, social distancing and other emergency measures.

The Group is engaged in the business of manufacturing of engineering goods. The business of the Group is also affected by this disruption. The effects such as lower than normal business, other disruptions are expected to have continuing effect at least for the next two quarters based on current assessment.

However, the Group has made detailed assessment of the liquidity position for the next one year and of the recoverability and carrying value of its assets comprising Property, Plant and Equipment, Intangible Assets, Trade Receivables, inventory as at balance sheet date and has made appropriate adjustment along with adjustment to revenue recognition and actuarial assumptions. In assessing the recoverability of its assets including receivables and inventories, the Group has considered internal and external information up to the date of approval of these financial statements including economic forecasts. The Group has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Group expects to recover the carrying amount of these assets. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The Group will continue to closely monitor any material changes to future economic conditions.

#### Note 40 : Business Combination

Expenses of ₹ 191.93 Lakhs in conneciton with the Composite Scheme of Arrangement (the Scheme) sanctioned by National Company Law Tribunal vide its order dated October 26, 2018 between Arvind Limited ("AL"), Arvind Fashions Limited ("AFL"), Anveshan Heavy Engineering Limited ("the Company") and The Anup Engineering Limited ("Anup"), has been adjusted against Securities Premium as mentioned in the Scheme.

#### Note 41 : Code on Social Security, 2020

The Parliament of India has approved the Code on Social Security, 2020 (the Code) which may impact the contributions by the Group towards provident fund, gratuity and ESIC. The Code has been published in the Gazette of India. However, the effective date has not yet been notified. The Group will assess the impact of the Code when it comes into effect and will record related impact, if any, in the period the Code becomes effective.

## Note 42 : Standards issued but not yet effective

There are no standards or interpretations which are notified but not yet effective and that would be expected to have a material impact on the Group in the current or future reporting periods.

### Note 43 : Events occurring after the reporting period

The Board of Directors recommended dividend of  $\mathfrak{T}$  7/- per equity share (March 31, 2020 :  $\mathfrak{T}$  7/-) of face value of  $\mathfrak{T}$  10 each, which is subject to approval by shareholders of the Company.

# The Anup Advantages

## The Anup Engineering Limited

India's Leading Heat Exchanger Manufacturer

## **Expertise**

- Full range of Engineering services : Thermal, Mechanical, FEA, CFD, 3 D Modelling
- Technology Products such as Helixchanger

## Efficient

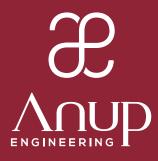

- Unparalleled Delivery Record
- Versatile and Flexible : Offer equipment from 20 MT to 400 MT weight
- Managing Large Project concurrently

## Excellence

- More than 55 years of experience in fabrication of different type of HE
- With Wide Range of metallurgies

## Experience

- Supplied Equipment in more than 20 Countries across 5 continents
- In Compliance with Global Construction codes
