Key Growth Drivers – PVC Pipes & Fittings

Flexible Packaging – Product Offerings

The packaging business provides technologically superior and sustainable packaging solutions such as high performance barrier films and laminates by rotogravure printing, extrusion lamination / coating, solvent base / solvent less lamination that find **application** in packaging of food, beverages, oil, personal care and pharmaceutical products

- Success driven by high product quality coupled with the engagement of marquee clients – a range of prominent international and Indian brands
- Doubling flexible packaging capacity from 9,600 MTPA to 19,200 MTPA in FY21
- Driving efficiencies through backward integration into manufacturing of inks, Blown PE film, printing cylinders, and forward integration into value-added specialized products
- Vision and mission is to emerge as an attractive fast-growing mid-sized player with an acceptable critical mass

APPLICATION OF FLEXIBLE PACKAGING

FMCG Shampoo & Conditioners Soaps & Detergents Vegetative Oils Tea & Coffee Juices & Drinks Candies Confectionery Aromatic Oils	Wheat, Rice & Cereals Spices INFRASTRUCTURE & OTHERS Cement Motor Oil & Lubricants Paints Garden Fertilizers Pharmaceuticals Contraceptives
FOOD Chips Biscuits Noodles Frozen food Sugar Dairy Products	

Flexible Packaging – State of the Art Technology

Packaging unit at Kashipur (Uttarakhand) is a blend of art, science and technology. It is a state-of-the-art plant with technologically advanced QA/QC lab.

Gravure Printing

Adhesive Lamination

Extrusion Coating Lamination

Multilayer Blown Film

ISO 22000: 2005, ISO 9001: 2015 & BRC 'A' Grade Certified Plant

Flexible Packaging – Key Clientele

among others...

Key Growth Drivers – Flexible Packaging

- Indian packaging industry valued at over INR 3 Lakh Crores and is further expected to grow at 13% CAGR over the next 5 years
- Indian packaging industry growth driven by:
 - Light weight, lower space requirement and carrying convenience
 - Rise of organized retail chains
 - Increase in smaller packages due to more nuclear families
 - Higher e-commerce penetration necessitating multilayer, durable packaging & security
 - Increase in purchasing power and demand for better packaged products
 - Tool for brand building
 - Urbanization and Increase in working woman population

Financial & Operational Performance FY20

PVC Pipe Division

Despite the disruption due to the COVID-19 pandemic, the PVC Pipe division managed growth in its sales volume over the last financial year. Encouraged by the performance of the division and taking into consideration the future growth potential in the sector, the Company has undertaken expansion in its range of PVC fittings, which is a high margin and high growth segment.

Flexible Packaging Division

The Flexible Packaging division has registered phenomenal growth in its sales volume over the last financial year. The growth is driven at the back of new clientele, improved operational efficiencies and greater market acceptability of the products. During the year, the Company also doubled its manufacturing capacity.

Looking at the future growth prospects in the packaging industry, the Company is further doubling its flexible packaging capacity in the current financial year. The expansion is being funded entirely through internal accruals.

Outlook

Despite the challenging economic environment due to the COVID-19 pandemic, the Company is currently operating its manufacturing capacities at optimum utilization levels as demand is robust from essential sectors like Agriculture & Infrastructure for PVC Pipes & Fittings and FMCG & Pharmaceuticals for Flexible Packaging. The Company expects demand will continue to increase in coming quarters.
