The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Since its incorporation 16 years ago in 2005, started with extracting butter and fats from Sal seeds and Mango kernel and gradually forayed into exotic products, specialty fats and Cocoa Butter Equivalent (CBE).

A global pioneer in the manufacturing of Specialty Fats and Butter from Tree-Borne and Plant-Based Seeds

The World's exclusive producer of Mango based Cocoa Butter Equivalent (CBE), Sal Based CBE, Shea-based CBE and Mango, Sal, Shea based Specialty fats and butter

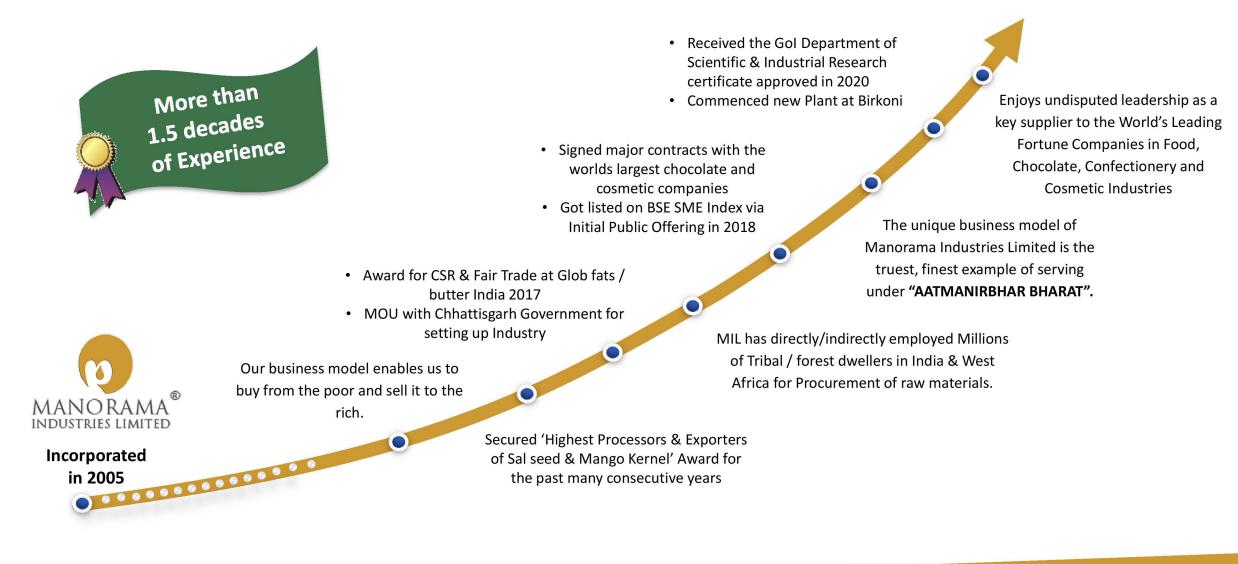

Recipient of multiple National and awards from GoI and other

organisations for its successful and unique business model, innovation its role in empowering communities and its contribution to nation building Accredited with various certifications, Recognized by Gol as a 'Star Export House' and is a member of FIEO, CII, SEDEX, APEDA, UNGC, SHEFEXIL, RSPO, IGBC, IOPEPC, SEA and others. Enjoys undisputed leadership as a key supplier to the *World's Leading Fortune Companies in Food, Chocolate, Confectionery and Cosmetic Industries*

Our Key Milestones

Experienced Board of Directors

Vinita Saraf

Kedarnath Agarwal

Executive Director

Experience : 46 Years

Shrey Saraf

Executive Director

Experience : 6 Years

Chairperson and Managing Director Experience : 20 Years

Background : She has completed her bachelor's degree in commerce from Mount Camel Girls College, Bangalore. Her journey has been marked by ambitious and entrepreneur vision coupled with great vigour and hard work

Background: He is Law Graduate from Kolkata University in 1963. Vast

quality control and marketing and Company law and legal divisions.

the process of Marketing, Customer and Business Development.

experience of working in the food industry, worked with the Flour and Oil Mills

for twenty years during which he served in various capacity inputs processing,

Background: A BBA in Business and Management from University of Exeter,

UK. His presence in the Company and his dynamic young energy strengthens

Jose V Joseph

Independent Director Experience : 40 Years

Background: He retired as the Executive Vice President from The Federal Bank and he has very vast experience to incorporate, SME and Retail banking in India and Middle East. His presence and independent advice always help to approach strong financial strategic planning and good corporate governance.

Nipun Sumanlal Mehta

Independent Director Experience : 36 Years

Background: A CA by qualification. He is an expert in Financial Markets and has entrepreneurial and corporate experience in Private Banking, Capital Markets & Wealth Management having worked in the past with both domestic & Global Financial Institutions in leadership positions. He was awarded as the 'Outstanding Young Private Banker' by Private Banker International, Singapore.

Dr. Neeta Kanwar

Independent Director Experience : 29 Years

Background: She is MBBS and MS obstetrics and gynaecology. Renowned Doctor in Raipur and having vast experience in Medical, Environment, Green and Plantations. Her presence in the co. maintain good hygienic environment and improves safety standards of the employees. Further her insight experience helps the co. in developing new product lines for healthcare centre.

Gautam Kumar Pal

Executive Director Experience : 21 Years

Background: He holds Doctorate in Management from National Inst. of Mgmt. , (Mah.), studied Production and MBA in Prod. and Markt. from Amity University UP and also is B. Tech in Chemical. The Birkoni Plant is headed by him who has very vast experience in Specialty Oil and Fats / Butters Manufacturing and Quality Control

Ashish Bakliwal

Independent Director Experience : 10 Years

Background: He is practicing CA. Experienced in the field of Enterprise Risk Mgmt., Internal Control Mgmt., Auditing and Assurance services. Presence ensures the integrity of financial system, improve internal financial control and his expert independent advice always help to set best accounting principles.

Experienced Management Team

Ashish Saraf - President

A B.Com. He has over 32 years of experience in managing the business and has a Rich Experience in business

Shrey Saraf - Executive Director

A BBA in Business and Management from University of Exeter, UK. His presence in the Company and his dynamic young energy strengthens the process of Marketing & Customer, Business Development.

CA Ashok Jain - CFO

A Chartered Accountancy by profession. He has vast experience of more than 10 years in senior Management of the Company.

product development Experience in R&D and Innovation for 21 yrs.+ He is an inventor / co-inventor of multiple patents and author / co-author of many publications in the oils and fats area.

Dr. Krishnadath Bhaqqan VP - R&D in

Deep Saraf - VP – BD

Part of co. since commencement. Currently responsible for leading and managing the co.'s. Birkoni plant. His long association and experience also create focus for the Company in the direction of Business Development.

Raj Shekhar -VP – Technical A Science Graduate, MBA in Production Management and Diploma holder in computer applications. He has very vast experience of 30 years in Oil Industry.

Ajay Sharma - VP - Commercial A MBA in Finance and marketing. He has an experience of 27 years in procurement of raw material from the domestic as well as foreign forests (Networking – RM Procurement)

He is MBA in Operation Research and MTech & BE (Hons.). He has an experience of more than 10 years in managing the domestic as well as

Chandan Gupta - Associate VP - Sales

international sales (adding new customer base)

CS Divya Jajoo - CS & Compliance

She performed magnificently in Initial Public Offer (IPO) of the company. She is designated key managerial personal and handled all the Compliances for the Company.

Gautam Das – General Manager

A MBA in Human Resource, having experience in Human Resources, Industrial Relations and Admin, he is a Dynamic Professional with a proven track record of management skills, innovative and result oriented.

Our Vision and Mission

6

Mission

- *Customer delight* is our highest priority
- **Upliftment** of livelihood of tribal people
- **On time delivery** with high-quality products at the best price
- Following socially and ecologically sustainable models of business
- Maintain our *Credibility, Respect, Integrity and Honor* by fulfilling our commitments

Vision

- Acquire and maintain leadership position in chosen areas of business by innovating and co-developing products for different applications for various segments using continues Research & Developments.
- Continuously create new opportunities for growth
- Produce handsome rewards, Enrichment and opportunities for growth to *our stakeholders and community in which we operate.*
- To uplift the health, sanitation and education of tribal people through CSR.
- One Stop Shop from collection of TBOs with the help of tribal people, processing, manufacturing of CBEs and Specialty Butters to use in end products.

Global Certifications

Manorama Industries' quest for quality has earned it a spectrum of prestigious certifications

Our Commitment to UN Global Compact

Committed to UN Sustainable Development Goals

Committed to UN Global Compact

With the signature of the UN Global Compact, Manorama Industries is committed to integrating and promoting several principles relating to human rights, international labor standards and the fight against discrimination.

Awards & Accolades (1/2)

National & International Awards Received by Manorama from Government of India, Ministry of Commerce and Various other National & International Organizations

Recent Awards & Accolades (2/2)

Awarded 'Highest Processor of Mango Kernel 2019-20'

Awarded 'Highest Exporter of Mango Kernel oil (Fats) 2019-20'

Awarded 'Highest Processor of Salseed 2019-20'

Consecutively from many years MIL has meritoriously conferred 4 (four) awards at the AGM organized by *The Solvent Extractors' Association of India on October 8th, 2020.*

Awarded 'Highest Exporter of Mango Kernel oil (Fats) 2019-20'

Our Business Model

Weaving a Revolution - Wealth Out of Waste

"We source from poor and sell to rich" Waste to Wealth From the Poorest From Forests to To the Richest premium Brands • Procuring Raw Materials from the Forest / Plant grown seeds, mango

- kernels are major raw materials
- Partnering with marginalized Tribal Community for Raw Material Supply Chain
- Generating Foreign exchange for the nation by exporting the manufactured products across the globe.

- Collecting raw materials primarily exotic seeds from the forest
- Converting these into the final products in the form of CBE, Fractionated Fats and Butter sold to Global Brands in Chocolate, Confectionery, food and Cosmetic Industries.

- marginalized tribal located in remote forest areas
- Transforming their lives and helping them sustain themselves economically
- Processing and selling the finished products to the premium, niche Brands across the globe. Thus, linking the poorest to the richest.

Collecting Nature's Gift to Make Natural Products

Our business model is *entirely nature based*, sourcing our entire raw material from forests. *No Risk of non-availability of raw material*. Trees flower every year and seeds are produced. *Available in plenty in India and other Countries*. There is limited concentration risk as products derived from trees are renewable and the *seeds ripen periodically in the Indian summer months.*

The Company sustainably sources treeborne seeds and plant-based seeds from millions of tribal and forest dwellers, mainly womenfolk across thousands of villages in India, and West Africa directly through multiple collection center's

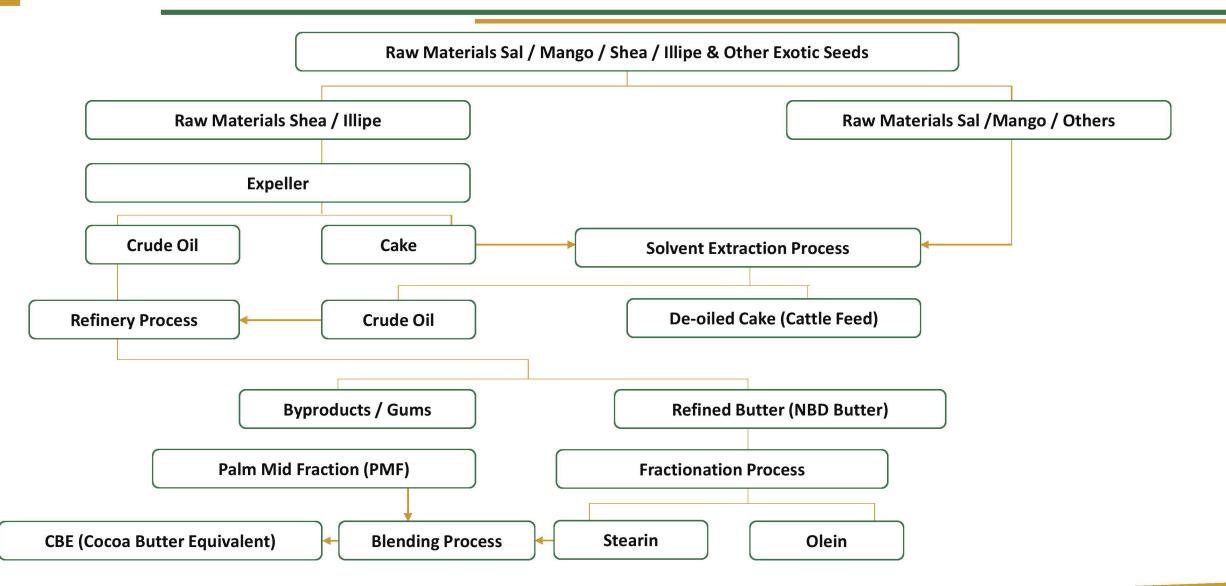

The Cocoa Butter Equivalent (CBE) and Fractionated Fats and Butter supplied by Manorama Industries is *made from the extracts of tree-borne seeds such as Sal, Mango, Kokum, Mahua, Dhupa, Shea and Illipe.*

Our vast supplier network, built over several decades, is well positioned to supply the required raw material to cater to our increased production requirements.

Manufacturing Process and Capacities

Enhancing Capacities for an Expanding Business

Favourable plant location provides us an edge in sourcing raw-materials and ensuring adequate supply

To meet the huge surge in specialty tailor-made fats and CBE demand, *the company has set up an integrated state of the art manufacturing plant at Birkoni, near Raipur, Chhattisgarh.* This includes all processes viz Crushing, Extraction, Refining, Fractionation etc.

The commissioning of the new plant and the resultant capacity expansion *makes us a leading Indian manufacturer in the global CBE and specialty butter & fats market,* and will enable the Company to further ramp up its output for the global demand supply gap. The plant is 450 KMs from Visakhapatnam port.

The Company has a distinct sourcing advantage due to its strategic location in the heart of India's forest-region and its strong relationship and network with the local tribal communities, who are well-versed with the forest topography

With commencement of new Birkoni Plant, the Company has operational capacities as under:

| Refinery | Fractionation | Interesterification | |
|---------------|--|---------------------|--|
| 15,000 MT | 15,000 MT | 15,000 MT | |
| Deodorization | Packing & Blending | Seed Milling | E for |
| 15,000 MT | Station – 30,000 MT | 60,000 MT | |
| | Solvent Extraction Plant* - 90,000 MT | | and the second sec |

* Proposed in 2021

Raipur, Chhattisgarh

Key Product Components

Shea nuts (Vitellaria paradoxa)

The Shea trees that yield Shea nuts are found mainly in West Africa region. The Shea nut collection season is from September to January. The Ghanaian kernels are considered to be of the best quality due to their consistently lower free fatty-acid levels, higher butter content and lower impurities. The Company procures Shea nuts from bushes in Ghana through a supply channel consisting of social organizations, women's collectives, village markets and local traders.

Sal seeds (Shorea robusta)

Home of the largest Sal forests in the world, Sal seeds are abundantly available in forests in India from May. The Company has a distinct Salseed sourcing advantage due to its strategic location in the heart of India's forest-region and its strong relationship and network with the local tribal communities, who are well-versed with the forest topography. Manorama Industries is uniquely positioned to source its required Sal seeds through its well-entrenched network.

Mango kernel (Mangifera indica)

Mango is a seasonal fruit that is amply available across the country during the Indian summer months from May-July. The Company directly sources Mango kernel through a dedicated supplier network that relies on collections from thousands of villages. Manorama Industries is also exploring avenues to source Mango kernels from pulp industries where Mango seeds are a waste product.

Kokum seeds (Garcinia indica)

The Kokum fruit grows in the evergreen forests of the Western Ghats, the supplies of which the Company secures through local collectors in Raigad, Konkan districts of Maharashtra, and Goa. The Kokum seeds are available from September to December. The Kokum seeds yield Kokum fat after crushing and extraction in a solvent extraction plant and the edible refined butter is used as a component in CBE formulation.

Mowrah seeds (Madhuca longifolia)

The Mowrah seeds are available from May to July, and is the single largest indigenous source of natural soft butter with comparable triglyceride composition as in cocoa butter. Sourced from forest floors in Chhattisgarh and Madhya Pradesh, its fat is a key ingredient in the cosmetics industry and for soap manufacturing. Because of its composition and compatibility with cocoa butter, Mowrah butter is suitable to be used as an ingredient in centre-filled chocolate products.

De-Oiled Cake for Cattle Industry

India is the world's largest consumer of cattle-feed & largest Milk Producer The Company has *Sizeable presence* in the Cattle feed segment

Offering *nutrition & protein meals in animal feed and fatty acids for diverse applications.*

Largest supplier of Cattle feed from the seeds of Sal, Mango and Shea de-oiled cakes to Indian cattle feed industry De-Oiled Cake is the by-products sold as Cattle Feed.

FY20 Revenue contribution from cattle feed business **Rs. 330 Millions**

Our Key Product Portfolio

Shea butter

Shea nuts have 45-52% butter content, high in stearic, oleic-and other essential fatty acids, which are used in lotions, creams and butter blends. It contains symmetrical triglycerides, which after fractionation gives suitable raw material for cocoa butter equivalent.

Shea stearin

Is the solid fraction obtained via solvent fractionation of Shea butter and *when blended with palm midfraction, it results in a Cocoa Butter Equivalent.*

Shea olein

Is the soft fraction obtained when processing Shea butter to produce Shea stearin. *It is used as a healthy alternative in a variety of applications such as soft confectionery centre filling, chocolate spreads, bake-stable, bakery applications and icecream.*

Sal butter

The Sal seeds have 13-14% butter content, high in stearic, oleic acids and other essential fatty acids, *which find utility in lotions, creams and butter blends.*

Sal stearin

Solid fraction obtained via solvent fractionation of Sal butter and *when blended with palm mid-fraction, it results in a Cocoa Butter Equivalent.*

Sal olein

Is the soft fraction obtained when processing Shea butter to produce Shea stearin. *It is used as a healthy alternative in a variety of applications such as soft confectionery centre filling, chocolate spreads, bake-stable bakery applications and ice-cream.*

Mango butter

Its fatty acid composition, combined with the unique unsaponifiable matters, helps to maintain soft and supple skin when applied in cream and lotion formulations

Mango stearin

It is obtained via solvent fractionation or dry fractionation of Mango butter, and its composition and physical characteristics are comparable to those of Sal stearin.

Mango olein

Is the liquid fraction obtained from the production of Mango stearin and has a wide application in the cosmetics industry. *It is used in formulation which aid in moisturizing, healing dry and cracked skin and facilitates skin-cell renewal.*

Kokum Butter

It is obtained from kokum seeds. It is specifically used in body lotions, creams and butter blends.

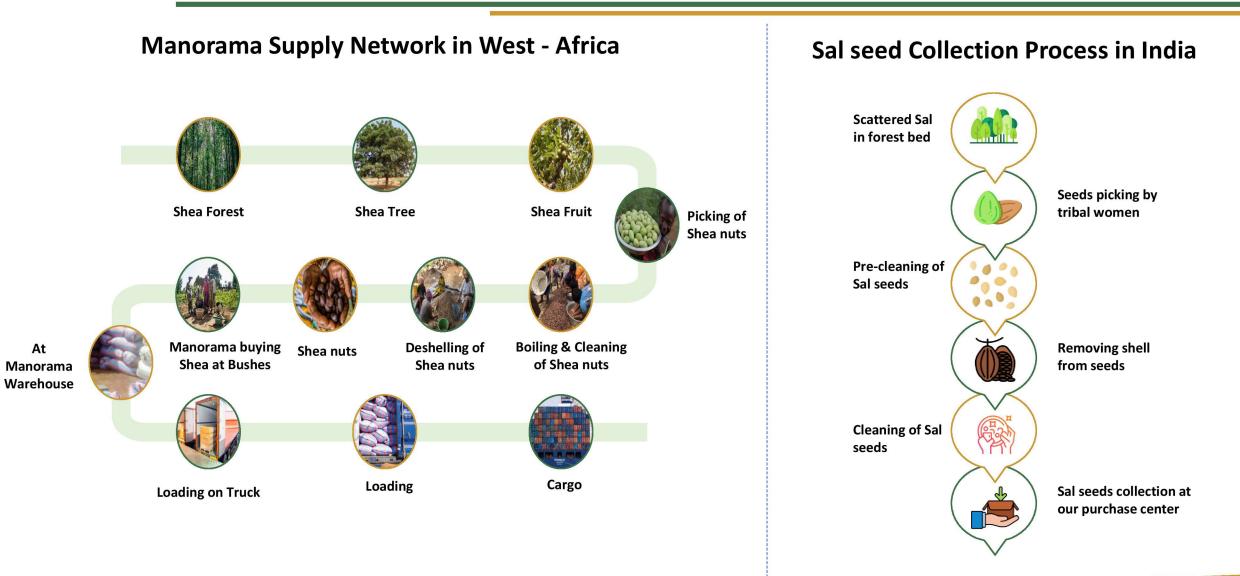

Mowrah Butter

From its seed kernels, butter is extracted which has a mild, pleasant odor suitable for use in cosmetics and toiletries.

Supply Chain Network

World's Leading Brands are Our Customers

The Company derives major revenue from the chocolate and confectionery industry, with a significant portion of the balance revenues coming from the cosmetics industry

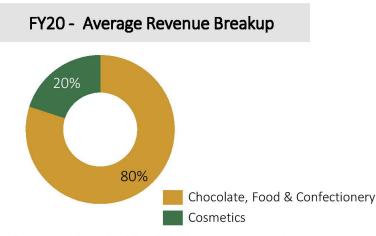

Food & Confectionery

Cosmetics

Chocolate

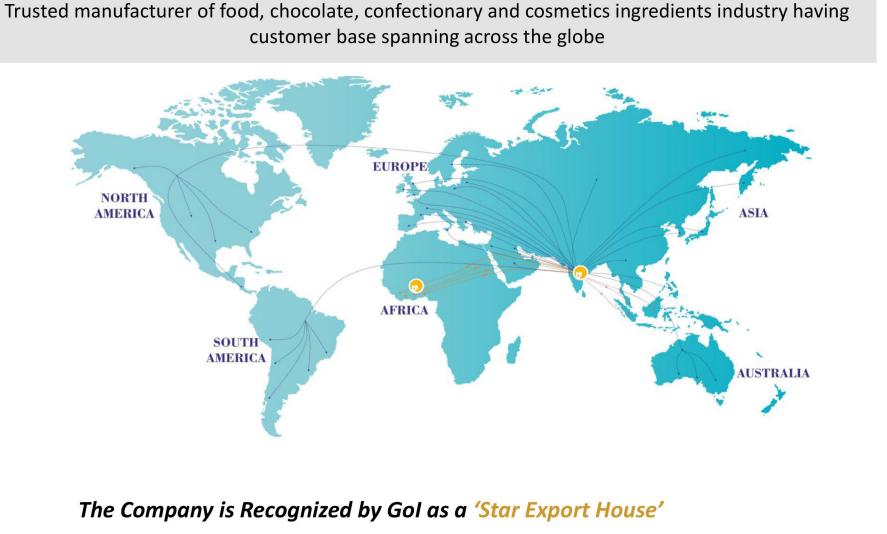

FERRERO

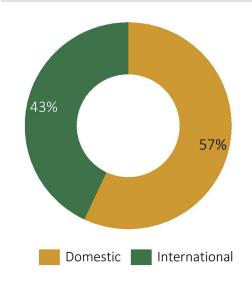

The Brand Names mentioned are the property of their respective owners and are used here for identification purposes only

Geographical Footprint

FY20 – Average Revenue Breakup

The Company enjoys a global leadership position in the manufacturing and exporting of its products

Note: Maps not to scale. All data, information, and maps are provided "as is" without warranty or any representation of accuracy, timeliness or completeness

Client Testimonials

Meet the Women of Manorama – Article Published on *The Body Shop Website*

MEET THE WOMEN OF MANORAMA

Our bestselling Mango Body Butter is enriched with the goodness of Mango Seed Oil from India. Our Community Trade Mango Seed Oil is sustainably sourced from Manorama Industries in Chattisgarh, India. We began working with the local women's cooperatives there in 2017. They hand-collect the mangoes from the forest floor, hand-peel the flesh and crack the seeds. They then send them to a production facility to extract their nourishing oil. Manorama Industries give the cooperatives training on harvesting methods, helping protect India's mango trees while providing a sustainable source of income. During harvesting season, these women carry an incredible 10-20kg of fruit every day.

Industry Overview

Indian consumption of chocolate was ~228,000 tons in 2016.

In May 2017, FSSAI allowed the use of 5% CBEs in chocolates from January 1st, 2018. With the positive change in the standards of chocolates, the CBE demand is estimated to grow substantially.

India is one of the most important CBE markets with a likely consumption of ~8,000 tons per annum in 2018 & projected go up to ~20,000 tons by 2022.

Global Industry Landscape

BŪNGE FUJIOIL

Japan, Russia and other countries of the world *Permit the use of CBE & vegetable fat other than cocoa butter more than 10%*

If the same more than 10% is allowed in India, it will open up vast broader area of employment and benefit for Manorama & Millions of Tribal of India.

Innovation & Research

Me

Me

Me

Product Portfolio - MILCOA® Range & Spread Fats

Through extensive customized solution provider and with co-development approach with customers and in-house research, Manorama Industries Limited has developed a number of customized products:

Milcoa® ES70, Milcoa® ES70S, Milcoa® ES70M, Milcoa® ES70HT (Cocoa Butter Equivalents, CBEs)

Milcoa[®] ES range consists of Cocoa Butter Equivalent (CBEs), with degree of hardness that matches standard cocoa butter quality and is fully miscible and compatible with cocoa butter.

Milcospread 03, Milcospread 30, Milcospread 33, Milcospread 40 (Chocolates / Hazelnut spread fats)

Milcospread is our premium brand for chocolate and hazelnut spreads. Depending on the required texture, these fats can also be applied in center-filled chocolate products.

Milcoa[®] IS1016, Milcoa[®] IS1024, Milcoa[®] IS1032 (Cocoa Butter Improvers, CBIs)

These are harder Cocoa Butter Alternatives (CBAs), which can improve cocoa butter by increasing the hardness and enabling easy processing. *It gives the final chocolate a better taste, texture, eating sensation and reduces cost.*

Milcoa ES1017, Milcoa ES1021 (Cocoa butter optimizers)

These are softer fats ideal for optimizing a chocolate system, which uses cocoa butter and milk fat, by eventually replacing both. This optimization is realized by varying the fat system to balance the flavor and texture of the chocolate.

These premium products go into the making of world's finest chocolate and confectionery brands.

Excellence Through Innovation & Research, But Naturally!

Milcoa[®] Innovation & Research Center, a high standard research laboratory equipped with cutting-edge technologies

Collaborates closely with customers' R&D teams

Develop creative innovative solutions to use its CBEs, CBIs and other offerings.

Lead by Dr. Krishnadath Bhaggan -25 years of global experience in the industry, contribution to multiple patents in his name.

Constantly exploring new insights, new raw materials and new technologies

Joined elite club of **select companies** after receiving Government of India's Department of Scientific & Industrial Research (DSIR) certificate for Manorama's MILCOA Research & Development Centre

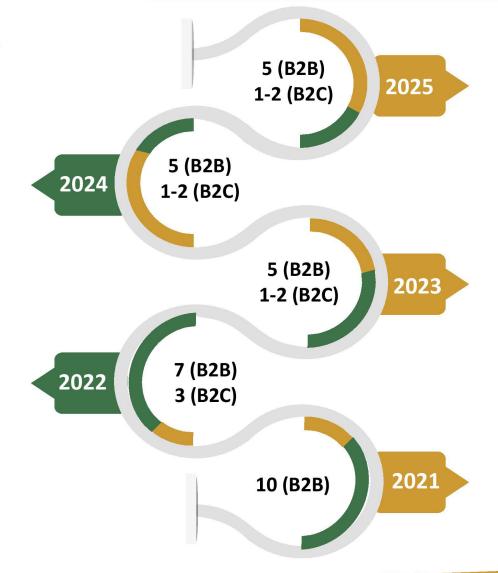

R&D, Innovation & QA/QC Capabilities

Building on its core competencies in the food and cosmetics segments, the Company is developing new products for segments like spreads

The Company's strategy is to develop products for the health sector in future.

New Products for :

Confectionery, Bakery, Culinary and nonfood, Health drink, Personal care

Under Development (B2B)

- Thermo-tolerant Cocoa Butter Equivalent
- Thermo-stable Chocolate/HazeInut Spread Fat
- Cocoa Butter Replacers
- Aeratable Confectionery Filling Fats
- Cocoa Butter Substitute Reduced SAFA
- Organic Glycerin, Sal Tanin Concentrate

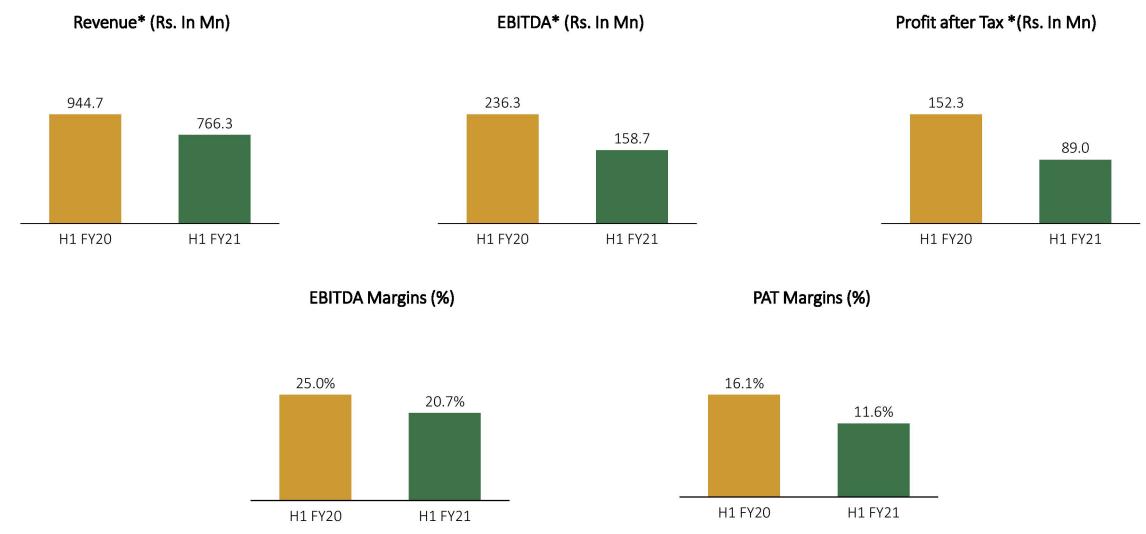

Under Development (B2C)

- Thermo-tolerant Chocolate Spread
- Chocolate-filled Bakery/Biscuit Products
- Chocolate Tablets
- Filled-wafer Products

Outlook - Growth Drivers - Market Strategy

Optimum capacity utilisation at Birkoni

The Company's new plant at Birkoni started full commercial production. Key process of fractionation has also commercially started in March 2020. With this achievement, the Co. has achieved optimum production level in the year 2020-21.

Growing opportunities in Chocolate Industry

The increasing tradition of chocolate gifting and the fear of adulteration in traditional sweets is also expected to be a major driver for the industry. Further, innovation in chocolate marketing and premium chocolates is also one of the biggest growth drivers for the Industry

Increased share of CBE in Chocolates

With strong expectations of the increase in 5% limit for the use of CBE in chocolates, the scope for growth is exponential. This will be beneficial to manufacturers of chocolates, without affecting quality of the product given that CBE is cost-effective compared to Cocoa Butter, but does not affect the taste and texture of the chocolate.

Growth is Specialty Fats and Butter Market

It is estimated that the global Specialty Fats & Butter market is expected to grow at a CAGR of 6.6% in terms of revenue. The APAC region is one of the largest markets of growth for specialty fats and Butter, and will continue to grow in terms of volumes.

Government Initiatives

The Government of India provides special incentives and support for agriculture, vegetable Butter & fats, and food processing industries. Furthermore, the opening up of global trade and liberalization also provides a huge opportunity for foreign collaboration.

Foray into newer geographies, segments and customers

Our growth fundamentals continue to be in good shape with gains in penetration and augmentation in distribution. Most of our brands and products have registered strong growth. We persevere in our quest to expand our portfolio of new geographies, new segments and new customers and enhancing our financial agility.
