Operational Highlights

- **Native Starch –**

The commercial production of Native Starch started in August 2016 with capacity to process 300 tons of corn per day.

The product is selling under the brand 'Rhino' and has been well accepted as a strengthening agent by the paper mills in and around 150 km of our Muzaffarnagar facility.

The Product has a huge location advantage as Western U.P. being a hub of Paper Mills, alone consuming 6000 tons of starch every month.

- **Rice Fructose Syrup**

Gulshan is the first company to manufacture Rice Fructose Syrup in India from its Rice Grinding Unit in Muzaffarnagar having a Capacity of 300 MT per day.

The technology has been imported from China who is world leader in this product. At full capacity, there will be a Foreign Exchange saving of USD 20 million p.a. by substituting the import to the Country.

Rice Fructose Syrup is a sugar replacer, pallet enhancer, instant energizer, Non- GMO, Allergen free, having a low glycemic index and a low calorie sweetener.

Its application is in beverages, concentrates, flavored and un-flavored syrups (sharbat) health drinks & foods.

- **Construction of Distillery in Chhindwara (MP)**

Project is expected to be commissioned in the fourth quarter of the current financial year.
