Dear Sir(s),

Sub.: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Investor Presentation.

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we enclose herewith the Investors Presentation for Q3FY24.

This is for your information and record please.

Thanking you,

Yours faithfully,

For Everest Kanto Cylinder Limited

Vishal Totla Company Secretary and Compliance Officer

EVEREST KANTO CYLINDER LIMITED Clean Energy Solution Company **Investor Presentation**

Q3 FY24 Results Presentation February 2024

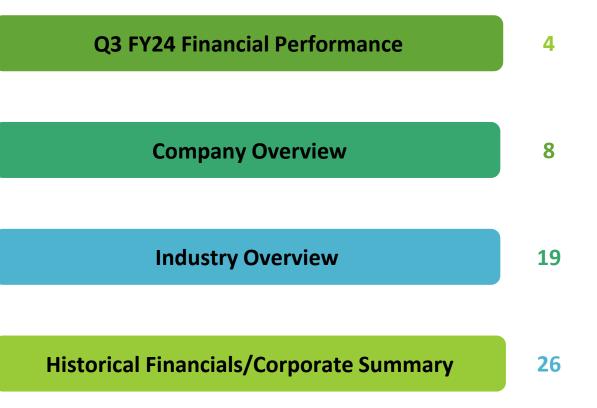

Safe Harbor

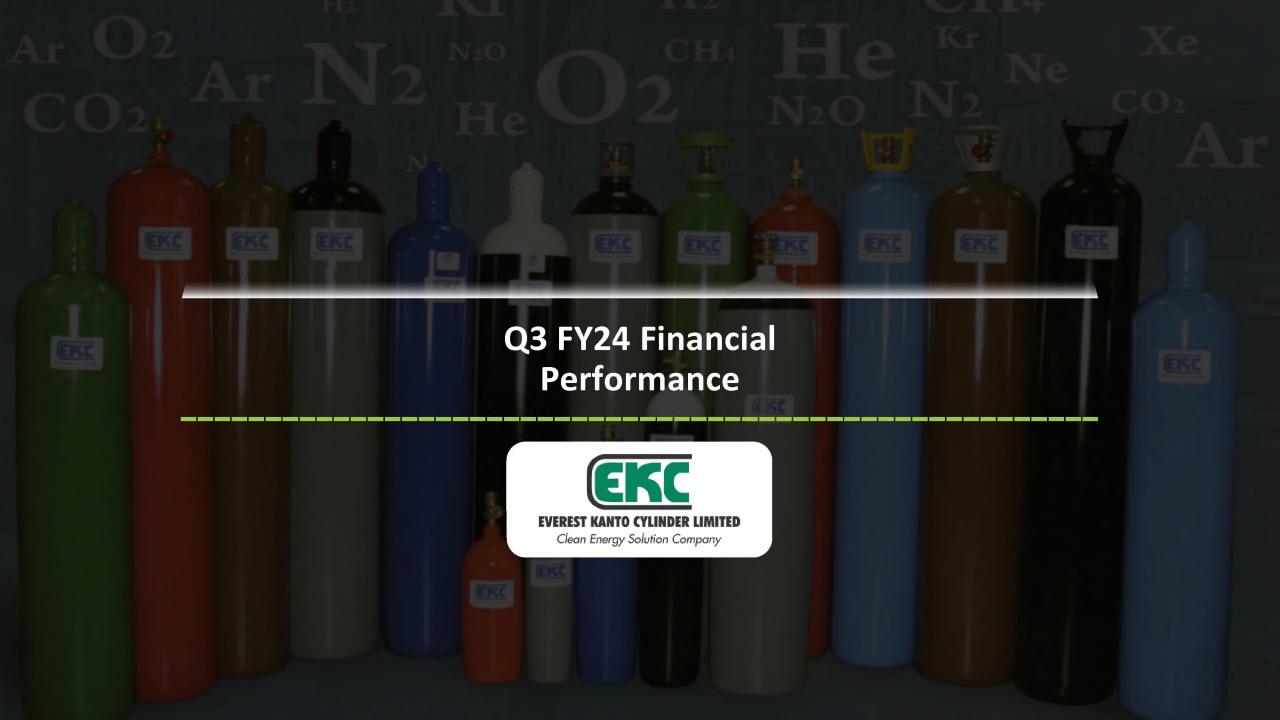

Certain statements in this communication may be 'forward looking statements' within the meaning of applicable laws and regulations. These forward-looking statements involve several risks, uncertainties and other factors that could cause actual results to differ materially from those suggested by the forward-looking statements. Important developments that could affect the Company's operations include changes in the industry structure, significant changes in political and economic environment in India and overseas, tax laws, import duties, litigation and labor relations.

Everest Kanto Cylinder Limited (EKC) will not be in any way responsible for any action taken based on such statements and undertakes no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

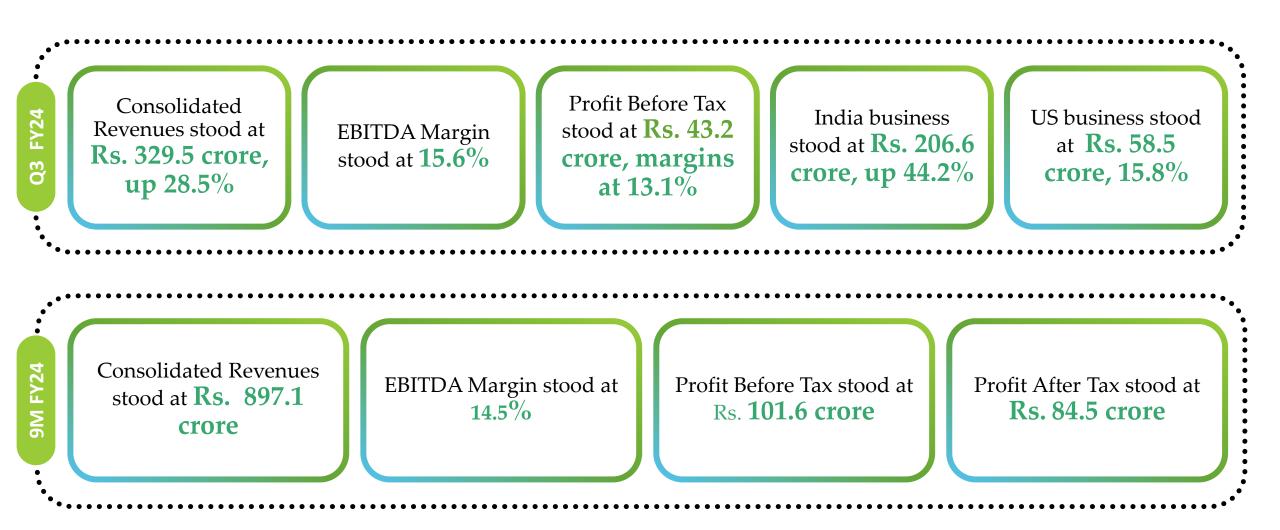

Table of Contents

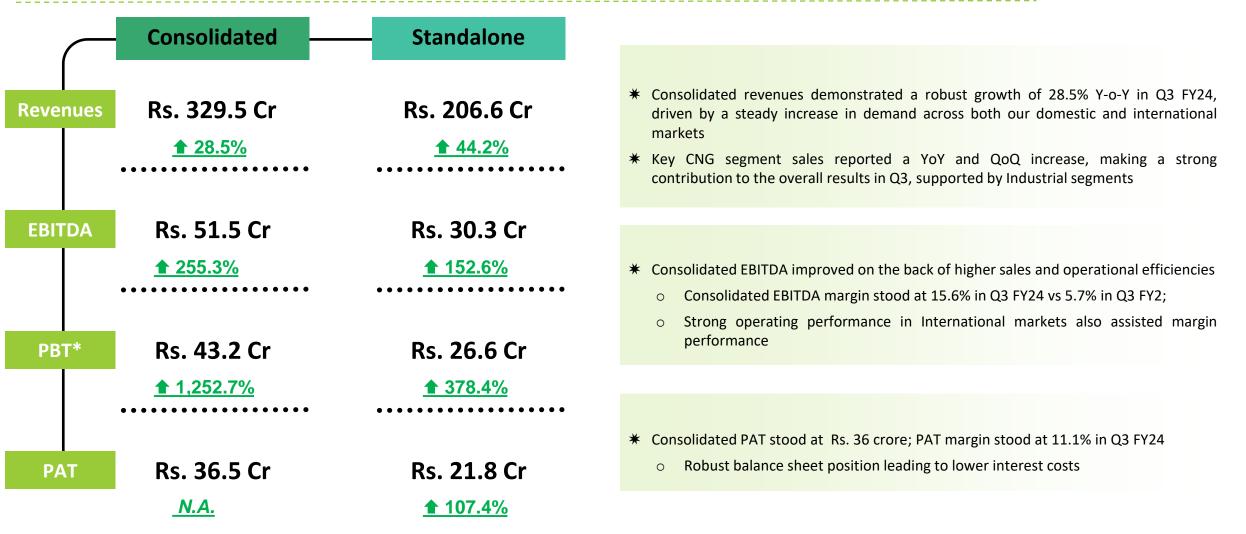

Quarterly Overview – Q3 FY24 vs Q3 FY23 (Y-o-Y)

News & Updates

GAS WORLD CONFERENCE-KUALA LUMPUR

December 2023

- ★ EKC successfully participated in the prestigious Gas World Conference held in Kuala Lumpur in 2023.
- During the conference, EKC showcased its cuttingedge products, including High-Pressure seamless steel Cylinders, Jumbo Tubes & Vessels, and composite Gas Cylinders.

ADNOC Hydrogen Summit 2023

November 2023

* As the world shifts towards a more sustainable and eco-friendly future, EKC remains at the forefront of the movement. The Company's participation in the ADNOC Hydrogen Summit reinforces its dedication to sustainability, showcasing how its products and technologies are integral to the development and deployment of hydrogen as a clean energy solution.

Hydrogen Egypt Summit 2023

November 2023

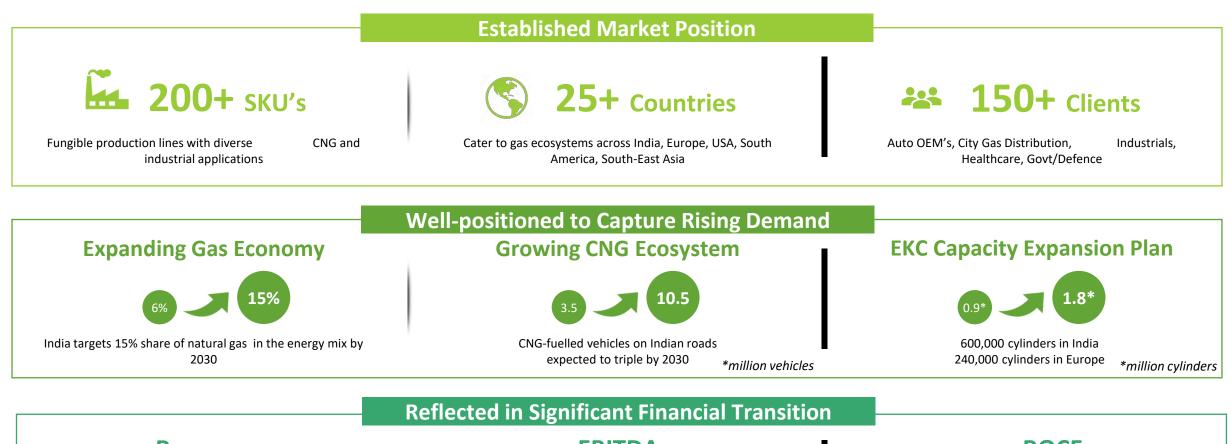

- The Hydrogen Egypt Summit 2023 served as a platform for EKC to delve into the burgeoning hydrogen economy, emphasizing its role in decarbonizing various sectors such as energy, transportation, and industry.
- ★ Hydrogen, recognized as a clean and versatile energy carrier, has emerged as a critical component in the transition towards a more sustainable future.

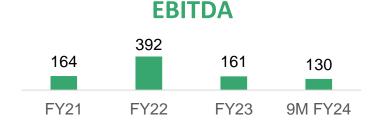

Company Overview

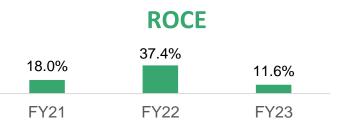

EKC is India's Largest Manufacturer of High-pressure Gas Cylinders Since 1978 VEREST KANTO CYLINDER LIMIT Clean Energy Solution Company

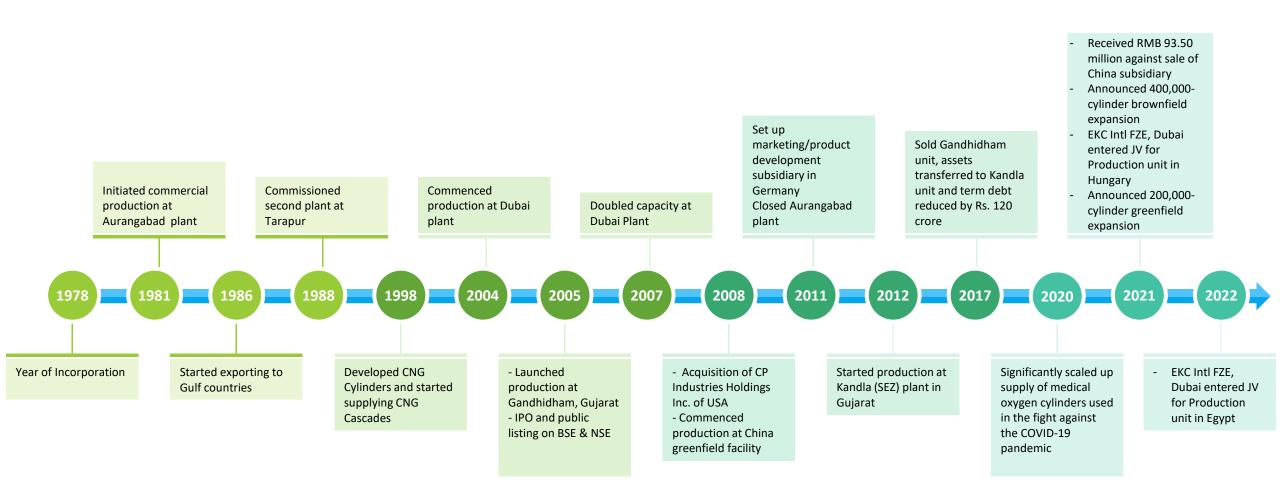

Over Four Decades of Focused Domain Experience

Pushkar Khurana

Executive Chairman

- ★ Joined EKC business in 1994
- * Commerce graduate from Mumbai University
- ★ Extensive business and finance experience; with over 20 years in international operations

M N Sudhindra Rao

Independent Director

- Financial management and corporate turnaround expert
- * CEO of Indo Rama Synthetics Limited
- ★ Four decades of experience in manufacturing, energy and other industrial sectors

Puneet Khurana

Managing Director

- ★ Joined EKC business in 1996
- MBA (International Business) from EU Business School, Switzerland
- Led market development in Asian countries; product development for auto OEMs/ CNG distribution companies

Uma Acharya

Independent Director

- Law professional specializing in civil, property, securities market and arbitration laws
- Member of the Bar Council of Maharashtra and Goa
- Previous experience with the National Stock
 Exchange of India Limited

Ghanshyam Karkera

Independent Director

- ✗ Finance, Banking and Law professional
- Specializes in audit, taxation, financial planning, project finance, rehabilitation of sick units and overall corporate management
- ★ Also, an empanelled mediator

Dr. Vaijayanti Pandit

Independent Director

- PhD in Management Studies, with additional qualifications in Political Science, Journalism and Yoga
- Overall, four decades of experience; currently, advisor to Welingkar Institute of Management Development and Research
- ✤ Previously associated with FICCI and Indian Merchants' Chambers in senior positions

Sanjiv Kapur Chief Financial Officer

Vishal Totla Company Secretary

Extensive Range of Products

CNG Steel Cylinders

- Wide range of CNG cylinders designed and manufactured to comply with the highest quality and safety standards
- Products built to customer specifications for cars, buses, three-wheelers and delivery vehicles
- Strong, lightweight cylinders undergo stringent testing to assess fatigue strength, usage life, safety and reliability under extreme weather conditions

Industrial Cylinders

- Wide range of industrial cylinders designed for industrial gases, medical and food & beverage applications
- Preferred worldwide for quality, aesthetics and versatility of products
- Adhering with the most stringent regulations in India and internationally (ISO 9809, IS 7285)

Medical Oxygen

- Safe, contamination-free cylinders storing gases such as oxygen and nitrous oxide
- Products comply with stringent standards applicable in India and internationally or specific customer requirements

Cylinders For Hydrogen Gases

- Cylinders, quads and cascades for storage/transportation of Hydrogen at high pressure
- Manufactured from steel suitable for Hydrogen storage, a gas with flammable and embrittling properties

Products with a Wide Range of Applications

Fire Extinguisher Body

- Cylinders for storage of carbon dioxide used in fire extinguishers, rubber rafts and aerated water
- Range covers capacities of 1 litre to 180 litre , handheld and portable wheel-type extinguishers
- Powder coated for better visual appeal and longevity

Breathing Air Cylinders

Compressed breathing air cylinders adhering with IS 7285 – rated at working pressure of 200-300 bars Complete product range from 1L to 9L cylinders

Jumbo Cylinders

- Large Capacity Jumbo Large capacity cylinders conforming to Indian/international standards or based on specific customer requirements
- Jumbo Cylinders/Skids are used for industrial gases such as Nitrogen, Helium, Argon etc. with several defence/aerospace applications

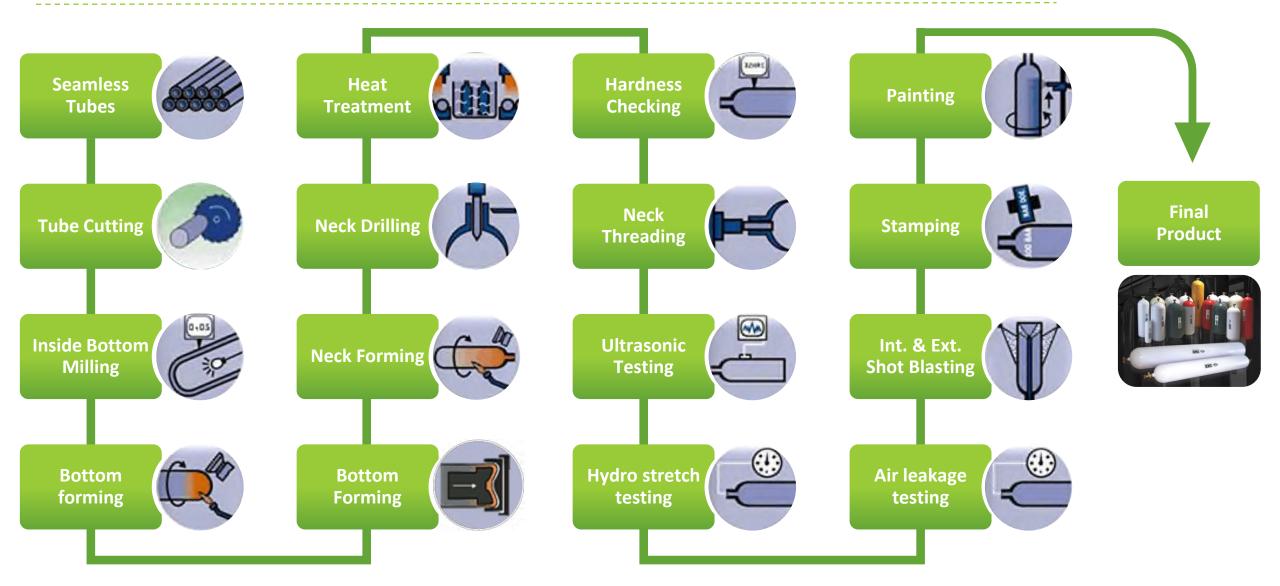

Type 4 Composite Cylinders

- Type 4 composite cylinders manufactured in EKC's USA plant adhere to stringent international regulations (ISO 11119-3, ISO 11439, NGV2)
- Light-weight cylinders made from special aluminium alloys, used for specialty/medical/industrial gases, including fire extinguishers and breathing apparatus

High Value Addition in the Manufacturing Process

Quality is Key in a Highly Regulated, Safety-focused Industry

Global-size Manufacturing Plants with Fungible Capacities

Tarapur, Maharashtra, India

Kandla SEZ, Gujarat, India

Manufacturing	Wide range of high-pressure seamless steel cylinders with storage capacity up to 280 litres			
Area	31,000 sq. m			
Annual Capacity	300,000* units			

Manufacturing	Small cylinders (1 litre to 21 litres), gas cylinders (up to 280 liters), jumbo tubes/skids, plate rolled cylinders				
Area	85,000 sq. m				
Annual Capacity	800,000* units				

Manufacturing Facilities – Overseas

Plant II – Dubai

Pittsburgh, PA, USA

Manufacturing	Focus on global emerging markets from two facilities located in Jabel Ali FTZ				
Area	Plant I - 21,000 sq. m Plant II - 25,000 sq. m				
Annual Capacity	240,000 units				

Manufacturing	Jumbo tubes/skids as per DOT, ASME, international standards, full carbon type 4 composite cylinders					
Area	198,000 sq. m					
Annual Capacity	4,000 jumbo tubes, 10,000 type 4 composite cylinders					

International Operations Target Widespread Global Gas Usage Expansion

USA

- Leader in innovation, producing large, seamless pressure vessels
- Product portfolio includes ground storage and mobile transportation for industrial gases and alternative fuels, on-board cylinders for passenger and commercial vehicles, flasks for the U.S. Government Shipboard Systems, specialty vessels for foreign military, vessels for oil and gas exploration and cylinders for other specialty applications
- Also marketing DOT-approved industrial cylinders sourced from India and Dubai

Egypt

- Signed JV with a local Egyptian partner with majority holding to set up a state-of-the-art manufacturing plant in Egypt for seamless high pressure CNG/industrial gas cylinders and cascades for bulk storage
- Key markets: Egypt, Middle East and North Africa (MENA) region

Egypt

Duba

- Deals in CNG cylinders, industrial cylinders, cascades, multiple element gas containers, specialized fire suppression systems and fire detection/alarm systems
- ★ Targets markets include the Middle East, South America, Eastern and Western Europe
- Received approvals enabling supply of cylinders worldwide, including exports to India
- ★ Increasing demand from MNC's expanding presence in the Indian fire-fighting market
- Supplementary production base for Indian operations, enabling reduced inventory cost at group level

Leading to proliferation of CNG fuelled vehicles on Indian roads

Source: CRISIL

CNG Demand has Multiple Drivers

BS-VI transition	Auto OEMs have significantly reduced diesel vehicle production due to rising costs/lower demand			
Vehicle Scrappage Policy	Expected to drive new vehicle sales and CNG adoption			
Conversion of diesel buses to CNG	STCs continue to convert diesel bus fleets to CNG			
CNG price trends	Traditionally, CNG prices trade at a discount to other liquid fuels			
Cost of vehicle ownership	CNG vehicles operate on much lower cost per kilometer			
Environmental concerns	India is a participant in the global commitment to setting net zero emission targets			

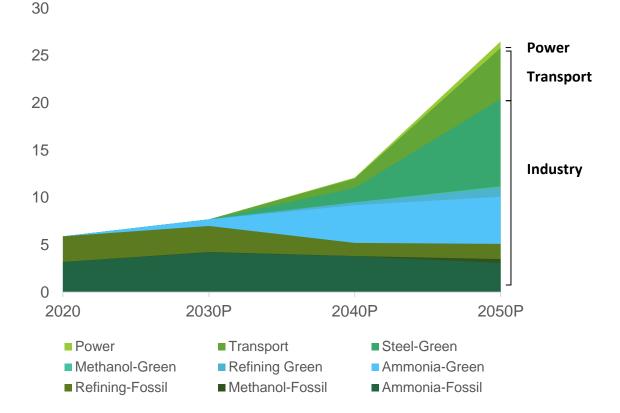

Hydrogen– Key Pillar for Global Energy Transition

- Global shift towards decarbonization: over 30 countries have released Hydrogen roadmaps, committed more than USD 70 billion in public funding, and total investments expected to exceed USD 300 billion in Hydrogen spending through 2030
- ★ Government of India notified its Green Hydrogen Policy with an aim to make India a Green Hydrogen Hub
 - Scaling up the use of domestically produced hydrogen to significantly reduce energy imports
 - Policy in line with the country's pledged to be carbonneutral by 2070
- India's Hydrogen demand is expected to increase 5-fold jump to 28 MT by 2050 from 6 MPTA in 2020
 - 80% of the demand in 2050 is expected to be green in nature

Compressed Hydrogen can be transported in gas cylinders: Huge multi-decadal opportunity for the industry

Hydrogen demand in India expected to increase 5-fold by 2050

Industrial Demand Drivers

Fire Equipment and Fire Suppression Systems

Supply to Medical Establishments

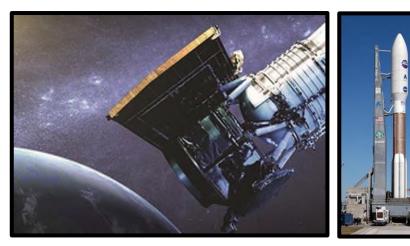

- ★ The global fire safety equipment market is estimated at \$ 58 billion in 2018 and expected to expand at CAGR of 8.8% from 2019 to 2025
- * Demand for advanced fire safety systems is expected to be driven by industries such as manufacturing, utilities, petrochemicals, mining, oil & gas exploration, energy & power, automotive and construction
- * Countries across the world are adopting stringent regulations mandating installation of fire safety systems at industrial, residential and commercial locations

- Medical gas supply systems in hospitals and other healthcare facilities create an ecosystem of specialized gases and gas mixtures – including oxygen, medical air, nitrous oxide, nitrogen, carbon dioxide, medical vacuum and anesthetic gases
- ★ Gases are used across general wards, operating theatres, intensive care units, recovery rooms and other major treatment rooms
- ★ With the expansion of medical facilities in urban as well as rural areas, both public sector and private sector demand for medical gases, cylinders and other allied equipment is increasing steadily

Aerospace and Defense

Specialty Gases

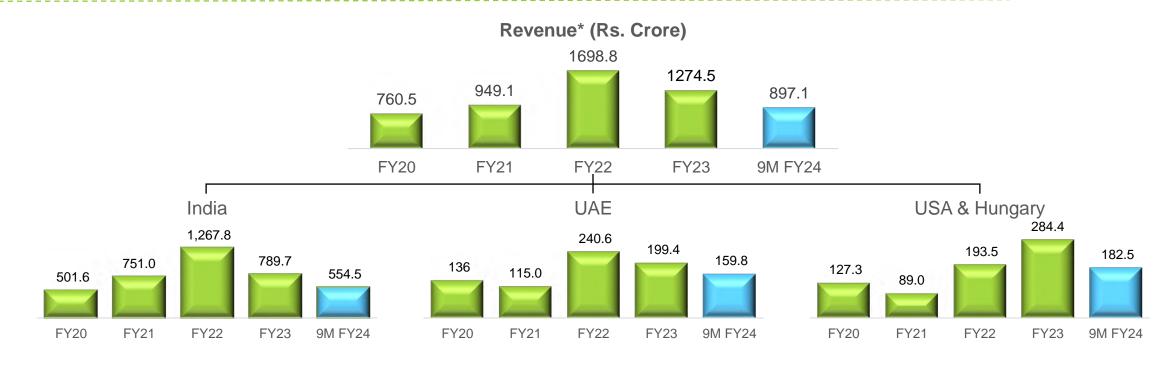

- ★ The Global Aerospace and Defence Industry has been growing on the back of rising commercial aircraft production and strong defence spending
- * Aerospace demand is focused on next-generation, fuel-efficient aircraft with order backlog continuing to rise – the industry uses gases extensively for a wide range of applications that cover welding, cutting, heating, laser gas, thermal spray coating, heat treatment processes
- ★ In the defence sector, continued global tensions and geopolitical risks have driven higher spending – growing demand based on replacement of fossil fuels with alternative fuels for operating aircraft, combat ships and vehicles, and supporting equipment

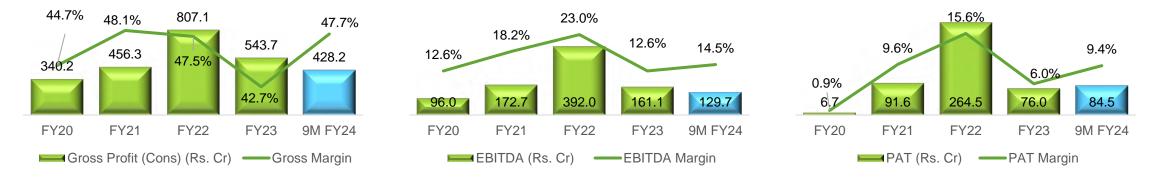

- ★ Growing number of gas applications in non-traditional areas such as space research, food preservation/distribution, agricultural processing etc
- ★ Key usage verticals include automobiles, F&B, oil and gas, construction, ports/shipping, space and thermal power etc

The above Balance Sheet is an extract of financial statements and has been regrouped for presentation

Ratio

Market leader in a sector with multiple, long-term growth drivers

		Green Hydrogen Policy – Positive step towards India's energy security	Hydrogen demand expected to increase 5-fold by 2050
Expanding	5X expansion of CNG pumps infrastructure underway	Almost complete population coverage in India by 2030	
	Opportunity	Auto OEM's expanding CNG vehicle production volumes	Anticipate higher volumes as the demand scenario normalizes in the future
		Sustained demand across multiple industrial sectors	Medical Oxygen, Hydrogen applications, Defence/Aerospace, Industrial demand
707	Established	#1 manufacturer of high-pressure gas cylinders in India	Established customer relationships built over four decades
	Operations	Global locations targeting international demand	Gas ecosystems in USA, Europe/CIS, South America and Africa
		Scaling up production by increasing utilization of facilities	Focus on increasing volumes, higher margin products
	Outlook	Expanding capacities	Capex with high ROI, financed by internal accruals
		Strong Financial Position and Cash Flows	Robust framework enables participation in multi-year growth opportunities

Everest Kanto Cylinder Limited (EKC) (BSE: 532684, NSE: EKC), established in 1978, is a clean energy solutions company and a leading global manufacturer of seamless steel gas cylinders with over 20 million industrial gas and CNG cylinders currently in service.

EKC operates two manufacturing facilities in India located at Tarapur (Maharashtra) and Kandla SEZ (Gujarat) and two international facilities at Jebel Ali Free Zone in Dubai and Pittsburgh (PA), USA, with aggregate capacity of about 1.5 million cylinders annually. EKC's product range of industrial, CNG and jumbo cylinders is used for high pressure storage of gases such as oxygen, hydrogen, nitrogen, argon, helium, air etc and finds applications in a wide variety of industries such as manufacturing, fire equipment/suppression systems, medical establishments, aerospace/ defense and automobiles apart from some specialized usage areas.

Given its strong position in the Indian domestic market and wide acceptance across several key international markets built over the last four decades, EKC is poised to benefit from the increasing usage of gases in industrial production and automobile sectors based on both economic and environmental considerations.
