SUBJECT: STRATEGY PRESENTATION ON THE YEARLY/QUARTERLY FINANCIAL RESULTS

Dear Sir/ Madam,

Please find enclosed herewith the strategy Presentation on the Audited Financial results for the year/quarter ended on March 31, 2024

Kindly take the same on record.

Thanking You

For Netweb Technologies India Limited

Netweb

TECHNOLOGIES

India's Leading High-end Computing Solutions (HCS) Provider

May 2024

BSE: 543945

NSE: NETWEB

Bloomberg: NETWEB:IN

This presentation may contain certain “forward-looking statements” within the meaning of applicable securities laws and regulations, which may include those describing the Company’s strategies, strategic direction, objectives, future projects and/or prospects, estimates etc. Investors are cautioned that “forward looking statements” are based on certain assumptions of future events over which the Company exercises no control. Therefore, there can be no guarantee as to their accuracy and readers are advised not to place any undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. These statements involve a number of risks, uncertainties and other factors that could cause actual results or positions to differ materially from those that may be projected or implied by these forward-looking statements. Such risks and uncertainties include, but are not limited to; growth, competition, acquisitions, domestic and international economic conditions affecting demand, supply and price conditions in the various business's verticals in the Company’s portfolio, changes in Government regulations, laws, statutes, judicial pronouncement, tax regimes, and the ability to attract and retain high quality human resource.

About Netweb Technologies

India's leading Indian origin, owned and controlled OEM in the space of High-end Computing Solutions (HCS)

Overview

- Offers a **full stack of product and solution suite** with comprehensive capabilities in designing, developing, implementing and integrating **high performance computing solutions**
- Collaborates with various technology partners such as **Intel Americas, Inc, AMD, Samsung India Electronics Private Ltd, Nvidia & Seagate India Private Ltd**
- **Develops homegrown** compute and storage technologies, **deploys supercomputing infrastructure** to meet the rising computational demands of businesses, academia, and research organizations
- **Compliant** with the **"Make in India"** policy of the Government of India
- One of the **few OEMs** in India eligible to participate in and seek incentives in terms of both the **IT Hardware PLI and Telecom and Networking PLI schemes**
- Established in **1999** with **manufacturing facility** located in **Faridabad, Haryana** and **17 offices** located across India

Business Tailwinds

'Make in India' Policy & 'PLI Scheme' of the GOI

'Make AI in India & Make AI work for India' initiative of the GOI

Growing demand for cloud-based services and network switches

Upgrading network to 5G technology driving 5G ORAN

GOI's approval of over ₹1,03,000 Mn for the IndiaAI Mission³ to catalyse India's AI ecosystem

500+ Supercomputing systems installed

5000+ Accelerator / GPU based AI systems & enterprise workstations

50+ Private cloud & HCI installations

3 Supercomputers listed eleven times in the world's top 500 supercomputers

FY24 Financial Metrics

Revenue from Operation: ₹7,241 Million
Customers: Govt. (47.3%) vs Non-Govt. (52.7%)

Op EBITDA Margin: 14.2%

PAT Margin: 10.3%

ROCE: 38.5%

ROE: 29.4%

Dividend*: ₹2/share

Dividend Pay-out Ratio*: 14.9%

Key Milestones

1999 ESTABLISHED

2004

KABRU - IMS CHENNAI
Was, then, one of the top 500 most powerful supercomputing systems in the world

2013

PARAM YUVA II- CDAC PUNE
69TH World's Most Powerful supercomputer at the time of commissioning

2017

Deployment servers as part of surveillance project at 204 locations across 23 states for a public sector undertaking

2018

Awarded **Intel Technology Provider Platinum 2018**
Best HPC Data Center Specialist

2022

Qualified for PLI - Telecom and Networking Product
Deployed 5G cloud for International telecom service provider
Launched container platform Kubyts enabling rapid deployment of AI & HPC

2019

Deployed **PARAM Ambar at ISRO** - India's 4th Fastest Supercomputer at the time of commissioning

2021

Qualified for PLI Scheme of GOI for **IT Hardware**
Outstanding Contribution in **Promotion of electronics & manufacturing of servers from MEITY**

2020

Received **Orders for Tyrone HPC Storage, Capacity 10500** Terabyte from R&D Organization of MEITY, GOI

2023

Deployed AIRAWAT - India's Largest and Fastest AI Supercomputing System & Ranked 75th in the world

Foraying into Network Switches & 5G ORAN

2023

Netweb Listing:
Listed on **27th July 2023** on BSE & NSE

2023

Manufacturing Partnership with NVIDIA:
For NVIDIA Grace CPU Superchip & GH200 Grace Hopper Superchip MGX server designs

Snapshot of Our HCS Offerings (1/2)

India's leading HCS provider with fully integrated design and manufacturing capabilities

(A) High performance computing (Supercomputing / HPC) systems

- Bespoke, and tailored with specialized hardware designs and architecture
- Cater to varied customer specifications

(C) AI systems and enterprise workstations

- Address standalone parallel compute-intensive applications, machine learning, deep learning, and support CF-CAD-CMD Applications

(E) Data Centre servers

- Designed to reduce the complexity of managing critical and heavy workloads
- Servers are advanced AI powered that allow intelligent and efficient data processing and storage

(B) Private cloud and hyperconverged infrastructure (HCI)

- Private cloud and HCI offers hyper-converged capabilities i.e., combining compute, storage, and network' to build:

(D) High performance storage (HPS/Enterprise Storage) solutions

- Centralized repository for business-critical information that provides data sharing, data protection across multiple computer systems

(F) Software and services for HCS offerings

- Cloud Managed Services – These are the partial or complete management and control of a client's cloud platform, including migration, maintenance, and optimization

FY24 – Revenue Breakdown by offerings^

- Supercomputing / HPC Systems
- Private cloud & HCI
- AI & Enterprise Workstations
- HPS solutions
- Data Centre Server
- Software & Service for HCS offerings
- Network Switches
- Spares & Others

^Govt & Non Govt Revenue on the basis of Revenue from operations excludes Other operating revenue

Snapshot of Our HCS Offerings (2/2)

High-End Computing Solutions (HCS) Offerings Suite

Archival & Surveillance
COLLECTIVO

Parallel file system

ParallelStor

Data Centre
servers

CAMARERO

Reimagine your Data center
strategies for running
modern workload.

Netweb has designed, developed and deployed some of India's most powerful supercomputers

Supercomputer	Year of Deployment	User	Speed in teraflops (Rpeak)	Speed in teraflops (Rmax)	Particulars
AIRAWAT	2023	Centre for Development of Advanced Computing, India (CDAC)	13,169.86	8,500.00	India's largest and fastest AI supercomputing system. Ranked 75th in the world and has been included in the 61st edition of Top 500 Global Supercomputing List released in June 2023
Agastya	2020	IIT Jammu	256.00	161.00	India's 27th fastest supercomputer
PARAM Ambar	2019	Indian Space Research Organisation (ISRO), Government of India	1,384.85	919.61	India's 4th fastest supercomputer
Hartree	2018	National Institute of Science Education and Research (NISER), Bhubaneswar	51.90	38.87	India's 29th fastest supercomputer

Supercomputer	Year of Deployment	User	Speed in teraflops (Rpeak)	Speed in teraflops (Rmax)	Particulars
Kalinga upgrade	2016 & 2020	NISER, Bhubaneswar	249.37	161.42	India's 26th fastest supercomputer
Kohinoor 3	2016	TIFR-TCIS Hyderabad	70.85	43.59	India's 20th fastest supercomputer
PARAM YUVA-II	2013	Centre for Development of Advanced Computing, India (CDAC)	529.38	386.71	the 69th most powerful supercomputer in the world
Kabru	2004	The Institute of Mathematical Sciences, Chennai	1.38	1.00	Our first Supercomputing system, which was then one of the top 500 most powerful supercomputing system in the world

Netweb's Diversified Application Industry Base

Catering to the end-to-end needs of customers that enable the company to attract new customers and diversify its customer base

^ % share of Total Revenue from operations

*Other enterprises includes BFSI, entertainment and media etc. ; ^Revenue from operations excludes Other operating revenue

HCS Offerings Portfolio

High Performance Computing (HPC)

India's largest manufacturer of Supercomputing systems

Designed, Developed & Deployed some of India's most powerful Supercomputing systems

AIRAWAT

PARAM Ambar

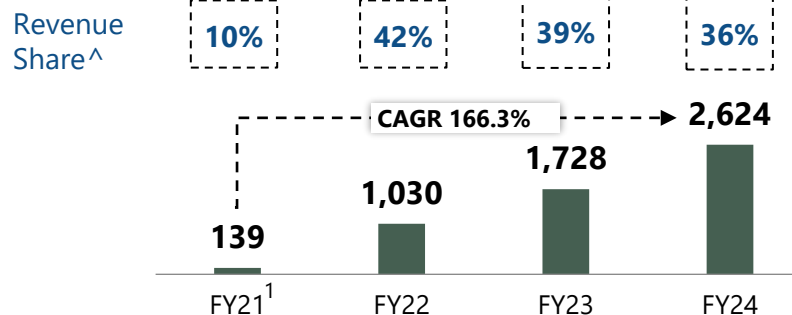

PARAM YUVA-II

❖ PARAM YUVA-II is one of the India's fastest and largest hybrid supercomputer

HPC Systems Overview

- In terms of the number of HPC installations, Netweb is **one of the most significant OEMs in India** amongst others*
- Equipped with '**Tyrone**' cluster management suite
- Deployed diverse Supercomputing systems ranging from **10 nodes to 400 nodes & scalable up to 1,000 nodes**, to cater to different customers' requirements
- **300+ HPC Installations** to various government institutions and private enterprises such as IITs, JNU, NMDC Data Centre, etc

Segmental Revenue Trend (INR Mn)

Indian HPC Market (\$Mn)*

Marquee Customers

*Source: F&S Report; Note: 1: FY21 was impacted due to COVID related disruptions; ^% share of revenue from operation excludes other operating revenue

Private Cloud and Hyperconverged Infrastructure (HCI)

Offers hyper-converged capabilities i.e. combining compute, storage, and network

The company's private cloud & HCI offering is built and sold under our Tyrone Skylus brand

Private Cloud & HCI Overview

- Provide a bespoke **hardware and curated software stack**
- Tyrone Skylus has enabled the company to **compete with foreign HCI OEMs**, virtualization ISVs, private cloud platforms, and general computing rigs
- Installations of **50+ private cloud and HCI** to marquee customers such as Graviton, Akamai, A.P.T. Portfolio, and Yotta Data.

Segmental Revenue Trend (INR Mn)

Marquee Customers

Indian Private Cloud & HCI Market (\$Mn)*

*Source: F&S Report; Note: 1:FY21 was impacted due to COVID related disruptions; [^]% share of revenue from operation excludes other operating revenue

AI Systems and Enterprise Workstations (AI & EW)

Address requirements of Supercomputing systems, machine learning and deep learning

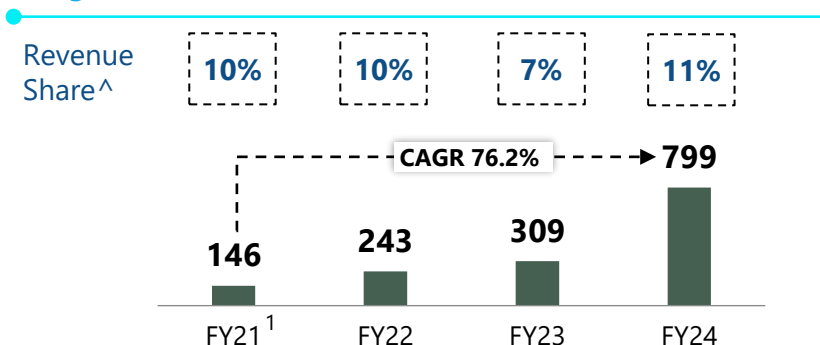

The company's AI Systems & workstations are designed to support wide range of applications such as

AI Systems & Enterprise Workstations Overview

- Equipped with **proprietary containerised application solution** (viz., **Tyrone Kubys**)
- Designed and developed a wide range of **over 50 workstation models** to customers such as Airamatrix & HL Mando
- Undertaken installations of **over 4,000 accelerator / GPU-based** AI systems and enterprise workstations for marquee customers such as IIT Jammu, IIT Kanpur, IIIT Naya Raipur, JNU, HL Mando, Hemvati University, and Airamatrix.

Segmental Revenue Trend (INR Mn)

Marquee Customers

Indian AI Systems & Enterprise Workstations Market (\$Mn)*

*Source: F&S Report; Note: 1: FY21 was impacted due to COVID related disruptions; [^]% share of revenue from operation excludes other operating revenue

High Performance Storage (HPS/Enterprise Storage) Solutions

HPS Solutions provide high throughput and high IOPs# storage for enterprise computation users

The company's hardware, software have been developed in-house and are compliant with the 'Make in India' policy*. Its HPS Solutions comprise:

Unified storage solution
(Tyrone Verta)

Parallel file system storage
(Tyrone ParallelStor)

Cloud native storage
(Tyrone Collectivo)

Surveillance and object storage
(Tyrone Collectivo with Fluid Input Output)

HPS Solutions Overview

- Capable of being **integrated into private & public cloud environments**
- Salient features of HPS solutions are **no single point of failure, scalable upto Exabytes, and built-in high availability**
- Facilitate **10 mn IOPs# & 100 GBps (scalable upto 450GBps)** throughput & designs that can be extended up to **1,000 petabytes**
- Provide HPS solutions to **marquee Customers** including Graviton, A.P.T. Portfolio, and INST.

Segmental Revenue Trend (INR Mn)

Marquee Customers

A.P.T.
Portfolio

Indian Enterprise Storage Market (\$Mn)*

*Source: F&S Report; Note: 1:FY21 was impacted due to COVID related disruptions; #Input/output operations per second; ^% share of revenue from operation excludes other operating revenue

Data Centre Server

Designing and Manufacturing servers to cater to disparate customer needs from entry-level servers to high-end 'mission-critical' servers

The company's current server models are typically designed and built with the dual processor configuration that enables multiple operations simultaneously, leading to low latency & better physical space utilization.

1U Server

2U Server

All-Flash NVME

4U 8 Node Server

GPU Server

Storage Server

Data Centre Server Overview

- Designed and built **over 200 dual-processor server models** under the brand 'Tyrone Camarero'
- Improving and customizing offerings to address specific requirements such as - **Low Rack Space Consumption, High in-built storage capability (up to 1petabyte (10¹⁵)), High Energy Efficiency** etc.
- Design and manufacture servers **in compliance with the 'Make in India'** policy
- Provide data center servers to **marquee Customers** including JNU, HL Mando, etc.

Segmental Revenue Trend (INR Mn)

Marquee Customers

HL Mando

Indian Data Centre Server Market (\$Mn)*

*Source: F&S Report; Note: 1:FY21 was impacted due to COVID related disruptions; ^% share of revenue from operation excludes other operating revenue

Software & Service for HCS

Providing private cloud software stack – Both on-premises and off-premises

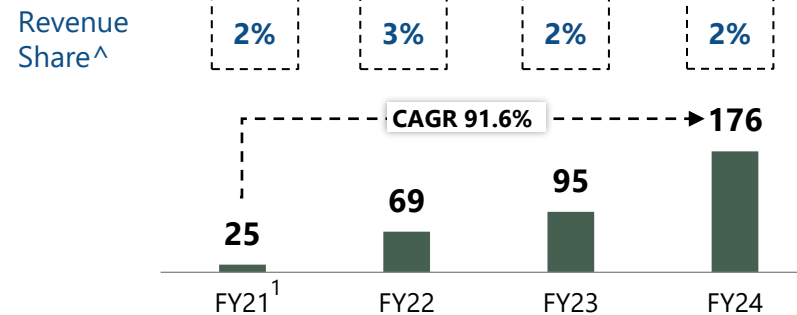

The company's cloud solutions comprise deployment services which include

Software & Service for HCS Overview

- **Private cloud software stack** to handle **complex workloads** (including 5G enterprise cloud, 5G edge compute, private 5G, and enterprise IT)
- Provide **'Big Data' centric solutions** that are designed to cater to data-intensive distributed applications under a single umbrella
- 'Big Data' centric solutions use **Tyrone Camarero dense systems, Tyrone Cluster Management Suite, and Tyrone Collectivo** range of specialized storage systems
- Provide software and services for HCS to **marquee Customers** including NMDC Data Centre and Graviton.

Segmental Revenue Trend (INR Mn)

Marquee Customers

NMDC
Data Centre

Indian Cloud Managed Services Market (\$Mn)*

*Source: F&S Report; Note: 1:FY21 was impacted due to COVID related disruptions; ^% share of revenue from operation excludes other operating revenue

Competitor Landscape

One of the few players in India who offers a full stack of product and solution suite with comprehensive capabilities in designing, developing, implementing, and integrating high end computing solutions

1 About Netweb Technologies

2 Key Investment Highlights

3 Growth Strategies

4 Annexures

Key Investment Highlights

1 India's leading Indian origin owned and controlled OEM for HCS with integrated design and manufacturing capabilities

2 Operates in a rapidly evolving and technologically advanced industry with high entry barriers

3 Significant product development and innovation through R&D

4 Long standing relationship with a marquee and diverse customer base

5 Track record of financial performance and consistent growth

6 Experienced Board & Senior Management Team

1. India's leading Indian origin owned and controlled OEM for HCS with integrated design and manufacturing capabilities (1/2)

Full stack of product and solution suite with comprehensive capabilities in designing, developing, implementing and integrating HPC solutions

Pre-compiled application stack

End user utilities

Proprietary middleware solutions

Deep Expertise in System Design & Architecture

Proprietary designs are cloud native

Proprietary designs are capable of catering to the evolving needs of Customers

Providing End-to-End Solutions with Fully Integrated Design & Manufacturing Capabilities, now compliant with Make in India policy

Design

Design proprietary hardware, middleware stack and related software solutions

Manufacture

Manufacturing facility capable of producing 200+ server models, 50+ workstation models & 15+ storage systems

Deployment

Deploy supercomputing infrastructure to meet the rising computational demands of customers

1. India's leading Indian origin owned and controlled OEM for HCS with integrated design and manufacturing capabilities (2/2)

End-to-End Designing & Production of Make-in-India Server

In-house Expert Design Team

Advance Technology Integration

Quality Control Measures

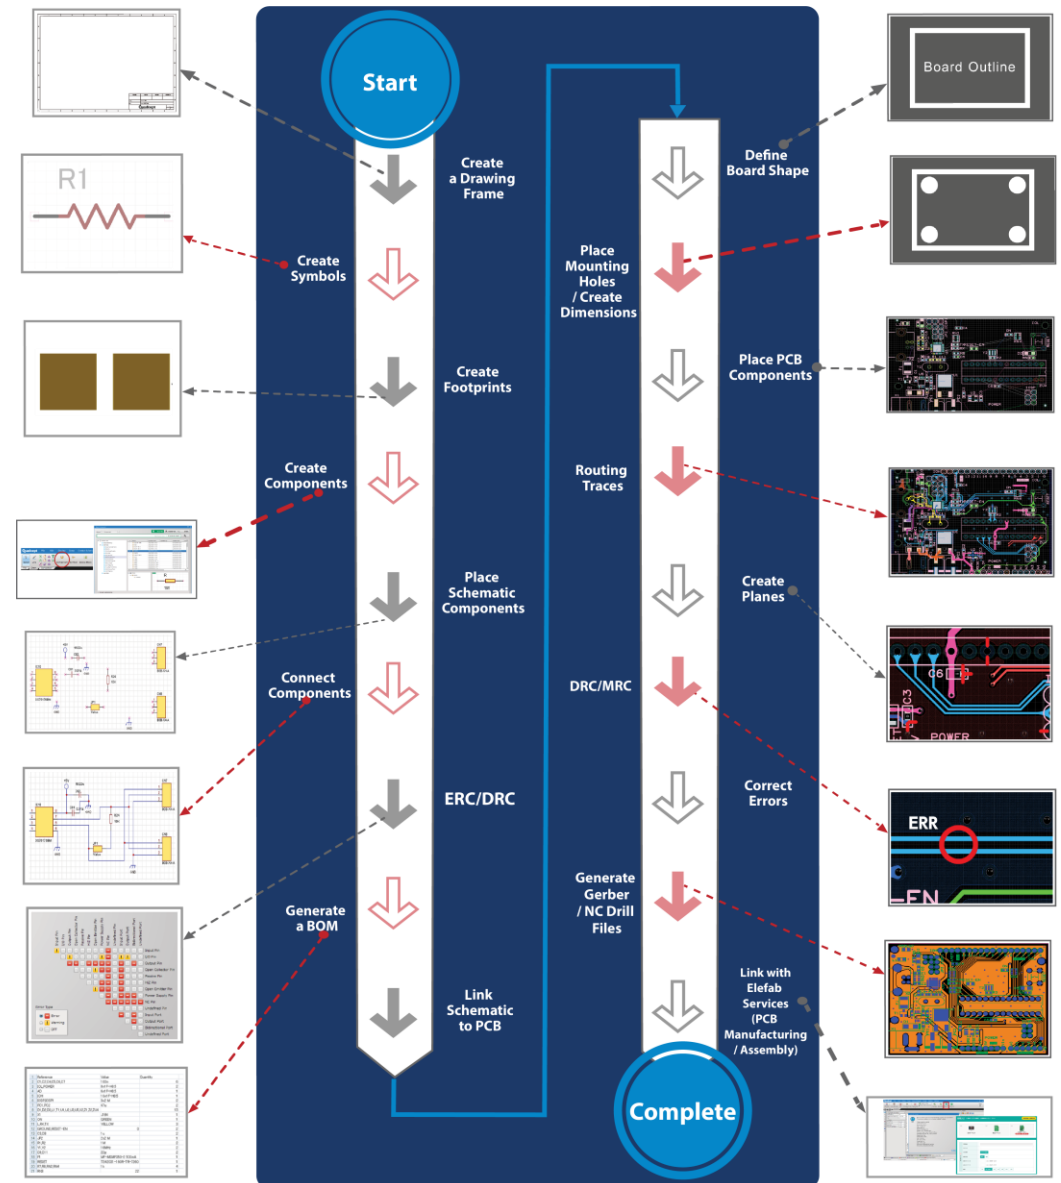

Very Low Failure Rate

Scalable Production Capacity

25 Years of Expertise in the Domain

2. Operates in a rapidly evolving and technologically advanced industry with high entry barriers

Experience of installing 500+ HPC systems, 50+ private cloud & HCI, 5000+ accelerator/GPU based AI systems & enterprise workstations

Experience gained in evolving projects

1

Setting up AI & deep learning labs at govt. institute, forensic workstation at GOI dept & Big Data computing lab at a govt. institute

2

Installations of High-Performance Storage solution for a Fintech Company to deliver 450GBps throughput

3

Developing and building Supercomputing systems such as AIRAWAT, Agastya, PARAM Ambar, PARAM YUVA-II and Kabru

Our Capabilities

Continuous R&D in

Manufacturing servers

Supercomputing systems

Containerized Application Solution

Technical Skillset

Kernel level design

Hardware product designs

Fine-tuned PCB layouts

Mix workload capabilities

Dense architectures

Repository of HPC-AI codes

Industry Entry Barriers

Rapidity of technological advancement necessitates:

- Hardware, Middleware & Application-level Innovation
- Application Optimization
- Track Record of Customer Service
- Fine tuning of Architectures

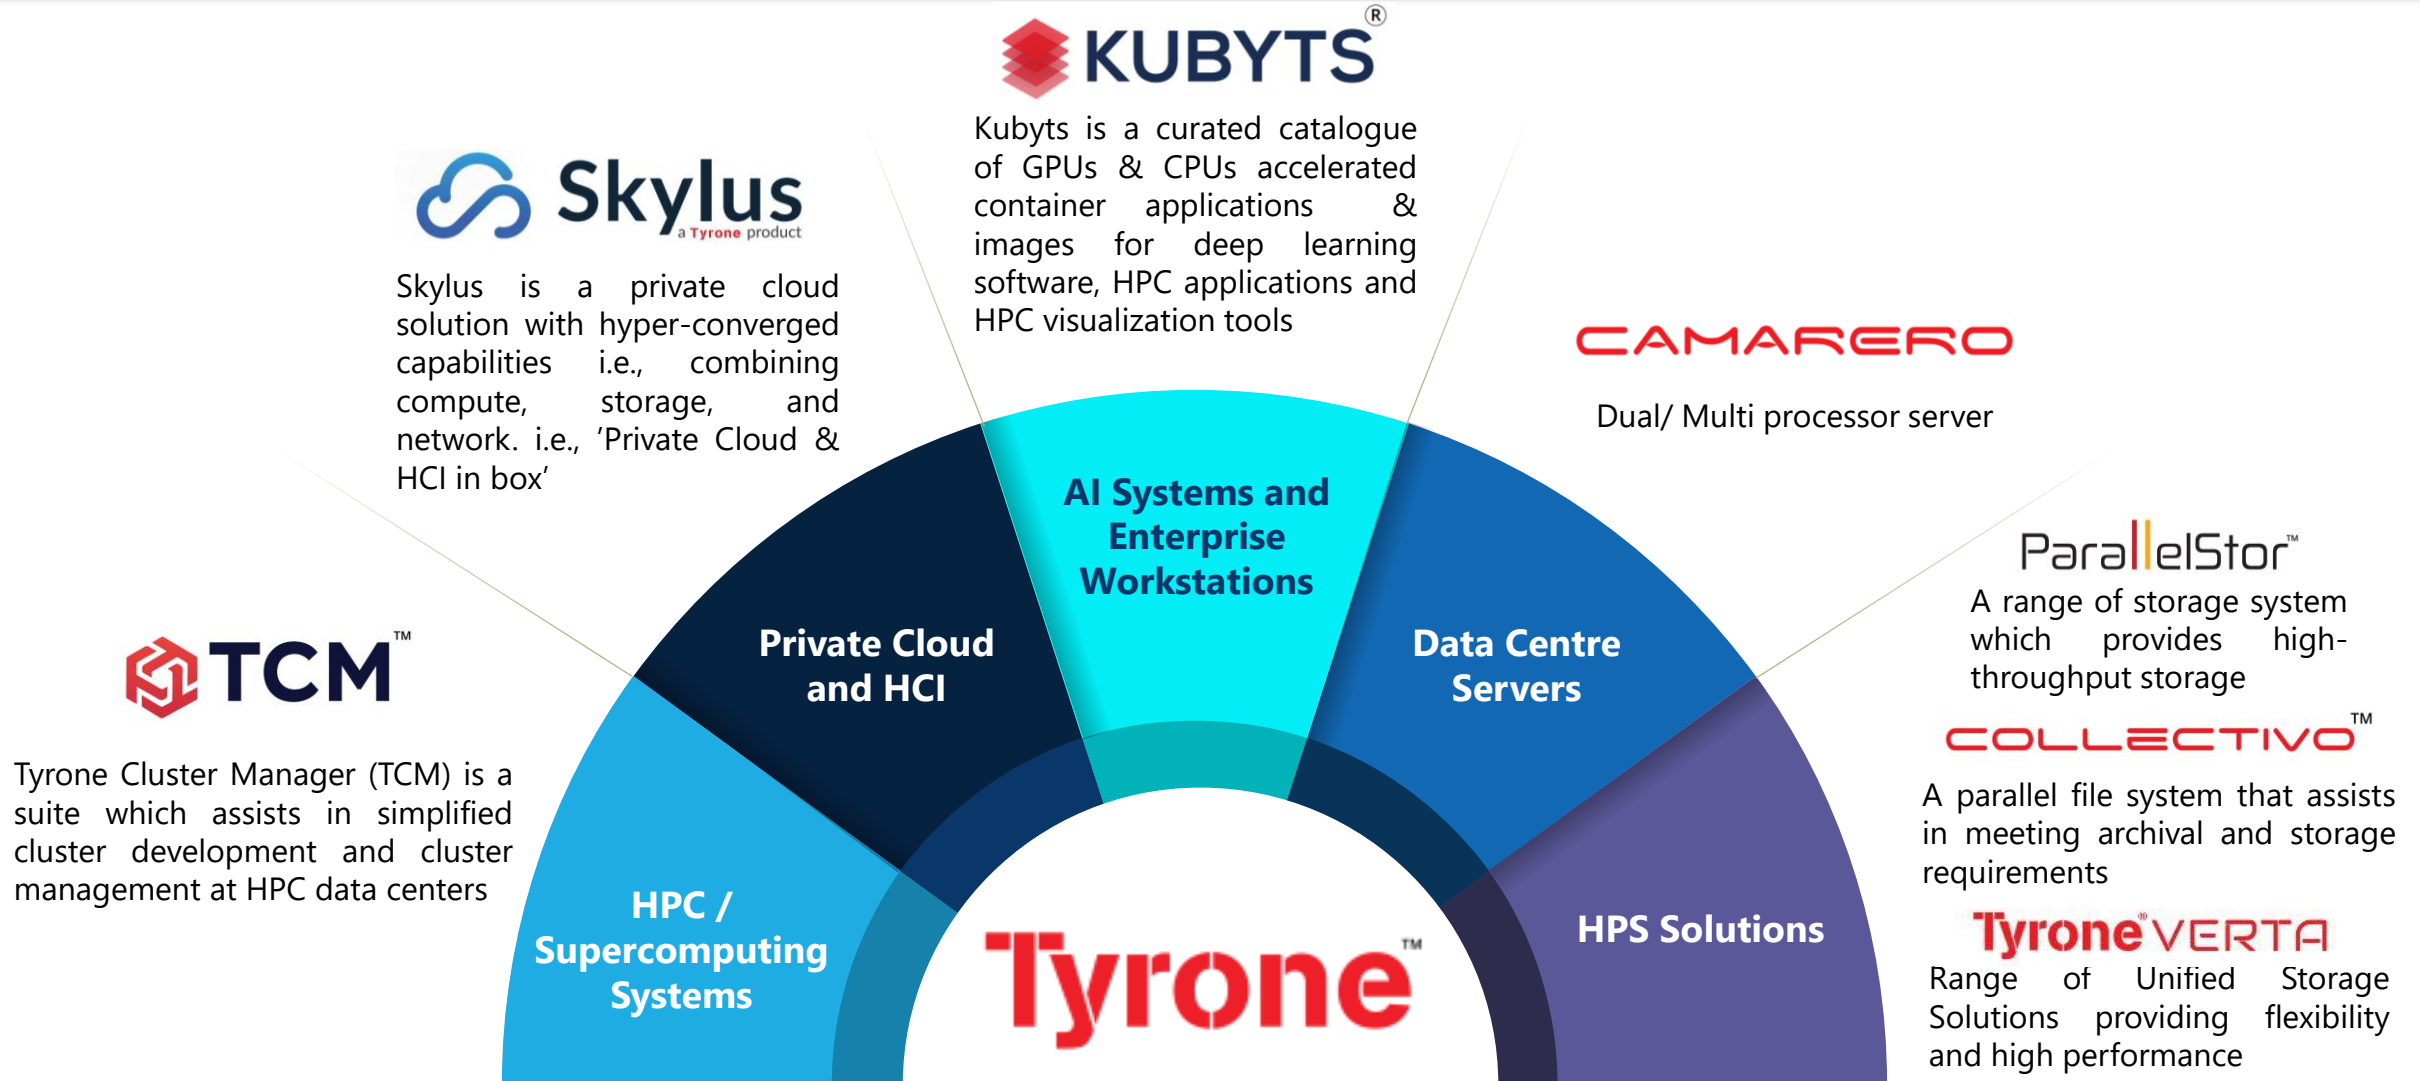

Modification of designs and changes in implementation requires

- Deep Expertise in system design & architecture
- Expertise in Hardware & middleware
- Exposure to large problem sets
- Technical skill set & expertise

3. Significant product development and innovation through R&D

Independently design and innovate products and solutions offerings and provide services tailored to specific customer requirements

The company's R&D Facilities has enabled it to increase its product lines across different HCS offerings

6. Experienced Board and Senior Management Team (1/2)

Board of Directors

Sanjay Lodha
Chairman and Managing Director

- Founded Netweb Technologies in 1996 which was acquired by our Company in August 2016
- Been on Board of Advisors for Intel for the year 2020 and 2022
- BA (hons) in economics & PG diploma in business management

Navin Lodha
Whole Time Director

- Leads West Zone of company's sales and Marketing Dept
- 15 + years of experience in sales and marketing
- Holds bachelors degree in commerce

Vivek Lodha
Whole Time Director

- Leads East Zone of company's sales and Marketing Dept
- 15 + years of experience in sales and marketing
- Holds bachelors degree in commerce

Niraj Lodha
Whole Time Director

- Leads South Zone of company's sales and Marketing Dept
- 15 + years of experience in sales and marketing
- Holds bachelors degree in commerce

Mrutyunjay Mahapatra
Independent Director

- Has served as Deputy MD at SBI & MD and CEO of Syndicate Bank
- 40+ years of experience in Banking and Finance Sector
- Holds Bachelors and Masters Degree in Physics

Jasjeet Singh Bagla
Independent Director

- Presently associated with IISER, Mohali
- 23+ years of experience in Research and Academia
- Holds Bachelors and Masters Degree in Science, PhD in Physics

Romi Jatta
Independent Director.

- Presently Group Chief Procurement Officer at Minda Corporation Ltd
- 20+ years of Experience
- Holds Bachelors degree in Electronics Engineering

Vikas Modi
Independent Director

- Partner in Doogar and Associates, a CA firm Since 2006
- Holds a Bachelors Degree in commerce , CA with membership from ICAI

6. Experienced Board and Senior Management Team (2/2)

Senior Management – led by people with significant experience in HCS Industry

Hemant Agarwal

Chief Operating Officer

- 20+ years of experience with the company
- Holds a bachelors' degree in commerce from the University of Calcutta

Hirdey Vikram

Chief Sales and Marketing Officer

- 11+ years of Experience with the company
- Previously associated with HCL Infosystems Limited
- Holds a B.Tech (Information Technology)

Mukesh Golla

Chief Research and Development Officer

- 19+ years of Experience with the company
- Holds a B.Tech (Computer Science and Engineering)

Other Key Management Personnel

Prawal Jain

Chief Financial Officer and Chief Human Resource Officer

- 24+ years of experience in Accountancy and Finance
- Holds a bachelors degree in commerce and is a chartered accountant

Lohit Chhabra

Company Secretary and Compliance Officer

- 8+ years of experience in secretarial compliance
- Holds a Bachelors degree in commerce and also holds a certificate of membership from the Institute of Company Secretaries of India

1 About Netweb Technologies

2 Key Investment Highlights

3 **Growth Strategies**

4 Annexures

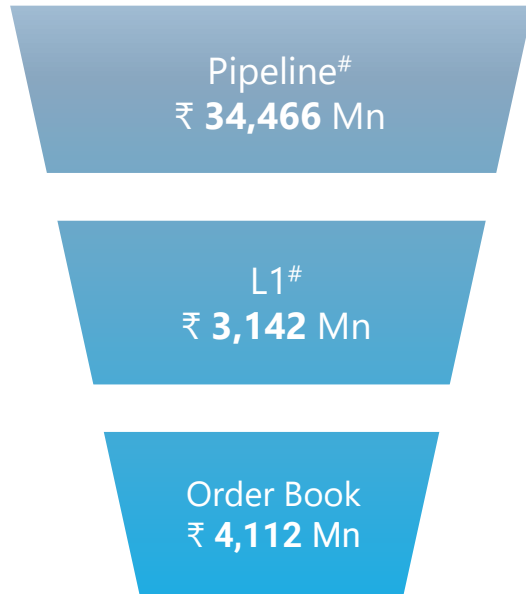

Growth Drivers

Opportunities to realize sustainable growth of the business

Strong Topline Visibility

Enhanced Capabilities

State of the art new manufacturing facility with latest **Surface Mount Technology (SMT)** to be commissioned soon

Partnership with **NVIDIA** as a select manufacturing OEM for **latest Gen AI systems** to unlock potential of AI and High-Performance computing

Launched **Intel Sapphire Rapids** & **AMD Genoa** based 'Make in India' high-end computing servers

Enhanced Opportunities

Increasing investments in **Generative AI** infra by Govt & Large enterprises to cater to demand for **LLM oriented solutions**

Heavy adoption of **Private Cloud** across sectors

Huge demand of high-end compute for booming **in-bound data centers** across India

Foray into Europe & Middle East – plan to setup service network in **4 countries** to start with

Expanding Product Portfolio

Forayed into developing new product lines, viz., **Network Switches** and **5G ORAN** Appliances

On-prem **AI Sovereign cloud** for demand of contemporary data & AI workloads

1 About Netweb Technologies

2 Key Investment Highlights

3 Growth Strategies

4 Annexures

Annexure - Key Industry Drivers

Growth in the Indian IT Industry

Upgrade to 5G, "Make in India" and PLI Schemes are some of the elements that will contribute to the expansion of Indian IT industry

Indian IT Market

Market Size in \$ Bn

India IT market by computation type is segmented into HPC Systems, Workstations, other devices infrastructure, software, IT business services, Emerging tech and telecom services

GOI is expected to make strategic technological investments in the below sectors which is expected to drive the India IT industry

Expected to grow with a CAGR of over 3% by FY 2027, as the GOI plans to invest \$ 102.49 Bn on oil and gas infrastructure; driven by the use of HPC solutions such as supercomputers and AI in the areas like Seismic Data Analysis

Expected to grow at ~8-10% till 2027; driven by the use of HPC solutions such as supercomputers and AI

Expected to grow at a CAGR of 27-30% till 2025; AI helps banks to process large volumes of data and predict the latest market trends, currencies, & stocks

Factors driving IT manufacturing in India

'Make in India' Initiative

'Atmanirbhar Bharat Abhiyan' (Self-reliant India) – To **boost local manufacturing** of mobile phones and electronic components & to **make India a global manufacturing hub**

Production Linked Incentive scheme

Scheme of ₹ 121,950 Mn over 5 years¹ – Incentivise companies who will **manufacture specified telecom and networking products** – Enterprise Equipment such as Switch & Router

Upgrading network to 5G technology

Indian telecoms are looking at **Open RAN as a potential way to reduce network-related expenses** and customize. Open RAN reduces reliance on existing providers

China + 1 Strategy

Tech companies are slowly **shifting production away from China** - In response to growing concerns about the geopolitical tensions & pandemic-induced supply chain disruptions in the last few years

Increasing adoption of AI

Increasing usage of AI in various industries like telecommunication, BFSI, automobile, oil & gas result in the expansion of Indian IT industry

High-Performance Computing Market (HPC)

Indian HPC Market (\$ Mn)

Key Growth Drivers of HPC Market

- NSM was announced in 2015, to connect national academic and R&D institutions with a grid of more than **70 high-performance computing facilities**.
- **Only 16.67% of the total budget of ₹4,500** is utilized in 4.5 years for execution of NSM
- In Nov 2022, **EU & India signed** an "Intent of cooperation on High Performance computing and Quantum Technologies"
- **Increasing cloud-based monitoring** will drive adoption of HPC
- Increased usage of HPC products and services to **drug discovery and healthcare**; and Increasing investments in the **Industrial Internet of Things (IIoT), artificial intelligence (AI), and engineering, which demand electronic design automation (EDA)**

Private Cloud and Hyperconverged Infrastructure (HCI) Market

Indian Private Cloud & HCI Market (\$ Mn)

Key Growth Drivers of Private Cloud & HCI Market

- **Drop in usage of traditional data centre infrastructure**, from 41% to 18% in two years as cloud usage accelerates
- Private clouds **offer the same control and security** as traditional on-premises infrastructure and makes workload performance predictable
- **Military expects small deployable** communications systems that allows them to take their applications and data into the war field so that they can access them locally.
- HCI and private cloud **will witness greater adoption in the India Telecom sector** with increasing investment in 5G.
- **Unified management, and Automation Unified management** promises to reduce the number of tools needed to run IT infrastructure and cuts training requirements, **makes HCI easier to scale**

AI Systems & Enterprise Workstations and Data Centre Server Market

AI systems and Enterprise Workstations (AI & EW)

Indian AI & EW Market (\$ Mn)

Key Growth Drivers of AI & EW Market

- GOI in the budget for Fiscal 2024 has announced that “for realizing the vision of **“Make AI in India and Make AI work for India”**, three centres of excellence for Artificial Intelligence will be set-up in top educational institutions
- **Growing demand of GPUs** in high-end gaming consoles & crypto currency mining market
- **Increase in 3D animation, networking and graphics & digital content creation**
- Aids in **enhancing government payment schemes**
- GPU is an **integral part of the AI & EW** in govt supercomputers
- **BFSI industry generates a lot of data** that needs to be processed and examined with the use of AI & EW.

Data Centre Server

Indian Data Center Server Market (\$ Mn)

Key Growth Drivers of Data Center Server

- Indian Data Centers to **receive investments up to Rs.1.20 lakh crore**, according to an article from the Economic Times 2022 and a whitepaper from ICRA
- Push for **data localization to ensure 75%** of the data remains within the country
- **The Data Protection Bill**, may lead to a significant onshoring of Indian citizen's data from offshore data centers to Indian data centers.
- **China plus one Strategy and Make in India Initiatives** of GOI promoting growth

Enterprise Storage and Cloud Managed Services Market

Enterprise Storage System

Indian Enterprise Storage Market (\$ Mn)

Key Growth Drivers of Enterprise Storage Systems Market

- **Rising number of colocation** data centers & increasing unstructured data generated from mobile computing devices
- **Primary workloads for storage deployments in India** that drove the market growth included technology upgrades, ERP upgrades, surveillance, digital transformation & 5G rollouts
- Enterprise storage **has emerged as the most popular** and effective way to store digital data particularly for small and medium-sized businesses.
- **The use of SSDs** (Solid State Drives) over HDDs (Hard Disk Drives) has grown in popularity across industries due primarily to their **superior performance, increased durability, and cost-effective power efficiency**

Cloud Managed Services

Indian Cloud Managed Services (CMS) Market (\$ Mn)

Key Growth Drivers of Cloud Managed Services Market

- **Rising demand for cloud managed services** for business continuity, increase in need for business agility and automation
- **Faster and easier** deployment of applications with **pay-as-you-go model**
- **Increasing adoption of automated machine systems** for e-prescriptions and telemedicine.
- Biotech & pharmaceutical companies are **adopting digital solutions** to optimize drug development process
